Honorable City Council:

Re: Environmental Health Reporting Process (FICS 28-8428).

The Health Department has been offered a grant in the amount of \$20,000 from the Michigan Department of Public Health to participate in the utilization of a new statewide environmental health activity reporting process. The grant period is September 15, 1980 through September 15, 1981.

The grant will be used to train staff in the operation of the environmental health activity reporting system and in the collection of environmental health activity transactions. The data will then be converted to a machine readable form so that machine produced evaluation reports can be obtained in regards to environmental activities.

In order to be consistent statewide, the Michigan Department of Public Health had requested that we utilize Diversified Data Processing & Consulting, Inc. to do the data conversion. The State has commissioned this company to handle all data conversions as it relates to this project.

May we, therefore, request authorization to accept the grant in accordance with the foregoing information.
