Honorable City Council:

Re: Petition No. 2996. General Services Administration (GSA) Street and Alley to Easement remaining part of 20th and westerly half of east-west public alley in the block bounded by 20th, Ste. Anne, W. Fort and W. Lafayette.

Petition No. 2996 of the "General Services Administration (GSA)" requests the conversion of the remaining part of Twentieth Street, 50 feet wide, and the westerly half of the east-west public alley, 1.20 and 20 feet wide, in the block (generally) bounded by Twentieth, Saint Anne and W. Fort Streets, and W. Lafayette Boulevard into a private easement for 'existing' public utilities.

This is part of the GSA plan to expand the U.S. Customs Cargo Facility at the Ambassador Bridge.

The requested conversion was approved by the Planning and Economic Development Department. The petition was referred to the City Engineering Division — DPW for investigation and report. This is our report:

The city is owner in fee of part of Twentieth Street (50 feet wide; North of W. Fort), said part of public street having been acquired by court condemnation. Therefore, the Finance Director must execute a quit-claim deed to transfer the vacated and converted part of public right-of-way.

City departments and privately-owned utility companies have reported no

objections to the conversion of public rights-of-way into a private easement for public utilities. Provisions protecting existing utility installations are part of the resolution.

The adoption of the attached resolution is recommended.

Respectfully submitted,
WILLIAM L. TALLEY
Head Engineer

By Council Member Scott:

Fifth, that if any utility located in said property shall break or be damaged as a result of any action on the part of said owners or assigns (by way of illustration but not limitation) such as storage of excessive weights of materials or construction not in accordance with Section 3, mentioned above, then in such event said owners or assigns shall be liable for all costs incidental to the repair of such broken or damaged utility; and further
