Honorable City Council:

Re: Petition No. 5. Higgins Management Company, Conversion to Easement of a portion of the north-south alley north of Jefferson between Hibbard and Holcomb

The above petition requests the conversion of the above described alley, 18 feet wide, into an easement for public utilities. The requested conversion into easement for public utilities was approved by the Community and Economic Development Department with the recommendation that sufficient land be dedicated for a new alley outlet into Hibbard. The petition was then referred to us for investigation and report. Our report, accompanied by the original petition, is as follows:

A Warranty Deed has been received from the petitioner, deeding to the City of Detroit, land for the new alley-outlet into Hibbard Avenue. This deed was approved as to form and execution by the Law Department and as to description by the City Engineering Department, and is attached for your Honorable Body's acceptance.

The petitioner has requested that the paving of the new alley and alley return be done by private contract, this Department has no objection provided the work is done under City permit and inspection and according to City specifications and that the entire cost be borne by the petitioner.

All other involved City departments and privately-owned utility companies reported that they have no objections to the conversions of public right-of-way into easement

provided that proper provisions are incorporated into the vacating resolution protecting their installations located therein.

The adoption of the attached resolution is recommended.

Respectfully submitted,
