Honorable City Council:

Re: Petition No. 831. Uptown Land Development Corporation and Henry Ford Health System. "Henry Ford Health and Fitness Center Site" Alley to Vacation in the block bounded by Third, Second, Milwaukee and W. Grand Blvd.

Petition No. 831 of "Uptown Land Development Corporation and Henry Ford Health System" requests the (outright) vacation of the north-south public alley, 20 feet wide, in the block bounded by Third, Second and Milwaukee Avenues, and West Grand Boulevard. The petitioner(s) are developing the site to open a ten million dollar health and fitness center in the New Center by summer 1996.

The requested vacation was approved by the Planning and Development Department. The petition was referred to the City Engineering Division — DPW for investigation (utility review) and report. This is our report:

On April 19, 1978 (J.C.C. pages 1003-4), the city vacated part of the east-west public alley, 20 feet wide, in the block. This eliminated the alley outlet into Second Avenue. On September 27, 1978 (J.C.C. page 2486), land was dedicated for the north-south public alley, 20 feet wide, outlet into W. Milwaukee Avenue.

Fire fighting equipment must maintain access to the development site. Therefore, the petitioners have offered to re-open the east-west public alley, 20 feet wide, outlet into Second Avenue.

The City Engineering Division — DPW has consulted with the Law Department. The Law Department has drafted a document that protects the interests of the city and allows the development plan to proceed. Henry Ford Health System (HFHS) has submitted an executed copy of the agreement to the city. The HFHS agreement is part of the public alley vacation resolution.

The city is owner in fee of the north-south public alley, 20 feet wide, in the block. The public alley was acquired by deed on September 27, 1978 (J.C.C. page 2486). Therefore, the Finance Director must execute a quit-claim deed

to transfer a part of vacated public right-of-way to Henry Ford Health System.

Satisfactory arrangements have been made with the Detroit Edison Company. All other city departments and privately owned utility companies have reported no objections to the requested (outright) vacation.

I am recommending adoption of the attached resolution.

Respectfully submitted,
SUNDAY JAIYESIMI

Petition No. 341 of "Messiah Missionary Baptist Church" requests the (outright) vacation of the westerly 12.50 feet of Greenlawn Avenue, 75 and 100 feet wide, north of West Seven Mile Road. This is part of the west berm area of Greenlawn Avenue. The width of the west berm area is 32.20 feet. The church has plans to build an addition extending 12.50 feet into the west berm area.

The requested vacation was approved by the Planning and Development Department, and Traffic Engineering Division -DPW. The petition was referred to the City Engineering Division-DPW for investigation (utility review) and report. This is our report:

The traffic Engineering Division-DPW reports the petitioner must replace the existing concrete public sidewalk removed by the proposed church addition.

The petitioner must pay all costs to construct and maintain a new concrete public sidewalk within the remaining (19.70 feet wide) west berm area of Greenlawn, north of W. Seven Mile. The replacement public sidewalk must be a minimum of 6.00 feet wide. Also, the new

public sidewalk line and grades must be approved by the City Engineering Division -DPW prior to any concrete pour. Additionally, the petitioner (or their assigns) must obtain permits from the City Engineering Division-DPW for all public right-of-way work. All public property work, including maintenance, shall be subject to city permits, inspection, and specifications.

City departments and privately owned utility companies have reported no objections to the requested (outright) vacation.
