Corporation Counsel

July 2, 1969

Honorable Common Council:

Gentlemen-We are returning herewith petition of John F. Hamilton, et al (No. 7717) requesting the re-exchange of certain properties in the Joseph H. Berry Subdivision, immediately south of Jefferson Avenue between Lodge and Parkview Drives.

In accordance with a resolution adopted by your Honorable Body on February 11, 1958 (J.C.C. pages 213-214), deeds were exchanged between the petitioners and the City for land required for the elimination of a jog between McClellan and Parkview Avenues at Jefferson.

The revised alignment for the Riverfront Park Drive, as adopted by your Honorable Body on November 11, 1964 (J.C.C. page 2532), no longer requires this jog elimination for McClellan and Parkview Avenues but instead proposes the improvement of Jefferson Avenue in this area.

The City Plan Commission in its communication to your Honorable Body dated January 2, 1969, advised that the parcel of land acquired for jog elimination, presently designa-ted McClellan Avenue, is no longer elimination, presently designaneeded for street purposes.

In view of the above, this office recommends that your Honorable Body adopt the attached resolution vacating the parcel of land acquired for the jog elimination, presently authorizing the re-exchange of deeds All that part of Lot 4 of Jos. H.

Aviation Commission February 4, 1969

Honorable Common Council:

Re: Updating Detroit City Airport Master Plan.

Gentlemen-In order to best serve the aviation needs of the City of Detroit and continue as the number one General Aviation airport in the State, the Aviation Commission considers it necessary to update the Airport Master Plan that was initially developed during 1959-60. The major features of the original plan have been implemented and were proven to have been highly effective.

Whereby the future potential of the airport is great, the ability to expand beyond the present boundaries is not considered economically feasible nor in the best interests of the City of Detroit. Consequently, a very careful analysis in the form of an updated Airport Master Plan is needed to best determine future development of the limited area available to the airport. This plan or study is also designed to determine the role the airport must assume in the future to best serve the needs of the City of Detroit, General Aviation and the flying public.

After considering the merits of six different consulting firms, the Avi-
