#### Department of Public Works

September 5, 1980

Honorable City Council:

Re: Petition No. 3334, Paul Sigal and Associates. Conversion to Easement of the north-south public alley in the block bounded by Third, Second, Brainard, and Selden.

The above petition requests the conversion of the above described portion of alley, 20 feet wide, into an easement for public utilities.

The requested conversion into easement for public utilities was approved by the Community and Economic Development Department. The petition was then referred to us for investigation and report. Our report, accompanied by the original petition, is as follows:

The petitioner has requested that the paved return at the entrance to the alley to be vacated remain in its present status as the petitioner plans

to utilize same, and has agreed to pay all costs incidental to the removal of same whenever the discontinuance of use makes such removal necessary.

The petitioner has also requested that the light remain in the alley and has agreed to enter into an annual maintenance agreement with the Public Lighting Department.

All other involved City departments and privately-owned companies reported that they have no objections to the conversion of public right-of-way into easement provided that proper provisions are incorporated into the vacating resolution protecting their installations located therein.

The adoption of the attached resolution is recommended.

Respectfully submitted,
