Honorable City Council:

Re: Petition No. 803, Detroit Medical Center, Vacate Utility Easements.

The Board of Trustees of Detroit General Hospital and the Board of Governors of Wayne State University requested the vacation of two public utility easements between Brush Street and St. Antoine in the Medical Center.

These easements and the utilities constructed therein, interfered with the construction of the new University Clinic Building and the new Detroit General (Receiving) Hospital.

The Processing of the petition was suspended in 1975 at the request of the utilities as they had not made satisfactory arrangements to relocate their facilities. The Department of Water and Sewerage and Detroit Edison Company were granted an easement for this relocation by Wayne State University and subsequently relocated their lines. They did not report this at that time, but now report that they have no objections to the vacation of the easements.

A resolution vacating the easements is respectfully submitted for your Honorable Body's consideration and adoption.

Respectfully submitted,  
LOUIS W. KLEI  
City Engineer

Honorable City Council:  
Re: Petition No. 803, Detroit Medical Center; Vacate Utility Easements.

In connection with the completion of the new Detroit Receiving Hospital Project, involving Detroit General Hospital and the Wayne State University Clinic Building, it is necessary that certain utility easements must be formally vacated (in vacated Willis Avenue and vacated Superior Avenue). The letter and resolution from the City Engineering Division of the Department of Public Works relative to the captioned petition is in response to the original petition to your Honorable Body from Wayne State University and Detroit General Hospital that was filed in 1974.

As your Honorable Body is aware, the ownership of the affected land is to be changed to reflect the current financial arrangements regarding the new Detroit Receiving Hospital and the Wayne State University Clinic Building. With respect to the Wayne State University Clinic Building portion of the property, the affected land is to be transferred from Wayne State University to Detroit Receiving Hospital and University Health Center, a Michigan nonprofit corporation. With respect to the portion on which the hospital is located, Detroit Receiving Hospital and University Health Center will have subleased the facility from the City of Detroit, and the City of Detroit has leased the facility from the City of Detroit Building Authority, the title holder to the affected land.

Consequently, in order to insure that all parties who will have an interest in the affected land have agreed with the requested vacations of the easements in vacated Willis and Superior Avenues, we are submitting the supplemental petition signed by Detroit Receiving Hospital and University Health Center, the City of Detroit, the City of Detroit Building Authority, and Wayne State University.

Respectfully submitted,  
EMMETT S. MOTEN, JR.  
Director

### Recreation Department

June 12, 1980

Honorable City Council:

Re: Authorization to accept a grant from the National Endowment for the Arts to support the Recreation Department's series of workshops and meetings in order to "Build Community Bridges."

The National Endowment for the Arts has approved the Recreation Department's proposal to sponsor a series of workshops and meetings to support the integration of the arts in recreation planning.

The City of Detroit will receive \$10,000 for the program period November 1, 1979 to November 1, 1980. There will be no required local-match. It is understood that Endowment funds will be the sole source of support for this project.

We request authority to accept the grant and for a Waiver of Reconsideration.

### Recreation Department

June 20, 1980

Honorable City Council:

Re: Authorization to transfer funds between Appropriations.

This Department finds that two of our appropriation accounts have developed shortages, and adjustments are required within our department's budget structure.

During the current fiscal year, in order to provide the maximum amount of services possible, we will exceed budgeted costs in our Public Service and Forestry divisions. The Public Service overruns are due mainly to increased costs for operation of the refectories and golf courses and maintaining seasonal workers as long as possible. The Forestry overruns are the result of approximately \$800,000 of encumbrances that were brought forward from the 1978/79 fiscal year, by the Finance Department, without bringing forward matching appropriations.

Therefore, we respectfully request the following transfers and we request a waiver of reconsideration so that we may expedite payment of our obligations.

From: Appropriation #0134 — \$900,000, To: Appropriation #0137 — \$900,000.

From: Appropriation #0138 — \$300,000, To: Appropriation #0135 — \$300,000.

Respectfully submitted,  
DANIEL H. KRICHBAUM  
Director
