Re: Contract PA-18
Underground Parking Garage—
Kennedy Square
Darin & Armstrong, Inc.
Contract Change

Gentlemen—During construction of the air exhaust tunnels along Woodward Avenues, the Contractor was required to provide guards for the control of pedestrian traffic. This was an additional requirement imposed by the Department of Streets and Traffic not contemplated in the original contract. The City Engineer recommends payment to the Contractor in the amount of \$3,405.06 which represents one-half of the actual cost for the uniformed guards required. Funds are available in Account 844-9660-928.

It is, therefore, recommended that the work be added to the existing Contract PA-18, in accordance with the Contract provisions for changes in the work.

Respectfully submitted,
WILLIAM L. FINNIN
Director

Honorable Common Council:
Re: Petition No. 3255 — F. R. Gerbig, Sr. — Vacation of alley bounded by Fort, 22nd, 23rd, and Lafayette Streets.

Gentlemen—The above petition requests the vacation of the east-west and north-south public alleys, 13.03 feet and 10 feet wide, in the block bounded by 22nd, 23rd, Fort, and Lafayette.

The requested vacation was approved by the City Plan Commission. The petition was then referred to us for investigation and report. Our report, accompanied by the original

petition, is as follows:
All City Departments and privately-owned utility companies reported that they will be unaffected by the vacation of said alleys or that they have reached satisfactory agreements with the petitioner regarding their installation therein. The petitioner has further requested the return of monies deposited by him for closing the vacated alley and paving new return in connection with earlier vacation and dedication of a portion of the alleys in this block as recorded in December 6, 1950, J.C.C. 3368. This work was never done and the petitioner now requests that work not be done at this time. He has agreed by letter filed with this petition to pay all costs incidental to the removal of same whenever discontinuance of use makes removal of same necessary. The adoption of the attached resolution is recommended.
Respectfully submitted,
ROBERT E. TOOHEY
