

Schools coupled with the relatively short amount of time prior to the desired start date of program effectively precludes the presentation of a contract, with the approval of all appropriate city departments, to City Council prior to the December 19, 1981, start date.

It is as a consequence of this particular dilemma that I am requesting City Council approval to allow the Police Department to conduct the training program prior to City Council approval of a contract with the Detroit Public Schools.

I assure you that a completed contract covering this program, together with all necessary documents, will be presented to City Council as soon as such a contract has been approved by School officials and has received the approval of all appropriate City departments.

In light of the fact that both the City of Detroit and the Detroit Public Schools exist to serve particular needs of the citizens of Detroit, I think it is important that the City and the Schools cooperate with each other whenever possible in an effort to help fulfill those needs. By conducting this supervisory training program for the Schools, the City will be assisting this effort.

I thank you for consideration on this matter.

Respectfully submitted,
WILLIAM L. HART
Chief of Police

Honorable City Council:

Re: Construction of a Fishing Bulhead at Lakehead East Park.

On July 15, 1981, your Honorable Body approved our request to transfer funds from Appropriation #0144 and #0372 to Appropriation #6135 so that this project could be completed. However, unforeseen costs charged to Appropriation #0372 have reduced the amount of funds available for our approved transfer.

Additional funds are still available in Appropriation #0144. Therefore, we are requesting authority to transfer \$25,000.00 from Appropriation #0144 to Appropriation #6135, so that we may complete our originally approved request and this project.

Respectfully submitted,
DANIEL H. KRICHBAUM
Director
