Honorable City Council:

Re: Petition No. 2964 Cathedral Church of St. Paul, Alley to Easement; and Utility Easement to Vacation in the block bounded by Woodward, John R., Hancock and E. Warren

Petition No. 2964 of "The Chapter of the Cathedral Church of St. Paul" requests the outright vacation of the east-west private easement for public utilities (including, Ameritech/Michigan Bell Telephone Company, Detroit Edison Company, and the Water and Sewerage Department), 20 feet wide (said public alley having been previously vacated by City Council on April 20, 1971 — J.C.C. pages 899-900); also the conversion of the north-south public alley, 20 feet wide, in the block bounded by Woodward Avenue, John R. Street, Hancock and E. Warren Avenues into a private easement for public utilities. The petitioner has developed plans to construct a two-story gymnasium.

The request was approved by the (former) Community and Economic Development Department, Sanitation Division — DPW, and the Traffic Engineering Division — DPW. The petition was referred to the City Engineering Division — DPW for investigation and report. This is our report:

The petitioner has reached satisfactory agreements with Ameritech/Michigan Bell Telephone Company (A/MBT Co.), Detroit Edison Company (DE Co.), and the Water and Sewerage Department (DSWD) regarding their facilities in the east-west private easement for public utilities.

If a proposed "third phase" development plan is initiated by "The Cathedral Church of St. Paul", then it will become necessary to remove and reroute facilities of DE Co. and the A/MBT Co. within the (to be converted) north-south public alley, 20 feet wide, in said block. Also, in conjunction with proposed "Phase Three" construction the DSWD will require "The Cathedral" to build a manhole over that part of the remaining public sewer in E. Hancock; subject to DSWD (and City Engineering Division — DPW) review and approval of development plans.

The petitioner plans to use the paved alley return entrances (into E. Hancock and E. Warren Avenues) and requests such remain in their present status. The petitioner shall pay all incidental removal costs whenever discontinuance of use makes removal necessary.

City departments and privately-owned utility companies have reported no objections to the conversion of public

rights-of-way into a private easement for public utilities. Provisions protecting utility installations are part of the resolution.

The adoption of the attached resolution is recommended.

Respectfully submitted,  
WILLIAM L. TALLEY  
Head Engineer

Re: DWSD Contract PC-656A, Default of W.L. Richardson, Inc.

Contract PC-656A is a contract for the rebuilding and rehabilitation of the overhead crane in the Rack and Grit Building at the Wastewater Treatment Plant. The contract was awarded to the low bidder, W.L. Richardson, Inc. Richardson has failed to complete this project and has abandoned the work.

On August 11, 1994 a "Notice of Intent to Default" was sent to Richardson and the surety on its payment and performance bonds, National American Insurance Co. A copy of the default notice and the uncompleted tasks are attached. The Board of Water Commissioners approved a default on this contract on September 7, 1994.

The surety has informed DWSD that it will complete this project as soon as the default is entered. It is recommended that Richardson be declared in default, that its contract be terminated and that DWSD proceed to enter into a completion agreement with the surety company.
