City Engineering Department

November 30, 1989

Honorable City Council:

Re Petition No. 3311 City Management Corporation Street to Easement Ellery between (vacated) Fort and E. Lafayette.

Petition No. 3311 of "City Management Corporation" requests the conversion of Ellery Street, 50 feet wide, between (previously vacated) Fort Street and E. Lafayette Avenue into an easement for public utilities.

The Community and Economic Development Department reports City Management Corporation has reached an agreement with the Board of Education (Martin Luther King Jr., High School), the other adjoining property owner.

The conversion was approved by the Community and Economic Development Department. The petition was referred to the City Engineering Department for investigation and report. This is our report.

Whenever the location of a proposed new driveway (into M. L. King, Jr., High School parking lot) is approved, the Fire Department will require the relocation of a hydrant from (to be vacated) Ellery to public property. The Fire Department will approve the actual hydrant location. The hydrant must be relocated by the petitioner under private contract (at no expense to the City); subject to Water and Sewerage Department deposits, plan review, permits, inspection and specifications.

Further, the City owns (4 parcels) of Ellery Street (50 feet wide) in fee. Therefore, the Finance Director must execute a quit-claim deed to transfer converted public right-of-way to City Management Corporation.

All other City departments and privately-owned utility companies have reported no objections to the conversion of public rights-of-way into a utility easement. Provisions protecting utility installations are part of the resolution.

The adoption of the attached resolution is recommended.

Respectfully submitted,
CLYDE R. HOPKINS
Director
