

Project and costs incidental to issuance of the Bonds;

(ii) The fact that the Bonds may be issued from time to time in one or more series;

(iii) The fact that the Project will be sold or leased to the Company;

(iv) The fact that the Bonds will be issued in accordance with the provisions of Act No. 62 and that the principal and interest thereon will not be a general obligation or debt of the Municipality and will in no event be payable from any tax revenues or other general funds of the Municipality but will be payable solely and only from payments to be received from the Company or the Parent and other net revenues, if any, derived from the Project;

(v) The fact that the notice is given to and for the benefit of the electors of the Municipality in order to inform them that the Bonds will be issued without submitting the question of issuance to the electors, unless within 45 days from the publication of the notice a petition signed by not less than 5% of the registered electors requesting a referendum upon the question of the issuance of the Bonds is filed, and specifying that in such event the Bonds will not be issued unless and until approved by a majority of the electors voting at a general or special election; and

(vi) Such other facts and circumstances as may be deemed appropriate by the Finance Director, Corporation Counsel of the Municipality and bond counsel to fully inform the electors of the Municipality with respect to the transaction and as may be required by law.

The notice shall be in such form, not inconsistent with the provisions of Act No. 62 and this resolution, as the Finance Director shall, with the advice of the Corporation Counsel of the Municipality and bond counsel, determine and approve. Such notice of intention to issue Bonds with respect to any proposed issuance of Bonds shall be published at such time as the Finance Director shall, with the advice of the Corporation Counsel of the Municipality and bond counsel, determine, in a newspaper of general circulation in the Municipality which at the time is a newspaper in which announcements of the Municipality are generally published. The published form of the notice of intention to issue Bonds shall occupy an area of at least 1/4 of a normal newspaper page.

8. The City Council determines that the form of notice of intention authorized and the manner of publication directed is a reasonable and effective method of giving such notice and that the same is adequate notice to electors

of the Municipality as to the nature and extent of the obligations to be represented by the Bonds, and any issue thereof, and as to the right of petition, considering all of the circumstances, including the cost of and availability of other means of notice and the facts that:

(a) The Bonds will be special obligations of the Municipality, and the payment of the principal and interest thereon is to be made solely from net revenues to be received from the Project and the payments to be made by the Company or the Parent.

(b) The Bonds will not constitute a general obligation of the Municipality nor constitute a debt of the Municipality within the meaning of any constitutional, statutory or charter limitation.

(c) The Municipality will not be obligated to assess any taxes whatsoever for the payment of principal and interest on the Bonds.

(d) No elector of the Municipality will be required to pay any fees or charges in connection with the Project and all expenses in connection therewith are required to be borne by the Company.

9. All resolutions and parts of resolutions insofar as they conflict with the provisions of this resolution be and the same hereby are rescinded.
