The above petition requests the conversion of the above described east-west alley, 16 feet wide, into an easement for public utilities. The requested conversion into easement for public utilities was approved by the Community and Economic Develop-

All City departments and privately-owned utility companies reported that they will be unaffected by the conversion to an easement of said alley or that they have reached satisfactory agreements with the petitioner regarding their installation therein.

Honorable City Council:

Re: Designation of the City Engineering Department as an Authorized Public Agency as defined by the Soil Erosion and Sedimentation Control Act of 1972.

The passage of the Soil Erosion and Sedimentation Control Act of 1972 by the State of Michigan sets forth a program to protect the streams and lakes of the State. The intent of this act is to control and minimize the amount of soil that reaches our waters every day. This sediment may cause great damages which become a burden to local government, business and citizens.

The Act directs that each county designate a county agency as the county "enforcing agency" responsible for administration and enforcement of the provisions of the Act.

The Act further directs that a state, local, or county agency may apply to the Water Resources Commission of the Department of Natural Resources for designation as an "Authorized Public Agency". This Authorized Public Agency designation enables the agency to administer its own construction projects without obtaining project-by-project approval of its sedimentation and erosion control plans by county or state agencies.

Designation as an Authorized Public Agency can be granted by approval of the Water Resources Commission of a soil erosion and sedimentation control program governing all land uses normally undertaken by the local agency.

Your approval of the City Engineering Department's application for Authorized Public Agency designation is hereby requested.

Attached is an appropriate resolution for consideration by your honorable body.

Respectfully submitted,

H. T. DUDLEY,

Director

By Council Member Cleveland:

WHEREAS: the City of Detroit supports the purpose and intent of the State of Michigan to provide for the control of soil erosion and to protect the waters of the State from sedimentation as established in the Soil Erosion and Sedimentation Control Act and its General Rules, and
