*RECONSIDERATION (No. 3), per Motions before Adjournment.

City Engineering Department
 June 3, 1988

Honorable City Council:
 Re: Petition No. 1263. Michigan Bell Telephone Company. Conversion to easement of portion of east-west public alley with a loading dock encroachment in the block bounded by Schoenherr, Grotto Court, Greiner, and Mapleridge; also maintain

existing ramp encroachment into Greiner.

Petition No. 1263 of Michigan Bell Telephone Company requests the conversion of a portion of east-west public alley, 20 feet wide, in the block bounded by Schoenherr Avenue, Grotto Court, Greiner and Mapleridge Avenues into an easement for public utilities.

Further, the petitioner requests permission to encroach across the proposed utility easement with a loading dock. Also, permission is necessary to maintain an existing enclosed ramp encroaching (approximately 5 feet by 47 feet) into Greiner Avenue, 76 feet wide.

The requested conversion into a public utility easement was approved by the Community and Economic Development Department. The petition was referred to the City Engineering Department for investigation and report. This is our report:

The petitioner plans to use the paved alley return entrance (into Grotto Court) and requests such remain in its present status. The petitioner shall pay all incidental removal costs whenever discontinuance of use makes removal necessary.

The proposed loading dock encroachment will be built over the City sewer. The entire construction over the public sewer shall be performed in accordance with plans and specifications approved by the Water and Sewerage Department — Sewer Services Section. The petitioner shall pay all incidental costs for plan review, inspection and permits.

All involved City departments and privately-owned utility companies have reported no objection to the conversion of public right-of-way into a utility easement, the proposed loading dock encroachment, or the existing enclosed ramp encroachment. However, care and caution are necessary in the placement of below-grade foundations. Should damages to utilities occur (as a result of the existing enclosed ramp, or the proposed loading dock) the petitioner shall be liable for all incidental repair costs and waives all claims for damages to the encroaching installations.

An appropriate resolution, granting the petition, is attached for consideration by your Honorable Body.

Respectfully submitted,
CLYDE R. HOPKINS
 Director
