

version of the above described portion of Cardoni Avenue, 50 feet wide into an easement for public utilities. The requested conversion into easement for public utilities was approved by the Community and Economic Development Department. The petition was then referred to us for investigation and report. Our report, accompanied by the original petition is as follows:

The petitioner has issued the following Inter Purchase Orders which have been credited to the departments named, for the purposes indicated:

Fire Department — The removal of one hydrant by the Water and Sewerage Department will be handled on an inter-agency billing.

Public Lighting Department — No. R11113 — \$600 — For the estimated cost to remove one street light and wire.

Intersection Fund — No. R11115 — \$727 — For the original cost of paving Lynn Avenue at the intersection with Cardoni Avenue to be vacated.

The petitioner has also requested that the paved return at the entrance to Cardoni remain in its present status as the petitioner plans to utilize same, and has agreed by letter filed with the original petition to pay all costs incidental to the removal of same whenever the discontinuance of use makes such removal necessary.

All other involved City departments and privately-owned utility companies reported that they will be unaffected by the vacation and conversion to an easement of said street or that they have reached satisfactory agreements with the petitioner regarding their installation therein.

The adoption of the attached resolution is recommended.

Respectfully submitted,
CLYDE R. HOPKINS,
