Re: 2002-03 Act 51 Motor Vehicle Highway Funds.

Each year the City of Detroit receives a distribution of Motor Vehicle Highway funds from the State of Michigan in accordance with ACT 51, Public Act of 1951, as amended.

Past experience has indicated that the level of expenditures required to maintain the Local Street has been somewhat greater than the amount of funds received for this purpose.

ACT 51, P.A. 1951 as amended, however, allows a City to use on the local street system up to 25 percent per annum of funds returned to the City for its major street system.

To take advantage of this allowable transfer of funds and to more accurately reflect expenditures of the street system, we respectfully request that your Honorable Body adopt the attached resolution, which authorizes the Finance Director to accomplish the transfer.

Honorable City Council:

Re: State Trunkline Misc. Deck Replacement etc. for Structure Which Carries Over Hwy. M-10, I-94 & I-75. State Agreement #96-5001.

On May 16, 1996 (JCC Page 993) your

Honorable Body approved City Contract No. 074415 with the Michigan Department of Transportation which provided for an estimated amount of \$130,600 for the City's share for the project described below:

PART A — BHI 82023; JOB #38582

Deck replacement for structure S26 of 82023 which carries the EB Highway I-94 ramp to SB Highway M-10 and which includes all necessary maintaining traffic and approach work; together with necessary related work; located within the corporate limits of the City.

PART B — BHI 82023; JOB #38583

Deck replacement for structure S30 of 82023 which carries Third Avenue over Hwy. I-94 and which includes all necessary maintaining traffic and approach work; together with necessary related work; located within the corporate limits of the City.

PART C — BHI 82023; JOB #38584

Deck replacement for structure S27 of 82251 which carries Hwy. I-94 over Hwy. I-75 and which includes all necessary maintaining traffic and approach work; together with necessary related work; located within the corporate limits of the City.

Now an audit of the project has been done which resulted in an increase of City's Share by \$3,944.39 to a final amount of \$134,544.39. The overrun has resulted from an increase in Construction cost.

We therefore recommend adoption of the attached resolution, which authorizes the Finance Director to increase the amount of CPO #2501941 (FICS Contract #74415) from \$130,600 to \$134,544.39. The increase will come from Appropriation #4189, Major Street Fund — Traffic Control Improvement — State.

Honorable City Council:

Re: Petition No. 3554 — The Ferchill Group, for partial alley vacation and Right-of-way encroachments in the area of Gratiot, Brush, and Randolph for construction of a Hilton Garden Inn in Harmonie Park, Phase One.

Petition No. 3554 of "The Ferchill Group" through Hamilton Anderson Associates at 1435 Randolph, Ste. 200, Detroit, Michigan 48226, requests the outright vacation, of a portion of a public alley and a portion of Randolph Avenue (dedicated as public right-of-way, Aug. 1, 1991; J.C.C. Pg. 1806), the conversion to easement of a portion of the Randolph Avenue right-of-way (dedicated as public right-of-way, Aug. 1, 1991; J.C.C. Pg. 1806) all in the block bounded by Randolph Avenue, variable width, Brush Street, 50 feet wide, Gratiot Avenue, variable width, and Madison Avenue, 90 feet wide, in order to, re-develop the site to construct a Hilton Garden Inn. Phase One will be requesting that your Honorable City Council adopt the attached resolution for the outright vacation(s) and conversion to easement of certain public rights-of-way, in order to create a buildable parcel of land. The Second Phase will be addressing certain Landscaping encroachments.

The Traffic Engineering Division — DPW has no objection to the outright vacation of Randolph Avenue and the conversion to easement of the public alley as shown in Petition No. 3554. Planning and Development Department approved the request. The petition was referred to the City Engineering Division — DPW for investigation (utility review) and report. This is our report.

The Detroit Water and Sewerage Department (DWSD) has reviewed the request for changes in the public rights-of-way in the area of Gratiot, Brush, Madison and Randolph. DWSD has existing sewer within the public alley, however the proposed changes do not appear to affect the sewer.

The Public Lighting Department (PLD) has no objection to the proposed changes in the public rights-of-way. However, the PLD has underground Fed Street lighting circuits in Brush, Randolph and Gratiot. The PLD requires a minimum horizontal clearance of 3'-6" and a vertical clearance of 1'-0" to be maintained from PLD facilities. All underground facilities must be protected from damage and "MISS DIG" must be contacted as required.

The Detroit Edison Company reports facilities in the area and is currently working with the Petitioner to finalize plans and associated costs. The Petitioner will be liable to pay all removal/relocation costs.

Satisfactory arrangements have been made with SBC to place conduit and provide access to this development for new service.

All other involved city departments and privately owned utility companies reported no objection to the outright vacation(s) and private easement or that satisfactory arrangements have been made.

I am recommending adoption of the attached resolution.

City Planning Commission

February 7, 2003

Honorable City Council:

Re: Request for modification of plans for an existing PD (Planned Development District) zoning classification located on the south side of E. Jefferson Ave. between Piper and Eastlawn for the reconstruction and

expansion of a McDonald's fast-food restaurant (Recommend Approval).

Request

The City Planning Commission (CPC) has received and acted upon the request of the McDonald's Corporation to modify the development proposal for a PD (Planned Development District) zoning classification located on the south side of E. Jefferson Ave. between Piper and Eastlawn in the Jefferson-Chalmers community. This modification will allow for the reconstruction and expansion of the McDonald's restaurant which previously stood on the southeast corner of E. Jefferson Ave. and Piper. The original facility, which was a small restaurant of about 1,300 square feet, was lost to fire following a lightning strike on July 18, 2002.

Project Review

The proposed facility would occupy the original McDonald's site as well as the adjacent property to the east, which was designated as an outlot development site for Riverbend Phase 3, the Home Depot project. Actions by your Honorable Body in August and September of 2001 approved the rezoning, site plans, elevations and other development proposal documents for the Riverbend site as well as the corresponding land sale. You should receive a request from the Planning and Development Department requesting an amendment of the original land sale and reflecting the new terms relative to this project. The CPC maintains its support of the land sale under this new scenario. This specific project was first before you in November of 2002, when it was presented for Brownfield designation. There were no questions or objections and the matter was approved.

The new restaurant would be a substantial upgrade from the previous facility. It would provide 3960 square feet of gross floor area, almost three times the size of the former structure. It would be clad entirely of face brick with a face stone base color to match the Riverbend development to the rear of this site. The proposal includes a drive-thru lane with a ten car capacity and provides four points of ingress and egress, two along E. Jefferson Ave. and one each along Piper and Eastlawn. The plan also includes a well landscaped parking lot providing spaces for 43 vehicles, three spaces in excess of the generally required number. Copies of the site plan and the building elevations are attached for your review.

While McDonald's Corporation will own the facility as it maintains ownership of all its restaurants, Errol Service, who currently operates 15 McDonald's restaurant in Southeast Michigan, will operate this facility. Mr. Service is a resident of Detroit, residing in the Jefferson-Chalmers community at Grayhaven.

Conclusion and Recommendation

The City Planning Commission has reviewed the request and corresponding plans and believes the minor modification is warranted. The project will complement existing development and be an improvement over the previous facility. It would return a previously existing use to viability in the same area, while expanding that use to an area where similar activities were anticipated. The proposal is consistent with the Master Plan of Policies, the Zoning Ordinance (as applicable) and the Modified Development Plan for the Jefferson-Chalmers Neighborhood Development Project and has the support of the Jefferson-Chalmers Citizens' District Council. Therefore, the City Planning Commission recommends approval of the requested modification with the same conditions as the original approval as applicable to this site, namely:

1. That the developer maintain the property in a neat and orderly fashion, collecting and disposing of debris and rubbish throughout all phases of construction from site preparation through occupancy and operation of the facility; and

2. That the developer submit final site plans and elevations, landscaping, lighting, and signage plans to the City Planning Commission staff for approval prior to the issuance of applicable required permits.

By Council Member Collins:

Whereas, The McDonald's Corporation has requested the modification of the approved plan of an existing PD (Planned Development District) zoning classifica-

tion located at the southeast corner of E. Jefferson Ave. and Piper; and

Whereas, The McDonald's Corporation owned and operated a restaurant at that location until a fire which resulted from a lightning strike forced the facility to close on July 18, 2002; and

Whereas, The McDonald's Corporation desires to reconstruct a larger and improved restaurant utilizing the original site and adjacent PD zoned land to the east; and

Whereas, This proposed development was approved by the Jefferson-Chalmers Citizens' District Council and has been determined to be consistent with the Master Plan of Policies and the Jefferson-Chalmers Modified Development Plan; and

Whereas, The proposed development was determined to be a minor modification from the approved PD plan and was recommended for approval by the City Planning Commission;

Now, Therefore Be It Resolved, That the requested modification for the reconstruction and expansion of the McDonald's restaurant be granted consistent with site plan and elevations depicted in the drawings prepared by L+A Architects, Inc. and bearing the "Revised per Planning Commission" date of January 1, 2003 with the following conditions:

1. That the developer maintain the property in a neat and orderly fashion, collecting and disposing of debris and rubbish throughout all phases of construction from site preparation through occupancy and operation of the facility; and

2. That the developer submit final site plans and elevations, landscaping, lighting, and signage plans to the City Planning Commission staff for approval prior to the issuance of applicable required permits.

**BLACK COACHES IN THE NFL:
SUPERIOR PERFORMANCE,
INFERIOR OPPORTUNITIES**

By COUNCIL MEMBER BATES:

WHEREAS, On Tuesday, February 4, 2003 the Detroit Lions hired former San Francisco Coach Steve Mariucci without following the guidelines agreed upon in the NFL diversity hiring policy. The hiring policy was tarnished immediately when General Manager Matt Millen stated that Mariucci was who he wanted to hire, discouraging minority coaches from participating in a process in which the outcome was predetermined.

WHEREAS, On December 20, 2002 NFL owners throughout the league agreed to implement a comprehensive program to promote diversity in hiring. The committee chaired by owner of the Pittsburgh Steelers Dan Rooney and four other NFL owners, was appointed by league commissioner Paul Tagliabue. The Detroit Lions hiring of Mariucci prompted chairman Dan Rooney to state "their search fell short of what the committee recommends for all clubs as was agreed."

WHEREAS, The National Football League has had over 400 head coaches since it's inception in 1920, only six have been African American, 1.5%. The first being in 1923 when Fritz Pollard led the Hammond Pros through 1925. The next was sixty-four years later when Art Shell began his tenure for the Oakland Raiders in 1989 through 1994.

WHEREAS, The numbers for assistant coaches and coordinators (which has traditionally been a feeder for head coaches) is only 28% for African Americans compared to 72% for their white counterparts.

This in a league where the players are 67% African American and 33% Caucasian, maybe the belief in 2003 is that African Americans are good enough to play on the team but not good enough to lead the team.

WHEREAS, Attorney Johnnie L. Cochran, Jr. and Attorney Cyrus Mehran along and assistance from Dr. Janice Madden have compiled a statistical report entitled "Black Coaches in the NFL: Superior Performance, Inferior Opportunities" that compares the performance of black coaches and their white counterparts over the past 15 years. Listed are some of the report findings:

- Black coaches average 1.1 more wins per season than white coaches.

- Black coaches led their teams to the playoffs 67% of the time vs. 39% of the time for white coaches.

- In their first season, black coaches averaged 2.7 more wins than white coaches.

- In their final season, black coaches win an average of 1.3 more games than white coaches in their final season.

- Black coaches inherited teams with an average of 7.4 wins per season and during their tenures, increased the average wins for their teams to 9.1 per season. NOW, THEREFORE BE IT

RESOLVED, This resolution is not intended to doubt the qualifications of Steve Mariucci as a head football coach, it is intended to bring attention and show displeasure in the manner in which he was given the job. We, as the City Council, are disappointed that the Detroit Lions General Manager did not use an inclusive and open hiring process. Further, we are very disappointed at the Ford Family for not keeping its promise to other NFL owners and indirectly the citizens of Detroit.

The people of the City of Detroit should feel confident in knowing that organizations in this city hire employees based on the best candidate available not by any "good old boy network." The time for African Americans being the last hired and the first fired has come and gone, especially in a city where African Americans makeup over 80% of the population. As a member of the City Council it is our duty to uphold justice whether in the classroom or the locker room. When the day comes when we do not, we should wear a badge of honor for being the most segregated community in the United States of America. BE IT FINALLY

RESOLVED, That this resolution be forwarded to William Clay Ford, Owner of the Detroit Lions, Paul Tagliabue, the NFL Commissioner, The Rooney Committee for Minority Hiring, the Honorable Kwame M. Kilpatrick, the Honorable Jennifer Granholm, the Honorable US Congressman John Conyers, and the Honorable Congresswoman Carolyn

Cheeks Kilpatrick.

Resolution Insisting That All Companies Responsible For The Cleanup Of The Master Metals Site Immediately Comply With The United States Environmental Protection Agency Order For A Final Cleanup Of The Site

By Council Member S. Cockrel:

Whereas, The United States Environmental Protection Agency has issued an Order to 11 companies for the expeditious cleanup of a former lead smelter on the east side of the City of Detroit known as the Master Metals site;

Whereas, The EPA has described the site as "an imminent and substantial threat to public health and the environment," and has alleged that no cleanup effort has begun since the EPA sought a final cleanup in July of 2002;

Whereas, Significant levels of lead soil contamination exist at the site of the former smelter, presenting serious health risks to residents of the area;

Whereas, The dangers that exposure to high levels of lead pose to children, resulting in serious and permanent illness and disability, is a well-established fact;

Whereas, Companies responsible for the cleanup include Ford Motor Company, General Motors Corporation, the former Chrysler Corporation, NL Industries, Inc. (now owned by Honeywell Corporation), and Allied Signal; Now Therefore Be It

Resolved, That the Detroit City Council insists that all companies responsible for the cleanup of the Master Metals site immediately commence a thorough final cleanup of the contaminated area to eliminate the substantial health risks posed by the high levels of lead contained at the site; And Be It Finally

Resolved, That copies of this Resolution go to each company named in the Environmental Protection Agency Order, to the Mayor, and to the Director of the Department of Environmental Affairs.

RESOLUTION URGING RECOGNITION OF FEBRUARY 19TH AS DAY OF REMEMBRANCE OF INCARCERATION OF AMERICANS DURING WWII
By COUNCIL PRESIDENT MAHAFFEY:

WHEREAS, This year marks the sixty-first anniversary of the signing of Executive Order 9066 which authorized the incarceration of more than 120,000

Americans of Japanese ancestry in the United States during WWII. President Franklin D. Roosevelt signed the order on February 19, 1942, and

WHEREAS, Legal permanent residents and citizens of Japanese ancestry were forcibly relocated from their homes from the West Coast into internment camps. Seventy (70%) percent were American citizens. They were removed from their communities, lost their homes and most of their lifelong possessions, and evacuated to ten bleak camps, some of which had no running water, where they were branded as enemy aliens, required identification cards, endured travel restrictions, and separation from loved ones, and

WHEREAS, The United States Supreme Court ruled on December 31, 1944, that it was illegal to hold a U.S. citizen without filing charges or providing a fair trial. Three years after the original order to imprison Americans of Japanese descent was given, in January, 1945, the evacuation authorized by President Roosevelt's E.O. 9066 was rescinded, and

WHEREAS, The human dimensions of government action need to be acknowledged, in the dislocation of 120,000 lives, the physical hardships of camp life, the internees' uncertain future after the war ended as they faced resettlement into communities where they faced racism, had no homes, belongings, or jobs, and

WHEREAS, President Gerald Ford formally rescinded E.O. 9066 on February 19, 1976. Congress adopted legislation signed by President Jimmy Carter on July 31, 1980, establishing the Commission on Wartime Relocation and Internment of Civilians to investigate the claim that the incarceration for Japanese Americans and legal resident aliens during World War II was justified by military necessity, and

WHEREAS, The conclusion of the Commission was: "...Executive Order 9066 was not justified by military necessity, and the decisions that followed from it — exclusion, detention, the ending of detention and the ending of exclusion — were not founded upon military considerations. The broad historical causes that shaped these decisions were race prejudice, war hysteria and a failure of political leadership", and

WHEREAS, Congress enacted the Civil Liberties Act of 1988 in which it apologized on behalf of the nation "for fundamental violations of the basic civil liberties and constitutional rights of these individuals of Japanese ancestry" and

WHEREAS, The need for raising awareness and remembrance of this shameful chapter in U.S. history is greater than ever. As we face the prospect of another war and sentiments as expressed by United States Representative Howard Coble (R-NC) who stated that "Japanese

Americans were an endangered species", and they "probably were intent on doing harm to us ... just as some of these Arab-Americans are probably intent on doing harm to us", and

WHEREAS, There is a need to remain vigilant about political leaders who publicly embrace racists profiling and ethnic scapegoating and denial of constitutionally protected rights and liberties, particularly during times when the threat of war is imminent. BE IT THEREFORE

RESOLVED, That the Detroit City Council joins with the Japanese American Citizens League (JACL) in condemning remarks made by Representative Howard Coble. BE IT FURTHER

RESOLVED, That the Detroit City Council also joins with The JACL in supporting a resolution introduced in the United States Congress by Representative Mike Honda (D-San Jose) recognizing February 19th as a "Day of Remembrance" for the signing of Executive Order 9066. February 19th would serve as a day of honoring the distinct experiences of those that were interned, to reflect and educate about the dangers of violating civil liberties to ensure that internment and similar events never occur again. BE IT FURTHER

By COUNCIL PRESIDENT MAHAFFEY:

WHEREAS, President George W. Bush has announced a prescription drug coverage plan that only helps seniors who leave traditional Medicare, and

Now, Therefore, Be It Resolved that:

1. The City hereby expresses its intention to finance the replacements, extensions, improvements and repairs to the System constituting the Project through the issuance of System Revenue Bonds in the maximum principal amount of \$800,000,000. 2. The City Council of the City hereby

declares its intent to reimburse itself from the proceeds of the System Revenue Bonds for expenditures made or to be made for the Project. Advances to be made for the Project will be provided from the Improvement and Extension Fund of the City's Sewage Disposal Fund, which shall be reimbursed upon the issuance of the System Revenue Bonds.

3. The Finance Director is hereby authorized and directed to publish, as a one-quarter (1/4) page display advertisement, a "Notice of Intent to Issue Sewage Disposal System Revenue Bonds and Notice of Right to Petition for Referendum Thereon" in *The Michigan Chronicle*, a newspaper of general circulation within the City, in substantially the following form with such changes therein as may be determined to be necessary or desirable by the Finance Director:

NOTICE TO THE ELECTORS, TAXPAYERS AND OTHER INTERESTED PERSONS OF THE CITY OF DETROIT AND TO USERS OF THE CITY'S SEWAGE DISPOSAL SYSTEM OF THE INTENT OF THE CITY OF DETROIT TO ISSUE SEWAGE DISPOSAL SYSTEM REVENUE BONDS PAYABLE SOLELY FROM THE REVENUES OF SUCH SYSTEM AND THE RIGHT OF REFERENDUM RELATING THERETO.

Please Take Notice that the City of Detroit, Wayne County, Michigan, intends to issue and sell Sewage Disposal System Revenue Bonds pursuant to Act No. 94, Michigan Public Acts of 1933, as amended, in a principal amount not to exceed \$800,000,000 (the "Revenue Bonds"), for the purpose of paying all or part of the cost of acquiring and construction replacements, extensions improvements and repairs to the Sewage Disposal System of the City (the "Sewage Disposal System").

**Source of Payment of
Revenue Bonds**

The principal of and interest on the Revenue Bonds shall be payable solely from the revenues received by the City from the operation of the Sewage Disposal System after paying costs of operation and maintenance of the Sewage Disposal System. Such revenues will consist principally of income derived from the rates charged to the users of the Sewage Disposal System, a schedule of which is presently on file in the office of the City Clerk. Such rates may from time to time be revised to provide sufficient revenues to provide for the expenses of operating and maintaining the Sewage Disposal System, to pay the principal of and interest on the Revenue Bonds, on the City's various series of Sewage Disposal System Revenue Bonds and Sewage Disposal System Revenue Refunding Bonds currently outstanding in the unpaid aggregate principal amount of approximately \$1,624,841,634 and on any additional

Sewage Disposal System Revenue Bonds and Sewage Disposal System Revenue Refunding Bonds hereafter issued by the City and to provide reserves for such bonds, and for such other purposes as may be required by resolution or ordinance from time to time. The Water and Sewerage Department of the City and the City Council last adjusted sewage rates effective August 1, 2002. In addition, the Water and Sewerage Department imposes separate water charges for water supply service. Information concerning such rates and the adjustment in rates is available for inspection at the offices of the Water and Sewerage Department of the City.

Bond Details

The Revenue Bonds will be issuable in one or more series and from time to time. Each series will be payable in principal installments as determined by the Finance Director of the City, with the final installment due not more than 40 years after the original date of issuance of the Revenue Bonds. The Revenue Bonds will bear interest at the rate or rates to be determined upon the sale thereof, but in no event to exceed 18% per annum or such higher maximum rates permitted by law.

Right of Referendum

THE REGISTERED ELECTORS OF THE CITY HAVE THE RIGHT TO FILE A PETITION FOR REFERENDUM WITH RESPECT TO THE REVENUE BONDS DESCRIBED IN THE FIRST PARAGRAPH OF THIS NOTICE. THE REVENUE BONDS WILL BE ISSUED WITHOUT A VOTE OF THE ELECTORS UNLESS A PETITION REQUESTING SUCH VOTE SIGNED BY NOT FEWER THAN 15,000 REGISTERED ELECTORS OF THE CITY IS FILED WITH THE CITY CLERK WITHIN 45 DAYS AFTER PUBLICATION OF THIS NOTICE. If such a petition is filed, the Revenue Bonds cannot be issued without an approving vote by a majority of qualified electors of the City voting on the question. On January 17, 2001, notice of intent to issue Sewage Disposal System Revenue Bonds in the amount not to exceed \$750,000,000 was published (the "Prior Notice"), no petition for referendum was filed with respect thereto and to date not all of the Sewage Disposal System Revenue Bonds which were the subject of the Prior Notice have been issued. The Revenue Bonds described in the first paragraph of this notice are in addition to those described in the Prior Notice, and the City reserves the right to issue the bonds described in the Prior Notice not heretofore issued whether or not a petition is filed, as described above, with respect to the Revenue Bonds.

The City also may issue additional bonds for the purpose of refunding any or all of the outstanding Sewage Disposal

System Revenue Bonds and Sewage Disposal System Revenue Refunding Bonds or to comply with an order of a court or an order or permit requirement of a state or federal agency of competent jurisdiction to prevent or limit pollution of the environment. Such additional bonds may be issued without the publication of a Notice of Intent to Issue Bonds with respect thereto, in accordance with Michigan law, and may be issued whether or not a petition for a referendum is filed as described above with respect to the Revenue Bonds described in the first paragraph hereof.

Additional Information with respect to the above described revenue bonds, the Sewage Disposal System of the City, the rates to be charged, the projects to be acquired and constructed and repairs to be made and the costs related thereto, the financing thereof and any other matters relating to the foregoing may be obtained from the office of the City Clerk, from the Finance Director or from the Water and Sewerage Department of the City of Detroit.

This Notice is given pursuant to the requirements of Section 33 of Act No. 94, Michigan Public Acts of 1933, as amended.

SEAN K. WERDLLOW

Finance Director

City of Detroit, Michigan

4. The City Council does hereby determine that the foregoing form of Notice and the manner of publication directed is adequate notice to the electors and taxpayers of the City and users of the System and is well calculated to inform them of the intention of the City to issue the System Revenue Bonds, the purpose of the System Revenue Bonds, the source of payment for the System Revenue Bonds, and the right of referendum of the electors with respect thereto, and that the provision of 45 days within which to file a referendum petition is adequate to insure that the City's electors may exercise their legal rights of referendum.

5. Re: Lavon Hayes vs. The City of Detroit Fire Department and Andre Branch. Case No.: 02-203137 NI. File No.: 053415.21475 (ATT).

On January 29, 2003, a mediation panel evaluated the above-captioned lawsuit and awarded Thirty-Seven Thousand Five Hundred Dollars (\$37,500.00) in favor of Plaintiff. The parties have until February 26, 2003, to either accept or reject the mediation evaluation. Failure to file a written acceptance or rejection within this period constitutes a rejection.

Based upon our review of the facts and particulars of this lawsuit, which are set forth in a confidential memorandum that is being separately hand-delivered to each member of your Honorable Body, it is our considered opinion that acceptance of the mediation award is in the best interest of the City of Detroit.

We, therefore, request your Honorable Body to authorize acceptance of the mediation award; and, in the event that Plaintiff accepts the award, to deem such acceptance as a settlement and to direct the Finance Director to issue a draft in the amount of Thirty-Seven Thousand Five Hundred Dollars (\$37,500.00) payable to Lavon Hayes, and Law Offices of Dennis

A. Ross, PLC, his attorney, to be delivered upon receipt of properly executed Releases and Stipulation and Order of Dismissal entered in Lawsuit No. 02-203137 NI, approved by the Law Department.

Honorable City Council:

Re: Petition Number 1118 — Request for City Council Approval for the Issuance of a Dance/Entertainment Permit by the Michigan Liquor Control Commission to Maitai's, Inc., 13310-13318 E. Eight Mile Road.

Section 916(6) of the Michigan Liquor Control Code of 1998, being MCL 436.1916(6), requires that prior to the

issuance of a Michigan Liquor Control Commission ("MLCC") dance or entertainment permit, the owner of the establishment licensed by the MLCC for the sale of alcoholic beverages on the premises shall obtain the approval of (1) the chief law enforcement officer, and (2) the legislative body within which the premises are located.

Pursuant to this requirement, the MLCC has forwarded a Local Approval Notice to the Detroit City Council, which has been designated by the City Clerk as Petition Number 1118, for 13310-13318 E. Eight Mile Road. The petition requests City Council consideration of the request for the issuance of a dance-entertainment permit, to be held in conjunction with the proposed transfer of ownership of a Class C MLCC liquor license from Mates Concepts Corporation, to Maitai's, Inc. for the subject address. Approval of the issuance of a dance-entertainment permit for 13310-13318 E. Eight Mile Road would allow dancing by patrons only and the provision of entertainment at the licensed premises. The issuance of a dance-entertainment permit by the MLCC does not allow for topless activity on the premises.

Upon investigation, review, and consultation with other City departments, the Detroit Police Department, Liquor License Unit, on behalf of the Chief of Police, has recommended approval of the issuance of the dance-entertainment permit to Maitai's, Inc. for 13310-13318 E. Eight Mile Road, contingent upon the new owner complying with all of the requirements of the applicable City ordinances and being licensed by the City to operate a "Group A" cabaret at this location.

In accordance with Section 916(6)(b) of the Michigan Liquor Control Code, being MCL 436.1916(6)(b), and the applicable provisions of the 1997 Detroit City Charter, the attached proposed resolution approving the issuance of a dance-entertainment permit to Maitai's, Inc., for 13310-13318 E. Eight Mile Road, is being submitted to this Body for consideration and approval.

We request that the proposed resolution be considered at the earliest possible sessions. If there are any questions or concerns, please do not hesitate to contact us.

Respectfully submitted,
BRENDA E. BRACEFUL

Deputy Corporation Counsel
By Council Member S. Cockrel:

Resolved, Section 916(6)(b) of the Michigan Liquor Control Code of 1998, being MCL 436.1916(6)(b), requires that prior to the issuance of a Michigan Liquor Control Commission ("MLCC") dance or entertainment permit, an establishment licensed by the MLCC for the sale of alco-

holic beverages on the premises shall obtain the approval of the local legislative body within which the premises are located;

Whereas, The MLCC has forwarded a Local Approval Notice to City Council, which has been designated by the City Clerk as Petition No. 1118, concerning the issuance of a dance-entertainment permit to Maitai's, Inc., 13310-13318 E. Eight Mile Road, in Detroit;

Whereas, The dance-entertainment permit issued by the MLCC would be held in conjunction with the proposed transfer of ownership of a 2002 MLCC Class C license from Mates Concepts Corporation to Maitai's, Inc.;

Whereas, Pursuant to Section 916(6)(c) of the Michigan Liquor Control Code, being MCL 436.1916(6)(c), the Detroit Police Department, Liquor License Unit, on behalf of the Chief of Police, has recommended approval of the issuance of a dance-entertainment permit to Maitai's, Inc., for 13310-13318 E. Eight Mile Road, contingent upon the location meeting the requirements of all of the appropriate provisions of the 1984 Detroit City Code and the owner being licensed by the City to operate a "Group A" cabaret at the location; and

Whereas, The City Council has considered the Local Approval Notice for the issuance of a dance/entertainment permit to Maitai's, Inc. for 13310-13318 E. Eight Mile Road in Detroit and the procedures and criteria for this Body's approval of the issuance of dance and entertainment permits by the MLCC.

Now Therefore It Is Resolved, Pursuant to Section 916(6)(b) of the Liquor Control Code, being MCL 436.1916(6)(6), that the Detroit City Council, approves Petition No. 1118 and the issuance of a dance-entertainment permit to Maitai's, Inc., for 13310-13318 E. Eight Mile Road, to be held in conjunction with the proposed transfer of ownership of the MLCC Class C liquor license at 13310-13318 E. Eight Mile Road in Detroit; and

Honorable City Council:

Re: Address: 12203 Elmdale. Name: Anthony Battles. Date ordered removed: July 3, 2002 (J.C.C. p. 1934).

In response to the request for a deferral of the demolition order on the property noted above, we submit the following information:

A special inspection on January 31, 2003 revealed the building is secured and appears to be sound and repairable.

The owner has paid the current taxes due as of January 30, 2003

The proposed use of the property is rehabilitation and rental.

Therefore, it is recommended that the demolition order be deferred for a period of three (3) months subject to the following conditions:

1. The building shall be maintained securely barricaded until rehabilitation is complete. All relevant permits for rehabilitation work shall be obtained. Rehabilitation is to be complete within three (3) months, at which time the owner will obtain one of the following from this department:

- Certificate of Acceptance related to building permits
- Certificate of Approval as a result of a Housing Inspection
- Certificate of Inspection, required for all residential rental properties.

2. The owner shall not occupy or allow occupancy of the structure without a certificate (as outlined in #1 above).

3. The yards shall be maintained clear of weeds, junk and debris at all times.

4. In accordance with Ordinance 290-H, as amended, this building may be deemed dangerous if: it remains unoccupied continuously for more than six months; it is not maintained according to the official Building and Property Maintenance Codes of the City; and it is not listed for sale, lease or rent, regardless of the timeliness of tax payments and regardless of whether building is secure.

At the end of the deferral period, the owner must contact this department to arrange an inspection to evidence that conditions of the deferral have been met or that substantial progress toward rehabilitation has been made. If the building becomes open to trespass or if conditions of the deferral are not complied with, we will proceed with demolition without further hearings. We recommend that utility disconnect actions cease to allow the progress of the rehabilitation.

CITY PLANNING COMMISSION

February 13, 2003

Honorable City Council:

Re: Request of the MGM Grand Detroit, LLC for approval of final development proposal for development of a permanent casino complex in an area bounded by Bagley, the Fisher Freeway, Third Ave., and the John C. Lodge Service Drive (Recommend Approval).

NATURE OF REQUEST

In 2002 your Honorable Body approved the rezoning to SD5 (Special District for Casinos) and concept plan to allow the construction of the MGM Grand Detroit Casino complex containing approximately 100,000 square feet of gaming area, a 16-story 400 room hotel, and related uses in the above-captioned area. On-site parking facilities would include an 8-story visitor self-park structure, a 5-story employee parking structure, and approximately 1,000 below-grade valet parking spaces. Per the SD5 regulations, the developer is now seeking final development proposal approval, now that the elevations, materials, landscaping, elevations, etc. for the complex have been further developed.

PROPOSED DEVELOPMENT*Casino and Hotel Buildings*

According to the submitted plans, the building has a traditional, even conservative, appearance. The design approach taken appears to be one of a hotel and a casino, rather than a casino with a hotel. Building materials will be of a sandstone-colored precast concrete with two different finishes: primarily etched with polished highlights. There will also be bronze tinted (not mirrored) glass, and decorative metal of bronze and champagne finishes. The casino building will be two stories (50 feet) in height, with much of the casino floor area being the full 50 feet in height. The design fits well with Detroit's stock of early 20th Century downtown buildings.

The first floor will be comprised of the casino floor, restaurants, very limited retail, and back-of-house activities. Restaurants and entertainment venues will be around the perimeter of the casino floor. There will be a "circulation ring" of sorts separating all of the restaurants (except the most southwesterly one) and stores from the casino floor, so that non-casino patrons and minors can use the restaurants and stores. The second floor will contain back-of-house activities above the restaurants, a bingo "hall" that was not previously identified, and conference facilities tied to the hotel.

The hotel is proposed to be 16 stories in height and to have its own access to the subsurface parking structure for both valet and self-parking. Conference space is connected to the hotel, as is a full-service spa and pool. Space has been designated for, and the hotel has been

designed to join, a second 400-room hotel tower immediately to the west of the first tower. The dedicated entrance to the hotel and its valet parking is located at the southeast corner of the complex.

Signage

Monument signs for wayfinding and identification are proposed along Third St. at the intersections of Bagley, the I-75 Service Drive, and at the main entrance at Beech. The major signs for the property will be located on the west-facing wall of the elevator penthouse at the southwest corner of the hotel and on the parking garage facades facing the Lodge and Fisher Expressways. An electronic sign (a monument sign with LED display) is proposed at the self-park garage entrance for the advertising of events at the casino. This will be similar to the sign located at Howard and the Lodge Service Drive at the temporary casino.

Signage is proposed to be mounted to the parking garages facing the Lodge and Fisher Freeways. These signs are anticipated to be of a fabric-type material, attached to a metal frame. The signage areas are called out as "graphic display areas" on the submitted plans. The signs will be for identifying on-premise restaurant and for marketing and promotions (e.g., "Win a House in January", "Rolling Stones, Feb. 23, 2003", "Black Jack Tournament in March"). There is some concern about the type of signage these graphics would present (business signage as opposed to advertising signage), as well as the overall amount proposed.

The CPC is reviewing the signage issue for all three permanent casinos. The Commission wants to be sure that all three casinos are treated equitably, while recognizing the different sites and designs of the facilities. It is for this reason that the CPC recommends that the final signage plan should be brought back for CPC review and approval at a later date, when the developer's signage concept is clarified and when we have further developed a signage policy for casinos. Furthermore, the SD5 regulations require that final site plans and elevations (including signs) be reviewed and approved by CPC staff before applicable building permits for the casino are issued.

Landscaping

An illuminated water/steam/ice feature will be created at the intersection of Bagley and Third St. The landscaping at the corner will be terraced. A path is provided through the corner so that members of the public are able to enjoy the feature. Other ways for the public to enjoy the feature are also being considered and could be approved at the staff level at the time of permit drawing review. Paving materials will be decorative concrete and pavers at that corner, and the Third St. sidewalk will also receive a decorative treatment. The

intersection of Third St. and the I-75 Service Drive will also be heavily landscaped, including, again, layered plantings.

The service areas in the rear will be screened with shrubs. The Third St. frontage in front of the restaurants will be an outdoor terrace, and the area between Third St. and the interior road will be terraced and planted with trees to screen the outdoor terrace from the street. The 22-foot wide median of Third St. will be landscaped with trees, grass, and flowers. The existing ornamental fencing will be relocated to the project perimeter.

ANALYSIS

The appearance of the self-park deck has been addressed through the treatment of its corners, creating "towers" with decorative features at the north and south ends. The treatment of the building at the key intersection of Third and Bagley has been addressed through adding rounded corners and a vertical feature element running from the base to the top of the hotel. The exterior materials proposed appear to be consistent with the image initially shown, and are of generally high quality.

The corner at Third and Bagley has been developed with landscaping and a unique water feature. The signage will be finalized and reviewed at the time of permit drawing review. In the meantime, parameters for the amount and various types of signage allowed for all the casino complexes would be finalized by CPC and other City staff.

Other City departments have also submitted comments regarding the proposed development, and the developer is continuing to work with those departments. One of these departments, the Traffic Engineering Division of the Department of Public Works, submitted a letter to the City Planning Commission dated February 6, 2003 detailing its comments as a result of its preliminary review of the revised development and site plan submitted by the developer. The letter identifies the department's expectations as to site access, circulation (both on- and off-site), signage, roadway improvements, infrastructure, location of off-site bus storage, and MDOT approvals, as well as additional information that will be required prior to permit approval. The department may also require (separate from the zoning site plan approval process) the construction of a pedestrian bridge over Third St. to link the DTE property to the MGM self-park garage, where up to 2,000 DTE employees will be parking. In the land sale agreement between MGM and DTE, construction of this bridge is specified to be at DTE's option and expense.

RECOMMENDATION

At its February 6, 2003 meeting, the City Planning Commission took action to

recommend approval of the development proposal for the MGM Grand permanent casino complex, with the condition that the final signage plan come back for approval at a later date. Attached herewith is a resolution for your Honorable Body's consideration, consistent with the provisions of the SD5 ordinance.

Honorable City Council:

Re: Division of Platted Property for 8705-8711 & 8715 Rathbone Street and 8309, 8311, 8315, 8317, 8321, & 8323 Rathbone Street.

The Planning & Development Department (P&DD) recommends **approval** of the request of Anthony Kuczek (Assessors Invoice 01-17) to divide residential property at 8309, 8311, 8315, 8317, 8321, & 8323 Rathbone Street and (Assessors Invoice 01-16) 8705-8711 & 8715 Rathbone.

Description

The property is more particularly described as Parcel 1 the West 55.79 feet of Lot 31, Parcel 2 the East 62.70 feet of Lot 31, Parcel 3 the West 37.50 feet of the North 42.00 feet of Lot 127, Parcel 4 the East 36.20 feet of the West 73.70 feet of the North 42.00 feet of Lot 127, Parcel 5 the East 46.30 feet of Lot 127 of the Rathbone's Subdivision of Outlot 4, City of Detroit, Wayne County, Michigan and is shown on the attached property survey and land use maps. The subject properties are zoned B-4 (General Business District) and are developed with a single family dwelling unit (Parcel 1), a multi family four (4) unit apartment building (Parcel 2), and a six (6) unit townhouse complex (Parcels 3 through 5). Per section 94.0359 Multi Family units are Permitted with Approval. Per section 94.0380 Single Family dwellings are Permitted with Approval. Per section 94.0385 Townhouses are Permitted with Approval. Since the structures are in existence and have been continually occupied, a hearing for a Special Land Use Approval by the Building & Safety Engineering Department will not be necessary.

The petitioner is requesting the division of Parcel 1 & 2 (Assessors 01-16) the multi-family apartment dwelling and the single family dwelling & Parcels 3 through

5, the division of six attached townhouses into three (3) separate parcels (Assessors 01-17). The purpose of the division will be for the present landholder to refinance the properties and reinvest the funds within each property. Therefore, the division will clarify the property boundaries, property assessments, and may provide ownership opportunities in the future.

Legal Basis for Review

The Planning & Development Department reviewed this request under City of Detroit Ordinance 421-G of April 17, 1969, Chapter 58A, Article 1, *Subdivision of Land*, of the *Detroit City Code* and Sections 94.0000, 94.0359, 94.0380, and 94.0385 of the *Official Zoning Ordinance 390-G*. A copy of ordinance 421-G is included for reference.

Findings

A review of this request by the Finance Department, Assessments Division and the Law Department discloses that the property descriptions are accurate as listed and that the signatories have necessary interest in the subject property.

The Planning & Development Department's review involved 1) an investigation of water and sewer service in this area, 2) a study of vehicular and pedestrian access, 3) a review of the Master Plan and zoning requirements, and 4) interviews with the petitioner.

Based on the aforementioned determination and our review and analysis, the Planning & Development Department makes the following findings relative to this proposal:

1. The proposal meets the conditions of Section 1, Paragraph 3 of Ordinance 421-G as the property is presently developed and the proposed division creates parcels conforming to existing individual building units. Parcels 1 & 2 are developed with a multi family residential dwelling and a single-family dwelling. Both individual unattached structures will be divided and create parcels conforming to each individual structure. Parcels 3 through 5 are developed with six attached townhouse dwellings. The townhouses will be grouped into two (2)-attached townhouses. Therefore after the division from the original six unit townhouse complex three (3) individual parcels will be created consisting of two (2) townhomes per parcel.

However, if the structures were demolished all five (5) Parcels would require side yard and lot width variances from the Board of Zoning Appeals to become buildable parcels. The Petition indicated at a meeting the units would not be sold separately, but sold as one block. However, the Department would support the separate sale of parcel 1, the single-family dwelling, and Parcel 2, the multi story apartment building. Additionally, after a subsequent site visit the Department

would support the individual sale of Parcels 3-5 if a condominium association was enacted for the six (6) townhouses.

2. The proposal improves pre-existing conditions by legally clarifying the platting and property boundaries, property assessments, and the land use relationship between the two separate lots. The petition does clarify the property boundaries. Parcels 1-2 are separate structures. This division will clarify the property boundaries and solidify their relationship as abutting occupied structures. The division of Parcels 3-5 will improve the property assessments and may provide an easy future approach to dividing each unit for an owner occupant. Therefore, the division will clarify pre-existing conditions for each parcel.

3. The proposal is consistent with the Master Plan of Policies. Recommended Future General Land Use for the subject area is shown on the Southwest Map, Vernor-Junction Subsector, West Side Sector Map is "RM" (Medium Density residential).

4. The proposal increases the possibility for home ownership in regard to the single family dwelling or a condominium association for the apartment building within an area of the city that is experiencing an increase in population. Presently, the southwestern portion of the City has been undergoing an economic and rehabilitation period. Many new homeowners are purchasing properties within the district and bringing them into compliance with the city code requirements. Secondly, investment properties such as these structures are undergoing rehabilitation thereby stabilizing the surrounding neighborhood and providing an incentive for increased property reinvestment.

5. Per Section 51-1-25 Public Improvements, subsection B & C. Each parcel shall be improved and have access to sanitary sewers and a water supply. The petitioner supplied a letter dated September 7, 2002. The letter identified that the parcels have separate access to gas, electric, water and sewer lines.

6. Per Section 51-1-4, subsection A4, all parcels shall not be isolated from a public street. Per the property survey each parcel Lots 31 & 127 do have access to a public street. Per Section 47.0000 of the Zoning Ordinance 1.25 off street parking spaces are required for each unit. Therefore a total of seventeen (17) spaces are required for both division requests. The Department, after a site visit, understands that off street parking is available at each site. Secondly, the landholder indicated that half of the tenants do no own vehicles. Therefore, since this section of the City is increasingly becoming pedestrian in nature, a waiver in parking is recommended.

Recommendation

The Planning & Development Department recommends that this request for Division of Platted Property be approved as proposed and that the attached resolution relative to this Division be adopted.

Respectfully submitted,
BURNEY JOHNSON
Director of Planning Activities

By Council Member S. Cockrel:

Whereas, Anthony Kuczek submitted a request to divide property as 8705-8711 & 8715 Rathbone Street and 8309, 8311, 8315, 8317, 8321, & 8323 Rathbone Street into five (5) parts, and

Whereas, Said request contains the required Finance Department, Assessments Division application, legal description (Exhibit A), and survey of property (Exhibit B), as amended, and

Whereas, The Planning & Development Department has investigated said request and found the proposal consistent with Ordinance 421-G of April 17, 1969, Chapters 58A, Article 1, Subdivision of Land, of the Detroit City Code and recommends approval of said request,

Now Therefore Be It Resolved, That the City Council, after careful consideration of the request of Anthony Kuczek to divide platted property at 8705-8711 & 8715 Rathbone Street, and 8309, 8311, 8315, 8317, 8321, & 8323 Rathbone Street into five (5) parts, accepts the Departmental reports, approves said Division of Platted Property as described in the attached Exhibit A, and refers said request to the Finance Department, Assessments Division for final processing, and further,

but must be retained as a portion of the three (3) continuous parcels.

Be It Resolved, That the resolution in no way alters the class of occupancy, and that any alterations or additions to the principle buildings hereto will require prior approval of the Board of Zoning Appeals, And Finally,

Be It Resolved, That the City Clerk is authorized to certify this resolution, and the Petitioner is directed to record said certified copy of this resolution at the Office of the Wayne County Register of Deeds and present said certified copy to the Finance Department, Assessments division to obtain final processing to this Division of Platted Property.

Re: Petition No. 703 — Cass Corridor Neighborhood Development Corporation at 3535 Cass Avenue, Detroit, Michigan 48201, request conversion to easement and outright vacation of alleys in the area of Third, Second, Selden and Martin Luther King Jr. Boulevard.

Petition No. 703 "Cass Corridor Neighborhood Development Corporation at 3535 Cass Avenue, Detroit, Michigan 48201, requesting conversion of the North-South public alley, 20 feet wide, into a private easement for utilities and outright vacation of the East-West platted alleys, 10 feet wide, and a North-South public alley, 10 feet wide, all in the blocks bounded by Selden Avenue, 100 feet wide, Martin Luther King Jr. Boulevard, 100 feet wide, Third Avenue, 70 feet wide and Second Boulevard, 100 feet wide.

The request for outright vacation and conversion to easement was approved by the Solid Waste Division — DPW and the Traffic Engineering Division — DPW. The petition was referred to the City Engineering Division — DPW for an investigation (utility review) and report. This is our report:

The Detroit Edison Company (DeCo) reported a cost of \$10,000 and SBC Telephone Company reported involvement with removing and/or rerouting services to maintain service to customers.

The property owner has made satisfactory arrangements for said estimated costs for removing and rerouting services to maintain service to customers.

All other city departments and private utility companies have reported no involvement or satisfactory arrangements have been made.

Whenever it becomes necessary to discontinue use of the paved alley return entrances (into Brainard Street and Third Avenue) such removal and construction of new curb and sidewalk must be done under City Engineering Division — DPW specifications, permits and inspection with all cost borne by the property owner.

I am recommending adoption of the attached resolution.

**RESOLUTION APPROVING
BROWNFIELD PLAN OF THE CITY OF
DETROIT BROWNFIELD
REDEVELOPMENT AUTHORITY FOR
THE 5981 W. WARREN**

By Council Member Collins:

WHEREAS, Pursuant to 381 PA 1996, as amended ("Act 381"), the City of Detroit Brownfield Redevelopment Authority ("Authority") has been established by resolution of the City Council of

the City of Detroit (the "City") for the purpose of promoting the revitalization of eligible properties in the City; and

WHEREAS, Under Act 381 the Authority is authorized to develop and propose for adoption by City Council a brownfield plan for one or more parcels of eligible property; and

WHEREAS, An eligible taxpayer may qualify for the Michigan Single Business Tax credit pursuant to Act 228, Public Acts of Michigan, 1975, as amended, for any eligible investments on eligible property identified under a brownfield plan; and

WHEREAS, Pursuant to the resolution establishing the Authority and the bylaws of the Authority, the Authority has submitted a proposed brownfield plan for the 5981 W. Warren (the "Plan") that would enable 5981 W. Warren to apply for a Michigan Single Business Tax credit for eligible investments on eligible property as defined by Act 381, as amended, after the adoption of this Plan; and

WHEREAS, The Authority submitted the Plan to the Community Advisory Committee for consideration and comment and held a public hearing to solicit comments on the proposed Plan on January 14, 2003; and

WHEREAS, The Community Advisory Committee recommended approval of the Plan on January 14, 2003; and

WHEREAS, The Authority approved the Plan on January 15, 2003 and forwarded it to the City Council with a request for its approval of the Plan; and

WHEREAS, The City Council held a public hearing on the proposed Plan on February 20, 2003.

NOW, THEREFORE, BE IT RESOLVED, THAT:

1. **Definitions.** Where used in this Resolution the terms set forth below shall have the following meaning unless the context clearly requires otherwise:

"Eligible Activities" or "eligible activity" shall have the meaning described in Act 381.

"Eligible Property" means the property designated in the Plan as the Eligible Property, as described in Act 381.

"Plan" means the Plan prepared by the Authority, as transmitted to the City Council by the Authority for approval, copies of which Plan are on file in the office of the City Clerk.

"Taxing Jurisdiction" shall mean each unit of government levying an ad valorem property tax on the Eligible Property.

2. **Public Purpose.** The City Council hereby determines that the Plan constitutes a public purpose.

3. **Best Interest of the Public.** The City Council hereby determines that it is in the best interests of the public to promote the revitalization of environmentally distressed areas in the City to proceed with the Plan.

4. **Review Considerations.** As required by Act 381, the City Council has in reviewing the Plan taken into account the following considerations:

(a) The Plan meets the requirements set forth in section 13 of Act 381.

(b) The proposed method of financing the costs of Eligible Activities is feasible and the Authority has the ability to arrange the financing.

(c) The costs of Eligible Activities proposed are reasonable and necessary to carry out the purposes of Act 381.

(d) No captured taxable value is estimated to result from adoption of the Plan since all Eligible Activities will be financed by the owner of the Eligible Property and the Plan does not provide for the use of tax increment revenues for eligible activities.

5. **Approval and Adoption of Plan.**

The Plan as submitted by the Authority is hereby approved and adopted. A copy of the Plan and all amendments thereto shall be maintained on file in the City Clerk's office.

6. **Disclaimer.** By adoption of this resolution and approval of the Plan, the City assumes no obligation or liability to the owner, developer, lessee or lessor of the Eligible Property for any loss or damage that may result to such persons from the adoption of this resolution and Plan. The City makes no guarantees or representations as to the determinations of the appropriate state officials regarding the ability of the owner, developer or lessor to qualify for a Single Business Tax credit pursuant to Act 228, Public Acts of Michigan, 1975, as amended.

7. **Repealer.** All resolutions and parts of resolutions insofar as they conflict with the provisions of this resolution be and the same hereby are rescinded.

8. **The City Clerk** is requested to submit three (3) certified copies of this Resolution to the DBRA, 211 W. Fort Street, Suite 900, Detroit, MI 48226.

City Planning Commission

February 21, 2003

Honorable City Council:

Re: City Planning Commission proposal to develop a model of World Class City (Submitting Requested Resolution).

At the City Council discussion about World Class City on February 20, 2003, the Council Members present indicated strong support for the proposal by the Planning Commissioners to develop a model for World Class City. City Planning Commission (CPC) staff was asked to draft a resolution for Council's consideration at its adjourned session of Friday, February 21, 2003. Council Members could then vote on whether to support the Commission proceeding with the proposed study.

One question raised at the discussion concerned the cost of such study. Commissioners and staff discussed the scope and methodology of the survey further at the Commission meeting on Thursday, February 20, 2003. The conclusion was that the study could be conducted within the Commission's regular budget and that no additional funds would be required. Information would be required through such sources as contacts with travel agents, visitor bureaus and State Departments of Commerce, surveys of other cities, and interviews. No travel would be required.

Please find the resolution attached for your consideration.

Respectfully submitted,
MARSHA S. BRUHN
Director

By Council Member Collins:

Whereas, The City Planning Commission has been exploring the issue of what constitutes a "World Class City"; and

Whereas, The Commission is proposing that it develop a model for "World Class City" that would include how it is defined, the factors involved, and how Detroit compares to the model; and

Whereas, The Commission proposes to research this issue more systematically through further review of the literature, conducting mail and phone surveys of stakeholders in cities perceived to be "World Class", and consulting with the travel industry and state departments of commerce; and

Whereas, It is the intention of the Commission to produce a valid report after determination of the elements deemed essential for "World Class City" status, analysis of the data, and identification of strategies for Detroit to pursue; and

Whereas, It has been determined that the Commission can conduct this research within its regular budget appropriation;

Now, Therefore, Be It Resolved, That the City Council supports the City Planning Commission's proposal to develop a model for what constitutes a "World Class City" that can be used by any city, including Detroit, to determine the feasibility and desirability of moving towards "World Class" status.

Adopted as follows:

Yeas — Council Members Bates, K. Cockrel, Jr., S. Cockrel, Collins, Everett, and Tinsley-Talabi — 6.

Nays — Council Members McPhail, and President Mahaffey — 2.

Eternal God, our Father, I humbly bow in Your divine presence with praise and thanksgiving for Your grace that has allowed us to see another day. As we gather, I lift up the City Council of the City of Detroit. I thank You for this elected body of men and women that, having joined together, have been entrusted with the affairs of this great city. I pray, dear God, for Your presence to permeate this chamber. I pray that Your wisdom, which comes from above, be the guiding source of the business of the day. Reveal to them Your vision as they forge ahead to make Detroit an even greater city. Release into their hands all that You have ordained for this season of renewal. I pray for unity, like a three strand cord, that can not be broken. As I pray for them, I also pray for their families. May they find You to be an ever present help in the time of need, as well as a constant compassionate Friend. Let this day be resourceful and complete in You, and, as it grows to a close, let us not forget that it was Your watchful eye that guided us along the way. Economic Development Corporation

February 18, 2003

Honorable City Council:

Re: Federal Reserve Bank of Chicago Building Project. Request for Designation of an EDC Project District Area and Project Area. Request for Confirmation of Two (2) Additional Directors to the Economic Development Corporation Board of Directors.

The City of Detroit (the "City") and the Federal Reserve Bank of Chicago (the "Bank") entered into an Agreement (the City/Bank Agreement) in which the Bank has acquired property from the City for the purpose of developing and constructing a new Bank facility (the "Building Project") that will serve as a local center for the distribution of cash and processing of checks. The Building Project requires the relocation of a 48-inch waterline, which is property of the Detroit Water & Sewerage Department (DWSD) currently located in a vacated easement.

To expedite the Bank project, the City and Bank have requested that, through a Funding Agreement with the Bank, the Detroit Economic Growth Corporation (the "DEGC") will undertake and complete the relocation of the water line. A provision of the Funding Agreement allows the DEGC to assign the Funding Agreement and all the DEGC's interests and duties under the Funding Agreement to the Economic Development Corporation of the City of Detroit (the "EDC").

Re: Division of Platted Property for 1115 Van Dyke Street within the West Village Local Historic District. (Recommended Approval.)

The Planning & Development Department (P&DD) recommends approval of the request of James Howbert (Assessors Invoice 02-7) to divide residential property at 1115 Van Dyke Street.

Description

The property is more particularly described as **Parcel A** the north 40 feet of Lot 53 of Shipherd's Subdivision and **Parcel B** the north 40 feet of Lot 53, also the West 78.0 feet of Lot 53 of Shipherd's Subdivision, City of Detroit, Wayne County, Michigan and is shown on the attached property survey and land use maps. The subject property is zoned R-5H (Medium Density Residential District (Historic) and is developed with a unoccupied single family dwelling unit. The petitioner is requesting the division of Lot 53 in half. Parcel A would front Van Dyke Ave. and Parcel B would be combined with 1121 Van Dyke or Lot 52. The division will clarify the property boundaries, property assessments, and provide needed off street parking for the tenants of the apartment building at 1121 Van Dyke.

Legal Basis for Review

The Planning & Development Department reviewed this request under City of Detroit Ordinance 421-G of April 17, 1969, Chapter 58A, Article I, *Subdivision of Land*, of the **Detroit City Code** and Sections 43.0200, 45.0200, 80.0000, 82.0305, 85.0000 and 85.0112 of the **Official Zoning Ordinance 390-G**. A copy of Ordinance 421-G is included for reference.

Findings

A review of this request by the Finance Department, Assessments Division and the Law Department discloses that the property descriptions are accurate as listed and that the signatories have necessary interest in the subject property.

The Planning & Development Department's review involved 1) an investigation of water and sewer service in this area, 2) a study of vehicular and pedestrian access, 3) a review of Master Plan and zoning requirements, and 4) interviews with the petitioner.

Based on the aforementioned determinations and our review the analysis, the Planning & Development Department makes the following findings relative to this proposal:

1. The proposal meets the conditions of Section 1, Paragraph 3 of Ordinance 421-G as the property is presently developed and the proposed division creates parcels conforming to existing individual buildings units. Parcel A is developed with single family dwelling unit. Parcel B is developed as a parking lot for the apartment building located at 1121 Van Dyke otherwise known as Lot 52. Both land uses are Permitted as a Matter of Right in a R-5 District and the Historic District Commission on November 9, 2000 issued a Certificate of Appropriateness for the parking lot/Parcel B.

However, if the single-family dwelling were to be demolished, Parcel A would require a rear yard variance if a dwelling were re-established on the lot; to which the Department would not object. After reviewing the present land use maps a number of lots within the West Village area do have similar lot configurations. Parcel B, on the other hand, would not require a variance, since it will never be developed for residential dwellings.

2. The proposal improves pre-existing conditions by legally clarifying the platting and property boundaries, property assessments, and the land use relationship between the two separate lots. The petition does clarify the property boundaries. Parcel A would continue to have an address on Van Dyke Ave, where as the Parcel B, the parking lot, would be combined with 1121 Van Dyke/Lot 52 and have an address at 1121 Van Dyke. The property assessments will be improved. Per an interview with the Petitioner, Parcel B would be assessed with Lot 52 and would be taxed as a commercial property where as Parcel A would continue as a residential use and assessment. Therefore, the division will clarify the ownership and tax description of Parcel A & Parcel B and provide a proper chain of title and tax assessment.

3. The proposal is consistent with the Master Plan of Policies. Recommended Future General Land Use for the subject area shown on the Butzel Subsector, East Side Sector Map is "RM" (Medium Density Residential).

4. The proposal increases the possibility for the continued rehabilitation of 1121 Van Dyke/Lot 52. Presently, a five (5) story apartment building is located at 1121 Van Dyke. The petitioner is unable to gain financing without the required off street parking spaces per ordinance 390-G. Therefore Parcel B, the parking lot, is needed to comply with financing requirements for banks interested in providing a rehabilitation loan for the apartment building.

5. Per Section 51-1-25 Public Improvements, subsection B & C. Each parcels shall be improved and have assess to sanitary sewers and a water

supply. The petitioner supplied a letter dated May 5, 2002. The letter identifies that the parcels have separate access to gas, electric, water and sewer lines. Secondly, the Petitioner indicated that he will comply with Section 85.0112 regarding the site improvements for a parking lot for operable passenger vehicles.

6. Per Section 51-1-4, subsection A4. All parcels shall not be isolated from a public street. Per the property survey the single-family house/Parcel A does have access to a public street, Van Dyke, as well as Parcel B, Van Dyke. Per section 47.0000 of the Zoning Ordinance ten (10) off street parking spaces are required for the apartment building at 1121 Van Dyke. Per a site plan twelve (12) spaces will be gained with the combination of Parcel B and Lot 52.

Recommendations

The Planning & Development Department recommends that this request for Division of Platted Property be approved as proposed and that the attached resolution relative to this Division be adopted.

Respectfully submitted,

BURNEY JOHNSON

Honorable City Council:

Re: Application from 1521 Broadway, L.L.C., for an Obsolete Property Rehabilitation Exemption Certificate at 1521 Broadway (Petition No. 802).

Representatives of the Planning & Development and Finance Departments have reviewed the above referenced project, and, based on such review and based on discussions with representatives of 1521 Broadway, L.L.C., recommend to your Honorable Body that you give approval to that entity's application for an Obsolete Property Rehabilitation Certificate.

The Act requires that, prior to your Honorable Body's approval of an application for an Obsolete Property Rehabilitation Certificate, a public hearing must first be conducted. We ask that you establish a date and time for such public hearing, in accordance with the attached resolution and legal description, in order that approval of the application may be considered.

Respectfully submitted,

Whereas, The Act requires that, prior to approving an Application for an Obsolete Property Rehabilitation Exemption Certificate, the City Council shall provide an opportunity for a Public Hearing on the Application, at which Public Hearing representatives of any taxing authority levying ad valorem taxes within the City, or any owner of real property within the District, or any other resident or taxpayer of the City of Detroit may appear and be heard on the matter;

RESOLUTION IN SUPPORT OF ASIAN PACIFIC ISLANDER AMERICAN SOCIAL JUSTICE CONFERENCE AT THE UNIVERSITY OF MICHIGAN

By COUNCIL PRESIDENT MAHAFFEY:

WHEREAS, Asian Americans have been an integral part of American history since the 1800s, and

WHEREAS, Asian Americans are now the fastest growing group in the United States, and

WHEREAS, Four of the top 10 languages now spoken in the U.S. are Asian (#2 Chinese; #5 Tagalog; #6 Vietnamese; #8 Korean), and

WHEREAS, Persons of Asian descent comprised only 1.8 percent of Michigan's population in 1990, but the population grew by 70.5 percent in 2000. During this decade, the number of South Asian Americans increased by 129 percent. The Vietnamese American population grew by 123 percent. The Korean American population increased 28 percent, and the Japanese American population grew a more modest 5.7 percent, and

WHEREAS, The 2000 Census shows that Asian Pacific Islander Americans (APIAs) had the highest median family and household incomes, owned the most expensive homes and were the best-educated among all groups, topping even non-Hispanic whites. At the same time, APIAs remained impoverished, unemployed, and less-educated than the average American. The Census also showed conclusively for the first time that Native Hawaiians and Pacific Islanders had, on the whole, a much different socioeconomic experience than other APIAs, and deserved to be treated differently policy-wise. And

WHEREAS, The "model minority" stereotype discounts the real struggle of APIAs in the United States. America's leaders need to look beyond the "model minority" myth and recognize the diversity and value of APIA communities in the public arena, and

WHEREAS, The well-being of APIA communities suffers when policy debates exclude APIA voices or do not address APIA concerns. Inclusion of APIA voices

is imperative in creating a diverse and just democracy. There exists an ever-increasing need to dialogue about the issues that impact APIA communities, particularly in the Midwest. THEREFORE BE IT

RESOLVED, That the Detroit City Council supports the Coalition of Asian Pacific American Social Work Students and the Invisible No Longer: APIAs in Social Work Education (A Curriculum Enhancement Project) in their efforts to convene the first cross-discipline, cross-practice, cross-racial, and cross-ethnic conference that will shed light on social justice work in APIA communities in the Midwest. "Challenges and Triumphs: Collaborating for Social Justice in APIA Communities, An Exploration Across Disciplines and Practices," will take place on March 21-22, 2003 and will be held at the University of Michigan School of Social Work. The Council also applauds the activists, practitioners, students, educators, community leaders, social service providers, and policymakers who will engage in exploring strategies to promote the well-being of Midwest APIA communities. BE IT FURTHER

RESOLVED, That the City Clerk hereby forward copies of this resolution to the Governors and U.S. Senators of the following Midwest states: Michigan, Ohio, Indiana, Illinois, Missouri, Iowa, Minnesota, and Wisconsin; the Mayors and City Councils of the following cities: Cleveland, OH; Cincinnati, OH; Indianapolis, IN; Chicago, IL; Kansas City, MO; St. Louis, MO; Des Moines, IA; St. Paul, MN; Minneapolis, MN; Milwaukee, WI; and the Congressional Asian Pacific American Caucus.

Nays — None.

RESOLUTION

By COUNCIL MEMBER MCPHAIL:

WHEREAS, The Michigan Liquor Control Commission (MLCC) has proposed new rules that regulate the activities within on-premises licensed establishments, including bars and clubs; and

WHEREAS, MLCC Administrative Rule R 436.1407 of the Commission's On-Premises Licenses Rules currently permits the MLCC to issue up to 12 daily temporary dance, entertainment, or dance entertainment permits to a license each calendar year upon written request of the licensee and approval of the chief law enforcement officer who has jurisdiction; and

WHEREAS, The MLCC has proposed Subrule (2) as an addition to R 436.1407

to permit the MLCC to issue up to twelve (12) daily temporary topless activity permits to a licensee each calendar year upon written request of the licensee, approval of the chief law enforcement officer who has jurisdiction, and approval of the local legislative body of the jurisdiction in which the premises are located; and

WHEREAS, The MLCC has proposed adding Administrative Rule R 436.1410 to require that an on-premises licensee meet the following conditions before topless activity would be permitted: a) have a valid permit issued by the Commission that would allow topless activity; b) ensure that any person performing any topless activity be on a stage not less than three (3) feet from the nearest patron at all times during a performance; and c) ensure that a person performing any topless activity not make physical contact with a patron and that the patron not make contact with the performer during the topless activity; and

WHEREAS, The City of Detroit has seven hundred twenty-three (723) on-premises establishments licensed by the MLCC, most of which are in close proximity to the City's residential living areas, and has approved amendments to Ordinance 390-G, the City's Zoning Ordinance, to restrict the location of adult entertainment establishments, including adult cabarets, in order to insure that the adverse effects of such uses will not contribute to the blighting or downgrading of the surrounding neighborhoods; and

WHEREAS, The City Council is highly concerned about the proposed amendment to the MLCC Rule R 436.1407 to add Subrule (2) that would facilitate the issuance of daily temporary topless activity permits in establishments licensed by the MLCC in the City of Detroit; and

WHEREAS, The City Council understands that the MLCC held a public hearing on December 4, 2002 and voted in January, 2003 to informally adopt the proposed changes that were then forwarded to the Department of Consumer and Industry Services, and which, if approved by the department, will then be forwarded to the Michigan Legislature Joint Committee on Administrative Rules;

NOW, THEREFORE, BE IT RESOLVED, That the Detroit City Council urges the Department of Consumer and Industry Services to reject the MLCC's recommendation for the addition of Subrule (2) to R 436.1407 Temporary Entertainment, Dance, or Dance Entertainment Permits; Approval, that would allow the MLCC to issue up to twelve (12) daily temporary topless activity permits to licensed on-premises operators, with the approval of the local legislative body and chief law enforcement officer; and

BE IT FURTHER RESOLVED, That the Detroit City Council urges the Governor of the State of Michigan and the Michigan State Legislature's Joint Committee on Administrative Rules to reject any further efforts for approval of proposed Subrule (2); and

BE IT FINALLY RESOLVED, That the City Clerk be instructed to send copies of this adopted resolution to Governor Jennifer Granholm, the Director of the Department of Consumer and Industry Services, the Michigan Liquor Control Commission, and the members of the Michigan State Legislature Joint Committee on Administrative Rules — State Representatives John Pappageorge (Chair), William Van Regenmorter, Stephen Ehardt, David Woodward, and John Gleason, and State Senators Michael Bishop (Alternate Chair), Ron Jelinek, Wayne Kuipers, Jim Barcia and Samuel Buzz Thomas III.

**RESOLUTION
URGING GOVERNOR GRANHOLM
AND THE MICHIGAN PUBLIC
SERVICE COMMISSION TO REBUILD
THE ENERGY ASSISTANCE SAFETY
NET WHICH INCLUDES A WINTER
SHUT-OFF PREVENTION PROGRAM
By COUNCIL PRESIDENT MAHAFFEY:**

WHEREAS, Governor John Engler eliminated the statewide General Assistance program and implemented Welfare Reform which placed those 98,000 Michigan residents (a significant percentage residing in Detroit and Wayne County) who received support through G.A. in even poorer circumstances. These recipients, all single men or women, had their utility bills paid in part by the state social service agency which forwarded a part of the monthly cash assistance to the energy company which in turn contracted to maintain the utility as long as the recipient remained in what was called the "vendor pay" program. The resident was protected from shut-off. Families receiving cash assistance were also protected from shut-off if they enrolled in the vendor pay program. In 2002, outgoing Gov. John Engler ended this program which exposed the remaining 30,000 cash assistance recipients and those who had already left welfare after securing employment, to immediate light and gas interruption. It is now estimated that 20,000 low-income households are in some state of pending shut-off status.

WHEREAS, DTE Energy has provided help to many low-income customers through their corporate assistance programs. However, the scale of the need

demands a more systemic approach which should include both federal and local responses.

WHEREAS, The current approach to welfare reform has expanded the ranks of the "working poor" and has simultaneously removed the safety net which protected poorer residents from sudden spikes in energy expenses due to hard winters, rate increases, weakening economic conditions, and massive job losses.

WHEREAS, Approximately \$3 million each month is contributed by DTE Energy and accrued in a low-income energy efficiency fund administered by the Michigan Public Service Commission, a portion of which is earmarked for emergency shut-off assistance. These funds have not been distributed to agencies in a timely manner to meet resident emergencies or prevent utility interruptions as they were designed to. Further, a significant portion of these funds have been allocated to the state Family Independence Agency which has not been targeted to those with the greatest need, but instead was spread out and made available in a much less effective manner to a larger population in the form of \$80.00 Home Heating Credits. For these reasons, BE IT...

RESOLVED, That the Detroit City Council urge Governor Granholm and the M.P.S.C. to aggressively request full and immediate funding from the federal government for all low-income energy assistance programs for Michigan utility consumers. BE IT FURTHER...

RESOLVED, That the Detroit City Council urge Governor Granholm and the M.P.S.C. to partner with Detroit and other Michigan cities in crisis, wherever there are residents unable to afford the cost of electricity and heat. The focus of this partnership is to restructure and re-institute vendor assistance programs for low-income utility customers who still are entitled to support from the F.I.A. Such restructuring will also address utility arrearages for families seeking a fresh start as they move from "welfare to work", but who are financially hamstrung by large accumulated bills. BE IT FURTHER...

RESOLVED, That the Detroit City Council agrees with duly elected local officials and utility providers in other northern American cities who will not allow heat and lights to be disconnected for poorer residents. That there be a winter emergency utility shut-off protection program which starts on November 1st, and ends on April 1st during which no low-income resident in Detroit can be denied utility service as long as minimum required monthly payments are made to maintain service. The M.P.S.C. is urged to insure that the Low-Income Energy Efficiency Funds are distributed on a monthly basis to those agencies with proven expertise in

forwarding these funds to those consumers with the greatest and most emergent needs. BE IT FINALLY...

RESOLVED, That the Detroit City Clerk immediately forward copies of this resolution to the Governor's office, to the M.P.S.C., to Mr. Anthony Early and Mr. Thomas Stallworth of DTE Energy, to the Michigan Welfare Rights Organization, to the Michigan State Congressional Delegation as well as to the two Michigan Representatives of the U.S. Congress, the Honorable John Conyers and the Honorable Carolyn Cheeks Kilpatrick, and to the Senators Carl Levin and Debbie Stabenow.

Adopted as follows:

Yeas — Council Members Bates, K. Cockrel, Jr., S. Cockrel, Everett, Tinsley-Talabi, and President Mahaffey — 6.

Nays — None.

RESOLVED, That because the special assessments for the demolition costs did not appear on the tax bills for 1446 Mullane and 1450 Mullane until at least one year after the properties were acquired by Neighborhood Centers Incorporated, and

RESOLVED, That the City Council of the City of Detroit is hereby authorized to cancel outstanding City of Detroit real property taxes and special assessments under Detroit Ordinance No. 290-H, ch. 12, art. 11, sec. 12-11-28.4, and

RESOLVED, That Detroit Ordinance No. 290-H, ch. 12, art. 11, sec. 12-11-28.4 provides that "If any tax assessment pursuant to this section is found to be unjust or erroneous, or where the owner of the property would suffer an undue hardship through no fault of his own, the City Council may waive the assessment."

RESOLVED, That the demolition special assessments which attached to 1446 and 1450 Mullane in November, 2002 constitute unjust assessments.

Honorable City Council:

Re: Delray Senior Housing.

Delray United Non Profit Housing Corp is sponsoring the Delray Senior Housing Development. The Delray Senior Housing Limited Dividend Housing Association Limited Partnership has been formed. The project is being funded under the City of Detroit-Home Investor Loan Program, in the amount of \$2,000,000 at 5.75% interest for 20 years; sponsor loans in the amount of \$570,000 at 5.75% interest for 30 years and \$287,000 at 0% interest for 30 years; \$200,000 at 0% interest for 40 years, and low Income Tax Credits.

Delray Senior Housing will consist of a

new constructed 73 multi-family apartment units — 66 one-bedroom, one-bath units and 7 two-bedroom one-bath. The project is bounded by I-75 to the South, W. Grand Boulevard to the East, Porter Street to the North and Vinewood to the West.

MSHDA has indicated that such developments receiving low income tax credits but no financing from the authority are eligible to receive tax abatement pursuant to Section 15a of Act 346 of the Public Acts of 1966 as amended.

In order to make the development economically feasible; it is necessary for the development to receive the benefits of tax exemption under Section 15a of the State of Housing Development Authority Act of 1966 (P.A. 346, as amended MCLA 125.1415A).

In accordance with the National Housing Act and tax criteria for award or reservation of Low Income Tax Credits and the Planning and Development Department Home Investor Loan Program, at least twenty percent (20%) or 14 of the units must be occupied by households having incomes no greater than 50% of the area median income, adjusted for family size. The remaining eighty percent (80%) or 58 of the units must be occupied by households with incomes that do not exceed 60% of the area median income, adjusted for family size. These income restrictions will be in effect for the longer of the period the Affordable Housing Restrictions apply or the time required under the Tax Credit program.

Adoption of the attached resolution by your Honorable Body will satisfy the requirements of Public Act 346 and City Code Section 9-90, as amended, by establishing a four percent (4%) service charge for this housing project.

Respectfully submitted,
JULIE A. CASTONE
Assessor

Honorable City Council:

Re: Petition Number 781 — Request for Detroit City Council Approval for the Issuance of a Dance Permit by the Michigan Liquor Control Commission to Cloud 9 Entertainment, 105-123 E. Elizabeth (at Comerica Park).

Section 916(6) of the Michigan Liquor Control Code of 1998, being MCL 436.1916(6), requires that prior to the issuance of a Michigan Liquor Control Commission ("MLCC") dance permit, a location licensed by the MLCC for the sale of alcoholic beverages on the premises shall obtain the approval of (1) the chief law enforcement officer, and (2) the legislative body within which the premises are located.

Pursuant to this requirement, the MLCC has forwarded a Local Approval Notice to the Detroit City Council, which has been designated by the City Clerk as Petition Number 781, for a licensed location at 105-123 E. Elizabeth (Comerica Park, Building F). It is the Law Department's understanding that Cloud 9 Entertainment, Inc. is the owner of the location and has requested a dance permit only for the subject location, to be held in approval of the issuance of a dance permit at 105-123 E. Elizabeth. Accordingly, approval of the issuance of a dance permit by the Chief of Police and City Council for this location would allow dancing by patrons only.

Upon investigation, review, and consultation with other City departments, the

Detroit Police Department, Liquor License Unit, on behalf of the Chief of Police, has recommended approval of the issuance of the dance permit to Cloud 9 Entertainment, Inc. for 105-123 E. Elizabeth. The Business License Center reports that the location is in compliance with all of the requirements of the applicable City ordinances and that Cloud 9 Entertainment, Inc. has been licensed by the City to operate a "Group A" cabaret at this location.

In accordance with Section 916(6)(b) of the Michigan Liquor Control Code, being MCL 436.1916(6)(b), and the applicable provisions of the 1997 Detroit City Charter, the attached proposed resolution approving the issuance of a dance permit to Cloud 9 Entertainment, Inc. for 105-123 E. Elizabeth, is being submitted to this Body for consideration and approval.

We request that the proposed resolution be considered at the earliest possible sessions. If there are any questions or concerns, please do not hesitate to contact us.

Respectfully submitted,
BRENDA E. BRACEFUL
Deputy Corporation Counsel

By Council Member Everett:

Whereas, Section 916(6)(b) of the Michigan Liquor Control Code of 1998, being MCL 436.1916(6)(b), requires that prior to the issuance of a Michigan Liquor Control Commission ("MLCC") dance permit, an establishment licensed by the MLCC for the sale of alcoholic beverages on the premises shall obtain the approval of the local legislative body within which the premises are located;

Whereas, The MLCC has forwarded a Local Approval Notice to City Council, which has been designated by the City Clerk as Petition No. 781, concerning the issuance of a dance permit to Cloud 9 Entertainment, Inc. for 105-123 E. Elizabeth, Comerica Park, Building F, in Detroit;

Whereas, The dance permit issued by the MLCC would be held by Cloud 9 Entertainment, Inc. in conjunction with the transfer of ownership of a 2002 MLCC Class C license from 5810 E. Seven Mile Road;

Whereas, Pursuant to Section 916(6)(c) of the Michigan Liquor Control Code, being MCL 436.1916(6)(c), the Detroit Police Department, Liquor License Unit, on behalf of the Chief of Police, has recommended approval of the issuance of a dance permit to Cloud 9 Entertainment, Inc. for 105-123 E. Elizabeth;

Whereas, The Business License Center has reported that the location meets all the requirements of all of the appropriate provisions of the 1984 Detroit City Code and that Cloud 9 Entertainment, Inc. has been licensed by

the City to operate a "Group A" cabaret at the location; and

Whereas, The City Council has considered the Local Approval Notice for the approval of the issuance of a dance permit to Cloud 9 Entertainment, Inc. for 105-123 E. Elizabeth in Detroit and the procedures and criteria for this Body's approval of the issuance of dance permits by the MLCC.

Now, Therefore It is Resolved, Pursuant to Section 916(6)(b) of the Liquor Control Code, being MCL 436.1916(6)(b), that the Detroit City Council, approves the issuance of a dance permit to Cloud 9 Entertainment, Inc. for 105-123 E. Elizabeth; and

It Is Further Resolved, That copies of this Resolution, and the City Clerk's certification of this approval of MLCC request ID number 129240, be forwarded to the Michigan Department of Consumer and Industry Services, Liquor Control Commission, 7150 Harris Drive, P.O. Box 30005, Lansing, MI 48909-7575, the Detroit Police Department, Liquor License Unit, 1300 Park Street, and the Detroit Business License Center, 105 Coleman A. Young Municipal Center.

Honorable City Council:

Re: Address: 20172 Andover. Name: JuAnita Menard. Date ordered removed: January 10, 2001 (J.C.C. pp. 152-153).

In response to the request for a deferral of the demolition order on the property noted above, we submit the following information:

A special inspection on February 5, 2003 revealed the building is secured and appears to be sound and repairable.

The owner has entered into an approved Tax Payment Plan to pay the current taxes due as of July 15, 2002.

The proposed use of the property is rehabilitation and sale.

Therefore, it is recommended that the demolition order be deferred for a period of three (3) months subject to the following conditions:

1. The building shall be maintained securely barricaded until rehabilitation is complete. All relevant permits for rehabilitation work shall be obtained. Rehabilitation is to be complete within three (3) months, at which time the owner will obtain one of the following from this department:

- Certificate of Acceptance related to building permits
- Certificate of Approval as a result of a Housing Inspection
- Certificate of Inspection, required for all residential rental properties

2. The owner shall not occupy or allow occupancy of the structure without a certificate (as outlined in #1 above).

3. The yards shall be maintained clear of weeds, junk and debris at all times.

4. In accordance with Ordinance 290-H, as amended, this building may be deemed dangerous if: it remains unoccupied continuously for more than six months; it is not maintained according to the official Building and Property Maintenance Codes of the City; and it is not listed for sale, lease or rent, regardless of the timeliness of tax payments and regardless of whether building is secure.

At the end of the deferral period, the owner must contact this department to arrange an inspection to evidence that conditions of the deferral have been met or that substantial progress toward rehabilitation has been made. If the building becomes open to trespass or if conditions of the deferral are not complied with, we will proceed with demolition without further hearings. We recommend that utility disconnect actions cease to allow the progress of the rehabilitation.

Re: Address: 3205 Monterey. Name: Emmanuel Tue/Serena Grigsby. Date ordered removed: June 24, 1998 (J.C.C. p. 1633).

In response to the request for a deferral of the demolition order on the property noted above, we submit the following information:

A special inspection on February 18, 2003 revealed the building is secured and appears to be sound and repairable.

The owner has entered into an approved Tax Payment Plan to pay the current taxes due as of October 2, 2002.

The proposed use of the property is rehabilitation and rental.

Therefore, it is recommended that the demolition order be deferred for a period of three (3) months subject to the following conditions:

1. The building shall be maintained securely barricaded until rehabilitation is

complete. All relevant permits for rehabilitation work shall be obtained. Rehabilitation is to be complete within three (3) months, at which time the owner will obtain one of the following from this department:

- Certificate of Acceptance related to building permits
- Certificate of Approval as a result of a Housing Inspection
- Certificate of Inspection, required for all residential rental properties

2. The owner shall not occupy or allow occupancy of the structure without a certificate (as outlined in #1 above).

3. The yards shall be maintained clear of weeds, junk and debris at all times.

4. In accordance with Ordinance 290-H, as amended, this building may be deemed dangerous if: it remains unoccupied continuously for more than six months; it is not maintained according to the official Building and Property Maintenance Codes of the City; and it is not listed for sale, lease or rent, regardless of the timeliness of tax payments and regardless of whether building is secure.

At the end of the deferral period, the owner must contact this department to arrange an inspection to evidence that conditions of the deferral have been met or that substantial progress toward rehabilitation has been made. If the building becomes open to trespass or if conditions of the deferral are not complied with, we will proceed with demolition without further hearings. We recommend that utility disconnect actions cease to allow the progress of the rehabilitation.

City Planning Commission

February 24, 2003

Honorable City Council:

Re: Neighborhood Enterprise Zone (NEZ) Certificate Applications for 62 units of new housing in the Crosswinds Communities/Brush Park NEZ (Recommend Approval).

The City Clerk's Office forwarded to this office 62 applications from Crosswinds Communities, Inc. for Neighborhood Enterprise Zone (NEZ) certificates within the Crosswinds Communities Brush Park NEZ. The Crosswinds Communities Brush Park NEZ designation was approved by City Council on July 17, 1996. CPC staff has reviewed the applications and recommends approval.

Certificates are being requested for the following properties: 85 Adelaide, 87 Adelaide, 2563 John R., 2561 John R., 2559 John R., 2557 John R., 2555 John R., 2553 John R., 2551 John R., 2549 John R., 2547 John R., 2545 John R., 2543 John R., 2541 John R., 118 Adelaide, 116 Adelaide, 114 Adelaide, 112 Adelaide, 110 Adelaide, 108 Adelaide, 106 Adelaide, 82 Adelaide, 84 Adelaide, 86 Adelaide, 88 Adelaide, 90 Adelaide, 92 Adelaide, 94 Adelaide, 96 Adelaide, 98 Adelaide, 100 Adelaide, 102 Adelaide, 104 Adelaide, 2566 Woodward

Avenue, 2564 Woodward Avenue, 2562 Woodward Avenue, 2560 Woodward Avenue, 2556 Woodward Avenue, 2554 Woodward Avenue, 2552 Woodward Avenue, 2550 Woodward Avenue, 2546 Woodward Avenue, 2544 Woodward Avenue, 2542 Woodward Avenue, 2540 Woodward Avenue, 42 Adelaide, 40 Adelaide, 38 Adelaide, 36 Adelaide, 34 Adelaide, 45 Adelaide, 47 Adelaide, 49 Adelaide, 51 Adelaide, 53 Adelaide, 55 Adelaide, 57 Adelaide, 59 Adelaide, 61 Adelaide, 63 Adelaide, 65 Adelaide, and 67 Adelaide.

The properties involved are confirmed as being within the boundaries of the NEZ and should be eligible for NEZ certificates under State Act 147 of 1992 as currently written. Crosswinds Communities, Inc. has applied for the certificates, prior to the issuance of building permits, on behalf of future owners who will occupy the property. It is appropriate for Crosswinds Communities, Inc. to apply for certificates at this time even if buyers have not yet been identified. The State Tax Commission, however, will not issue a certificate until an owner is identified. When an owner is identified, he or she can then apply for the certificate. At that time, it would not be necessary for City Council to pass another resolution.

Crosswinds Communities, Inc. proposes to build 62 units in townhouse-style buildings. The site has been cleared and construction is anticipated to begin soon. The developer will need to submit to the State Tax Commission a list of parcels that are to receive the certificates with a map showing the parcels.

Please let us know if you have any questions.

Honorable City Council:

Re: Resolution on Referring the "Committee on Operational and Financial Re-engineering Report on the City of Detroit" to the City Council Internal Operations Standing Committee.

Attached for Council's consideration is a resolution addressing the above per your request.

Given the city's current economic climate and challenging revenue sources, the city must look at ways to streamline costs. The Mayor's Committee's report offers suggestion to do just that. It's a high level study that lays out a vision for the city to consider if it's going to reengineer and restructure major city operations.

It is unclear whether the administration will follow the committee report completely as a blueprint for the future. We suspect the Council will be apprised of the Mayor's direction regarding reengineering efforts in his upcoming budget message.

Our office is currently reviewing the report and we look to submit a report to you in two weeks including our opinions and suggestions.

Our greatest concern at this point is the possible level of resources it would take to undertake a major reengineering effort. Without financial help from new sources, the city may be hard pressed to find the dollars necessary to fund a major reorganization. Therefore, we suggest the city establishes specific goals and objectives it wants accomplished by reengineering/restructuring efforts before spending the dollars to implement any efforts. We also feel many studies have been done in the past for the city that may offer solutions to improve operations that still may be fruitful today. Lastly, before a new bureaucracy is created to initiate a major reengineering effort, we suspect that the city may already contain a high talent level of individuals in house to help undertake any effort.

By Council Member Everett:

Whereas, The City Council is in receipt of a copy of a report entitled "The Committee on Operational and Financial Re-engineering Report on the City of Detroit" (the committee report) prepared for Mayor Kwame Kilpatrick;

Whereas, The committee report is a high level report offering suggestions for ways to reengineering major city functions, consolidate some major departments, find citywide operational efficiencies, and institute an employee early buy-out plan to reach optimal employees levels;

Whereas, It is unclear at this point to what extent the Mayor is embracing this report for future direction, but he has alluded to a desire to streamline operations and improve the delivery of city services;

Whereas, The City Council anticipates the Mayor will begin to outline his re-engineering/reorganization efforts for consideration in his upcoming 2003-04 budget address. Now Therefore Be It

Resolved, That the "Committee on Operational and Financial Re-engineering Report on the City of Detroit" be immediately referred to the Internal Operations Standing Committee for discussion. A report from the Fiscal Analysis Division on the committee report will be presented to the Internal Operations Standing Committee during the next committee meeting held on March 18, 2003 to facilitate said discussion;

Resolved, That this resolution be immediately forwarded to the Mayor of Detroit, City Clerk, Council Division Directors, the Chief Financial Officer, and the Budget Director for their immediate attention.

City Planning Commission

March 3, 2003

Honorable City Council:

Re: Submittal of resolution expressing City Council's position and intent regarding various items related to the Proposed Capital Agenda.

Attached is a resolution that relays to the City Administration the City Council's position on several aspects of the Proposed Capital Agenda. As was noted at Council's Committee of the Whole meeting on Friday, February 28, 2003, the City Charter requires that Council action be taken by March 1 of the year following submittal of the Proposed Capital Agenda or the document is deemed approved as submitted. The City Council was not able to take a formal action on the document by March 1 because there was not an adjourned session scheduled for February 28. The City Planning Commission staff apologizes for not bringing the matter to the Council's attention in a more timely manner.

However, as you know, the Capital Agenda is a planning document to be used to guide in decision-making regarding capital improvements for the upcoming five years. Implementation of items contained in the Capital Agenda is only realized upon subsequent action by City Council in terms of budget approvals, bond authorizations, contact approvals, etc. Therefore, upon consultation with Council's Research and Analysis Division, it was felt that a resolution stating Council's position on items related to the Capital Agenda and its intent on how such issues would be handled in terms of future Council actions, would be an effective way to address this situation.

This resolution is being submitted for your consideration at Council's next formal session on Wednesday, March 5, 2003.

Respectfully submitted
MARCUS D. LOPER
Deputy Director

By Council Member Everett:

Whereas, Th Mayor submitted to the Detroit City Council the Proposed Capital Agenda for 2003-04 through 2007-08; and

Whereas, The City Council held its Charter-mandated public hearing on the Proposed Capital Agenda and received the recommendations of the City Planning Commission, Council's Research and Analysis Division and Fiscal Analysis Division on same; and

Whereas, On January 27, 2003 the City Council passed a resolution submitting recommended changes to the Capital Agenda to the City's Planning Director, as well as requesting responses to comments and questions relating to the document; and

Whereas, In accordance with the City Charter, the City's Planning Director was given 30 days from the date of the Council's request to respond to the recommended amendments, and the Planning Director did not respond within that period; and

Whereas, The City Council did not take action on the proposed Capital Agenda by March 1, and therefore the proposed Capital Agenda, according to the City Charter, is deem approved; and

Whereas, Notwithstanding the City Council's lack of formal action on the Proposed Capital Agenda, the body would like to convey to the City Administration its position on various aspects of the document and its intended review and actions related to such issues;

Now, Therefore, Be It Resolved, That the Detroit City Council hereby submits to the City Administration its position on the following items related to the Proposed Capital Agenda 2003-04 through 2007-08:

1. the Cable Communication Commission's capital program should not be implemented until there is adequate discussion and agreement by City Council;
2. regarding the Department of Public Works — Street Fund, new traffic signals acquired should include audible signals to assist sight-impaired citizens, especially in areas of a greater number of pedestrians such as downtown or the Wayne State University and Cultural Center areas;
3. capital improvements related to the Belle Isle Zoo should be implemented; and
4. capital projects related to the Public Lighting Department's Mistersky renovation and expansion of services should not be implemented pending a discussion at City Council;

And, Be It Further Resolved, That the Detroit City Council hereby expresses its intent to review and act on matters including contract authorizations, related to the above items in a manner consistent with this resolution;

And, Be It Finally Resolved, That the City Clerk's Office forward this resolution to the Mayor, and the Directors of the Budget Department, the Planning and

Development Department, the Cable Communications Commission, the Department of Public Works, the Zoological Institute, and the Public Lighting Department.

Re: Public Hearing on Request by Stearns Building, L.L.C., dba Lofts @ Rivertown for Establishment of the Stearns Building Neighborhood Enterprise Zone in Accordance with Public Act 147 of 1992.

In response to the above referenced request, the Planning & Development Department, in conjunction with the Finance Department, have reviewed the Master Plan and the neighborhood preservation and development goals of the City, and find that approval of the request would be consistent with the neighborhood preservation and development goals and with the Master Plan.

Public Act 147 of 1992, commonly referred to as the Neighborhood Enterprise Zone (NEZ) Act, in Section 3(1) states "the governing body of a local governmental unit by resolution may designate one (1) or more neighborhood enterprise zones." Prior to acting upon the resolution establishing an NEZ, a public hearing must be held, and the City Clerk must provide written notice of the public hearing to the assessor and to the governing body of each taxing unit that levies an ad valorem tax within the proposed NEZ, said notice to be made not less than 60 days prior to your Honorable Body's passage of a resolution designating an NEZ.

The generalized boundaries of the proposed NEZ are E. Lafayette on the North, E. Jefferson on the South, Bellevue on the East, and Beaufait on the West, the proposed NEZ area being more particularly described in the attached legal description. Stearns Building, L.P., intends to invest approximately \$11 million to renovate the Stearns building's 172 housing units, converting them from rental units to owner-occupied condominiums.

We request that a Public Hearing be

scheduled on the issue of establishing this NEZ, as required by the NEZ Act. Attached for your consideration please find a resolution establishing a date and time for the public hearing, together with a legal description of the proposed NEZ.

Respectfully submitted,

HENRY B. HAGOOD

Whereas, The Planning & Development Department and the Finance Department-Assessments Division, after a review of the Master Plan and the neighborhood preservation and economic development goals of the City, recommend that the area as generally described above and more particularly specified in the attached legal description, be designated a Neighborhood Enterprise Zone; and

Whereas, A Neighborhood Enterprise Zone may not be established without a public hearing first being held, with notice of such hearing provided to the general public and the City Assessor and to the governing body of each jurisdiction levying ad valorem taxes within the proposed NEZ.

Resolved, That a public hearing be held by the Detroit City Council in the Committee Room, 13th floor of the Coleman A. Young Municipal Center on the fifteenth (15th) day of May, 2003, at 11:00 a.m., regarding designation of the above described location as a Neighborhood Enterprise Zone, the legal description of the location being attached hereto; and be it further

Re: Correction of Legal Entity Development: 1003, 1017-19 St. Anne; 2713, 2722 Howard & 1019 18th St.

On November 27, 2002, (Legal News, December 9, 2002, Pg. 17), your Honorable Body authorized the sale of the above captioned property to Ste. Anne's Church, a Michigan Ecclesiastical Corporation for the purpose of developing the property as greenspace to prevent dumping and to enhance the area. The property will also be used by Ste. Anne's Church for outdoor programs.

It has come to our attention that the name of the legal entity was issued in error. Accordingly, the sale to Ste. Anne's Church, a Michigan Ecclesiastical Corporation, should be amended to show Adam J. Maida, Roman Catholic Archbishop of the Archdiocese of Detroit, as the buyer.

We, therefore request that your Honorable Body adopt the attached resolution authorizing an amendment to the sales resolution to reflect a name change in the purchaser from Ste. Anne's Church, a Michigan Ecclesiastical Corporation to Adam J. Maida, Roman Catholic Archbishop of the Archdiocese of Detroit.

Re: Petition No. 946 — Ms. W. Perry for installation of parking stops in berm at 13814 W. McNichols.

Petition No. 946 of "Ms. W. Perry" at 13814 West McNichols, request to install and maintain encroachments into a portion of the northerly right-of-way line of West McNichols Avenue, 66 feet wide, south of Benson Avenue, 60 feet wide. The encroachments are to consist of the installation of parking bumpers, in order to protect the building.

The petition was referred to the City Engineering Division — DPW for investigation and report. This is our report:

ARTICLE II. OBSTRUCTIONS AND ENCROACHMENTS — Section 50-2-1 through Section 50-2-37 Detroit Code allows The City Engineering Division — DPW to issue permits for encroachments into the public rights-of-way after receiving the approval of Detroit City Council. The City Council will only approve an encroachment after receiving a report and resolution from The City Engineering Division — DPW. The encroachment per-

mit gives you permission to occupy public rights-of-way until such time it is needed again by the City.

The Traffic Engineering Division — DPW reports no objections with the requested encroachments provided that the encroachment does not obstruct pedestrian traffic and does not interfere with official traffic control devices.

The Public Lighting Department (PLD) reports no objections to the proposed encroachments. However, the PLD requires a minimum horizontal clearance of 3'-6" and a vertical clearance of 1'-0" must be maintained from their facilities.

All other involved City departments and privately owned utility companies have reported no objections to the proposed encroachments. Where appropriate, provisions protecting utility installations are part of the resolution.

I am recommending adoption of the attached resolution.

Respectfully submitted,

Petition No. 939 of "Paul McClueu et al.", request for the conversion of a portion of the North-South open public alley, 18 feet wide, in the block bounded by Linwood Avenue, 86 feet wide, Fleet Avenue, 60 feet wide and Oakman

The request was approved by the Solid Waste Division — DPW, and the Traffic Engineering Division — DPW. The petition was referred to the City Engineering Division — DPW for investigation (utility review) and report. This is our report.

Honorable City Council:

Re: James M. Benjamin v City of Detroit, Public Works Department. File No.: 13760 (PSB).

We have reviewed the above-captioned lawsuit, the facts and particulars of which are set forth in a confidential attorney-client privileged memorandum that is being separately hand-delivered to each member of your Honorable Body. From this review, it is our considered opinion that a settlement in the amount of Sixty-Two Thousand Five Hundred Dollars (\$62,500.00) is in the best interest of the City of Detroit.

We, therefore, request authorization to settle this matter in the amount of Sixty-Two Thousand Five Hundred Dollars

(\$62,500.00) and that your Honorable Body authorize and direct the Finance Director to issue a draft in that amount payable to James M. Benjamin and his attorney Joy A. Turner, to be delivered upon receipt of properly executed Releases and Order of Dismissal in Workers Compensation Claim #13760, approved by the Law Department.

Honorable City Council:

Re: Gloria Gilchrist v City of Detroit, John Howard, Gregory Malone and Marcel McGhee. Case No. 01-133020 CZ.

On February 24, 2003, this matter was mediated for Twenty Thousand (\$20,000) Dollars in favor of Plaintiff Gloria Gilchrist against the City of Detroit. The parties have until March 24, 2003 to either accept or reject the mediation award. The failure to file a written acceptance or rejection within this period constitutes a rejection. If

all parties accept the mediation panel's evaluation, judgment will be entered in that amount, which includes all fees, costs, and interest to the date of judgment. If a party rejects the evaluation, the case proceeds to trial; however, the party rejecting evaluation must pay additional sanctions if the trial results are not favorable.

We have reviewed the above-captioned civil lawsuit, the facts and particulars of which are set forth in a confidential attorney-client privileged memorandum that is being separately hand-delivered to each member of your Honorable Body, From this review, it is our considered opinion that acceptance of the mediation evaluation in the amount of Twenty Thousand (\$20,000) Dollars is in the best interests of the City of Detroit. The acceptance of the mediation evaluation does not guarantee settlement of the matter in this amount since the plaintiff has the right to reject the award and proceed to trial. However, an eventual settlement of this matter in this amount is prudent.

We, therefore, request your Honorable Body to authorize acceptance of the mediation evaluation and direct the Finance Director to issue a draft in the amount of Twenty Thousand (\$20,000) Dollars payable to Gloria Gilchrist and O'Neal O. Wright, her attorney, to be delivered upon receipt of notice of mediation settlement and Order of Dismissal.

Honorable City Council:

Re: Address: 19250 W. McNichols. Name: Michael Dorra. Date ordered removed: October 9, 2002 (J.C.C. pg. 3090).

In response to the request for a deferral of the demolition order on the property noted above, we submit the following information:

A special inspection on February 17, 2003 revealed the building is secured and appears to be sound and repairable.

The owner has entered into an approved Tax Payment Plan to pay the current taxes due as of February 21, 2003.

The proposed use of the property is owner occupancy.

Therefore, it is recommended that the demolition order be deferred for a period of six (6) months subject to the following conditions:

1. The building shall be maintained securely barricaded until rehabilitation is complete. All relevant permits for rehabilitation work shall be obtained. Rehabilitation is to be complete within six (6) months, at which time the owner will obtain one of the following from this department:

- Certificate of Acceptance related to building permits
- Certificate of Approval as a result of a Housing Inspection
- Certificate of Inspection, required for all residential rental properties

2. The owner shall not occupy or allow occupancy of the structure without a certificate (as outlined in #1 above).

3. The yards shall be maintained clear of weeds, junk and debris at all times.

4. In accordance with Ordinance 290-H, as amended, this building may be deemed dangerous if: it remains unoccupied continuously for more than six months; it is not maintained according to the official Building and Property Maintenance Codes of the City; and it is not listed for sale, lease or rent, regardless of the timeliness of tax payments and regardless of whether building is secure.

At the end of the deferral period, the owner must contact this department to arrange an inspection to evidence that conditions of the deferral have been met or that substantial progress toward rehabilitation has been made. If the building becomes open to trespass or if conditions of the deferral are not complied with, we will proceed with demolition without further hearings. We recommend that utility disconnect actions cease to allow the progress of the rehabilitation.

Therefore, it is recommended that the demolition order be deferred for a period of three (3) months subject to the following conditions:

- Certificate of Inspection, required for all residential rental properties

2. The owner shall not occupy or allow occupancy of the structure without a certificate (as outlined in #1 above).

3. The yards shall be maintained clear of weeds, junk and debris at all times.

4. At the end of the deferral period, the owner must contact this department to arrange an inspection to evidence that conditions of the deferral have been met or that substantial progress toward rehabilitation has been made. If the building becomes open to trespass or if conditions of the deferral are not complied with, we will proceed with demolition without further hearings. We recommend that utility disconnect actions cease to allow the progress of the rehabilitation.

Re: Public Hearing on Request by Mrs. Rose Evans for Establishment of the St. Clair Neighborhood Enterprise Zone in Accordance with Public Act 147 of 1992.

In response to the above referenced request, the Planning & Development Department, in conjunction with the Finance Department, have reviewed the Master Plan and the neighborhood preservation and development goals of the City, and find that approval of the request would be consistent with the neighborhood preservation and development goals and with the Master Plan.

Public Act 147 of 1992, commonly referred to as the Neighborhood Enterprise Zone (NEZ) Act, in Section 3(1) states "the governing body of a local

governmental unit by resolution may designate one (1) or more neighborhood enterprise zones." Prior to acting upon the resolution establishing an NEZ, a public hearing must be held, and the City Clerk must provide written notice of the public hearing to the assessor and to the governing body of each taxing unit that levies an ad valorem tax within the proposed NEZ, said notice to be made not less than 60 days prior to your Honorable Body's passage of a resolution designating an NEZ.

The proposed NEZ is located on the East side of St. Clair Avenue and consists of thirteen lots along St. Clair running northward from the alley immediately North of East Jefferson. The Evans family proposes to demolish the family-owned house located at 1452-1454 St. Clair and to invest \$170,000 to construct a new house suitable for Mrs. Evans' 87 year old mother and one family member-caretaker.

We request that a Public Hearing be scheduled on the issue of establishing this NEZ, as required by the NEZ Act. Attached for your consideration please find a resolution establishing a date and time for the public hearing, together with a legal description of the proposed NEZ.

Respectfully submitted,

HENRY B. HAGOOD

Director of Development Activities
By Council Member Bates:

Whereas, Pursuant to Public Act No. 147 of the Public Acts of 1992 ("the Act") this City Council has the authority to establish "Neighborhood Enterprise Zones (NEZs)" within the boundaries of the City of Detroit; and

Whereas, Mrs. Rose Evans has applied for establishment of the "St. Clair" NEZ, within an area consisting of thirteen consecutive lots along the East side of St. Clair Avenue running northward beginning from the alley immediately North of East Jefferson, the boundaries of the proposed NEZ being more particularly described in Exhibit A attached hereto; and

Whereas, The Act requires that, prior to establishing an NEZ, the City Council shall provide an opportunity for a Public Hearing on such establishment, at which Public Hearing representatives of any taxing authority levying *ad valorem* taxes within the City, or any other resident or taxpayer of the City of Detroit may appear and be heard on the matter;

Now Therefore Be It

Resolved, That on the FIFTEENTH (15TH) DAY OF MAY, 2003, at 11:30 A.M. in the City Council Committee Room, 13th floor, Coleman A. Young Municipal Center, a Public Hearing be held on the above described application for establishment of an NEZ within the boundaries described above and more fully described in Exhibit A attached hereto; and be it finally

Resolved, That not sooner than April 1, 2003, the City Clerk shall give notice of the Public Hearing to the general public and shall give written notice of the Public Hearing by certified mail to all the taxing authorities levying an *ad valorem* tax within the City of Detroit.

Re: Petition No. 989 — Ammar Yeganeh, et al, for the conversion of alleys to easement in the area of Greenfield and Tireman.

Petition No. 989 of "Ammar Yeganeh et al", request for the conversion of the East-West and North-South open public alleys, 20 and 9 feet wide, all in the block bounded by Tireman Avenue, 60 feet wide, Chesapeake and Ohio Railroad and Greenfield Avenue, 106 feet wide into private easements for utilities.

The request was approved by the Solid Waste Division — DPW and the Traffic Engineering Division — DPW. The petition was referred to the City Engineering Division — DPW for investigation (utility review) and report. This is our report:

All other involved city departments and private utility companies have reported no objection to the conversion of public rights-of-way into private easements for

Law Department

February 24, 2003

Honorable City Council:

Re: Proposed Ordinances to Amend Chapter 22 and Chapter 35.5 of the 1984 Detroit City Code, Titled, Respectively, 'Handling of Solid

Waste and Prevention of Illegal Dumping' and 'Municipal Civil Infractions'.

On September 11, 2002, your Honorable Body passed two ordinances which revised Chapter 22 and Chapter 35.5 of the 1984 Detroit City Code to decriminalize violations of Chapter 22 and establish such offenses as municipal civil infractions, and to create the Environmental Enforcement Branch of the Municipal Ordinance Violations Bureau. Those ordinances became effective on September 27, 2002. As a result of discussions with police officers and inspectors initiated by Council Member Kay Everett and also raised with the Law Department by Council President Pro Tem. Kenneth V. Cockrel, Jr., there is a need to amend Chapter 22 to expressly permit the Police Department to impound vehicles used in connection with illegal dumping. Further, after enactment of the ordinances, a decision was made to set specific fines for each violation of Chapter 22. This decision necessitates amending both Chapter 22 and Chapter 35.5.

The amendments that are contained in the proposed ordinances accomplish both of the above-stated goals. With respect to the technical corrections, the ordinances serve two purposes. First, in accordance with Section 9-505 of the 1997 Detroit City Charter, the proposed ordinances identify the specific fine amounts associated with each of the violations in Chapter 22 rather than simply providing "not to exceed" fine amounts as was enacted in the original ordinances. For ease of City Council's review, a chart is attached to this letter identifying the specific fine amount associated with each violation of Chapter 22.

Second, the ordinance which amended Chapter 22 and became effective on September 27, 2002 designated a violation for a private solid waste collector to operate without the required City license as a municipal civil infraction. This conduct was never intended to be decriminalized. Therefore, the proposed ordinance to amend Chapter 22 reinstates the misdemeanor penalty of five hundred dollars (\$500.00) and a maximum of ninety (90) days in jail for private collectors who operate without the requisite City license.

To address the concerns raised by Council Members Everett and Cockrel, Jr., the proposed ordinances authorize certain additional penalties that were not expressly delineated within the ordinances passed on September 11, 2002. Most notably, these additional penalties require a violator to pay the necessary removal and remediation costs associated with the violation as well as to reimburse the City for the fees associated with the impoundment and storage of any vehicle used in violation of Chapter 22.

The Law Department and the Department of Environmental Affairs are proposing the amendments to enhance and improve the illegal dumping provisions of Chapter 22. In order to permit Chapter 22 to be fully implemented by the City and enforced by the Courts in the most timely manner, it is respectfully requested that your Honorable Body introduce both of the proposed ordinances and set the required public hearings as soon as possible.

Thank you for your prompt attention and thoughtful consideration of these matters. We are available to respond to any questions that your Honorable Body may have concerning the proposed ordinances.

Respectfully submitted,
 BRENDA E. BRACEFUL
 Deputy Corporation Counsel

Law Department

February 24, 2003

Honorable City Council:

Re: Proposed Ordinances to Amend Chapter 22 and Chapter 35.5 of the 1984 Detroit City Code, Titled, Respectively, 'Handling of Solid Waste and Prevention of Illegal Dumping' and 'Municipal Civil Infractions'.

On September 11, 2002, your Honorable Body passed two ordinances which revised Chapter 22 and Chapter 35.5 of the 1984 Detroit City Code to decriminalize violations of Chapter 22 and establish such offenses as municipal civil infractions, and to create the Environmental Enforcement Branch of the Municipal Ordinance Violations Bureau. Those ordinances became effective on September 27, 2002. As a result of discussions with police officers and inspectors initiated by Council Member Kay Everett and also raised with the Law Department by Council President Pro Tem. Kenneth V. Cockrel, Jr., there is a need to amend Chapter 22 to expressly permit the Police Department to impound vehicles used in connection with illegal dumping. Further, after enactment of the ordinances, a decision was made to set specific fines for each violation of Chapter 22. This decision necessitates amending both Chapter 22 and Chapter 35.5.

The amendments that are contained in the proposed ordinances accomplish both of the above-stated goals. With respect to the technical corrections, the ordinances

serve two purposes. First, in accordance with Section 9-505 of the 1997 Detroit City Charter, the proposed ordinances identify the specific fine amounts associated with each of the violations in Chapter 22 rather than simply providing "not to exceed" fine amounts as was enacted in the original ordinances. For ease of City Council's review, a chart is attached to this letter identifying the specific fine amount associated with each violation of Chapter 22.

Second, the ordinance which amended Chapter 22 and became effective on September 27, 2002 designated a violation for a private solid waste collector to operate without the required City license as a municipal civil infraction. This conduct was never intended to be decriminalized. Therefore, the proposed ordinance to amend Chapter 22 reinstates the misdemeanor penalty of five hundred dollars (\$500.00) and a maximum of ninety (90) days in jail for private collectors who operate without the requisite City license.

To address the concerns raised by Council Members Everett and Cockrel, Jr., the proposed ordinances authorize certain additional penalties that were not expressly delineated within the ordinances passed on September 11, 2002. Most notably, these additional penalties require a violator to pay the necessary removal and remediation costs associated with the violation as well as to reimburse the City for the fees associated with the impoundment and storage of any vehicle used in violation of Chapter 22.

The Law Department and the Department of Environmental Affairs are proposing the amendments to enhance and improve the illegal dumping provisions of Chapter 22. In order to permit Chapter 22 to be fully implemented by the City and enforced by the Courts in the most timely manner, it is respectfully requested that your Honorable Body introduce both of the proposed ordinances and set the required public hearings as soon as possible.

Thank you for your prompt attention and thoughtful consideration of these matters. We are available to respond to any questions that your Honorable Body may have concerning the proposed ordinances.

Respectfully submitted,
BRENDA E. BRACEFUL

**COUNCIL MEMBER KAY EVERETT
STATEMENT OPPOSING THE
RENAMING OF DETROIT CITY
AIRPORT AS THE COLEMAN A.
YOUNG MUNICIPAL AIRPORT**

On March 19, 2003 this Honorable Body was requested to vote on the proposed ordinance to amend Chapter 4 of the 1984 Detroit City Code Title "Aircraft and aviation," by adding Section 4-1-10 to provide for renaming Detroit City Airport

as the Coleman A. Young Municipal Airport.

I have the utmost respect and hold Former Mayor Coleman A. Young is high esteem. Mayor Young was a great leader, a man of courage and dignity. A few years ago, I had the privilege of serving on a committee of which it was suggested to rename the City-County Building to the Coleman A. Young Municipal Center. That committee deliberated for a long time to devise a method of how to properly honor a man of Coleman A. Young status.

It was mentioned that the airport would be receiving federal funding for renovations. I find that difficult to believe considering the economic downturn this country is currently faced. The Detroit City Airport has been faced with many challenges since the departure of commercial airlines such as Southwest Airline and Pro Air Airline. The airport is in need of major renovations. Additionally, the airport lacks the appropriate runway path mandated by the Federal Aviation Administration for commercial flight usage.

Former Mayor Coleman A. Young is noteworthy of having a facility renamed after him, but to rename a facility that is substandard to other airports across this country does an injustice to Former Mayor Coleman A. Young. I think it is very disheartening that Coleman A. Young's name is associated with a facility that potentially may be abandoned within a few years.

Therefore, I am in opposition of the renaming of Detroit City Airport as Coleman A. Young Municipal Airport.

I have too much respect and integrity for Mayor Young to memorialize him negatively via renaming the Detroit City Airport. **This was not a political issue, but an issue of integrity.**

Taken From The Table

Council Member Everett moved to take from the table an ordinance to amend Chapter 61 by Amending Article XV, District Map No. 7 and District Map No. 8 to show SD2 (Special Development District-Commercial/Residential), B4 (General Business District) and M1 (Limited Industrial District) Zoning Classifications where R2 (Two-Family Residential District), R5 (Medium Density Residential District), B4 (General Business District), B5 (Major Business District), B6 (General Services District) and M3 (General Industrial District) Zoning Classifications are presently shown on property generally bounded by the CN/Conrail Railroad, John R Street, the Ford Freeway (I-94), and the Lodge Freeway (M-10),

Laid on the table January 29, 2003 (J.C.C. p.), which motion prevailed.

The Ordinance was then placed on the order of third reading.

THIRD READING OF ORDINANCE.

The title to the ordinance was read a third time.

The Ordinance was then read.

The question being "Shall this Ordinance Now Pass?"

The Ordinance was passed, a majority of the Council members present voting therefore as follows:

Yeas — Council Members Bates, K. Cockrel, Jr., S. Cockrel, Collins, Everett, Tinsley-Talabi, and President Mahaffey — 7.

Nays — Council Member McPhail — 1. Title to the Ordinance was confirmed.

**COMMUNICATIONS
Finance Department**

February 28, 2003

Honorable City Council:

Re: FY 2002-2003 Budget Amendment.

In November 2002 the Finance Department presented the results of an assessment that had been performed on the Detroit Resource Management System (DRMS). That assessment concluded that the City should, tactically, upgrade to Oracle Ili Financials, implement Oracle Fixed Assets and purchase additional servers.

On November 26, 2002 your Honorable Body approved a Compuware contract to perform the upgrade and implementation with the understanding that the funds used for this contract were temporarily taken from the DRMS Project budget until another funding source could be identified.

It is forecasted that the City of Detroit will receive revenues from the Tax Increment Financing Authority in excess of that which is currently budgeted. This revenue will be sufficient to replace the DRMS Project dollars and purchase the required servers. Failure to replace the funds in the DRMS budget will mean that the project will be unable to continue to function. We therefore request that the 2002-2003 budget be amended as follows:

- Increase estimated revenue in Non-Departmental for TIFA revenues in the amount of \$3,500,000.
- Increase appropriations in Non-Departmental for DRMS expenditures in the amount of \$3,500,000.

Respectfully submitted,

Increase Appropriation No. 35-00995 DRMS by \$3,500,000; and be it further

Resolved, That the Finance Director be

Honorable City Council:

Re: Franchise Agreement Amendment and Ordinance Amendment Extending the Expiration Date of the Comcast Cable Franchise to June 30, 2003.

Despite the best efforts of the City's and Comcast Cablevision of Detroit's ("Comcast") representatives, the negotiations for the renewal of the cable franchise have not been concluded. Although the negotiations should be completed shortly, the current expiration date, March 30, 2003, does not allow sufficient time for review and approval of the draft document by either the Detroit Cable Communications Commission ("Commission") or your Honorable Body.

For that reason, on March 11, 2003, the Commission adopted a resolution urging favorable action by your Honorable Body on an amendment to the Franchise Agreement and to Section 9.5-3-5 of the 1984 Detroit City Code, extending the term of the cable franchise to June 30, 2003.

On file in the City Clerk's office for your consideration and approval is 1) an executed copy of an amendment to the Franchise Agreement, extending its expiration date to June 30, 2003; 2) a Resolution approving that amendment; and 3) an amendment to Section 9.5-3-5 of the 1984 Detroit City Code.

As you are aware, these amendments require final action by your Honorable

Body, with waiver of reconsideration, before March 30, 2003. We respectfully request that the ordinance be introduced and set for public hearing at your next Formal Session, and that the Franchise Agreement Amendment be approved at the same session as the ordinance amendment.

We are available to answer any questions that you may have concerning this proposed ordinance. Thank you for your attention to this matter.

Honorable City Council:

Re: Public Hearing on Establishment of the Lower Far East Side Neighborhood Enterprise Zone in Accordance with Public Act 147 of 1992.

The Planning & Development Department and the Finance Department have reviewed the Master Plan and the neighborhood preservation and development goals of the City, and find that establishment of the Lower Far East Side Neighborhood Enterprise Zone would be consistent with the neighborhood preservation and development goals and with the Master Plan.

Public Act 147 of 1992, commonly referred to as the Neighborhood Enterprise Zone (NEZ) Act, in Section 3(1) states "the governing body of a local governmental unit by resolution may designate one (1) or more neighborhood enterprise zones." Prior to acting upon the resolution establishing an NEZ, a public hearing must be held, and the City Clerk must provide written notice of the public hearing to the assessor and to the governing body of each taxing unit that levies an *ad valorem* tax within the proposed NEZ, said notice to be made not less than 60 days prior to your Honorable Body's passage of a resolution designating an NEZ.

The boundaries of the proposed NEZ are very irregular but may be generally described as Canfield on the North, E. Jefferson on the South, Newport on the East, and Dickerson on the West, the proposed NEZ area being shown as areas A, B, C, D, and F on the attached map and being more particularly described in the attached legal description. The City of Detroit will use the NEZ designation to encourage the development of a variety of new and rehabilitated housing units in the area.

We request that a Public Hearing be scheduled on the issue of establishing this NEZ, as required by the NEZ Act. Attached for your consideration please find a resolution establishing a date and time for the public hearing, together with a map and legal description of the proposed NEZ.

Respectfully submitted,
HENRY B. HAGOOD
Director of Development Activities
By Council Member McPhail:

Whereas, Pursuant to Public Act No. 147 of the Public Acts of 1992 ("the Act") this City Council has the authority to

establish "Neighborhood Enterprise Zones (NEZs)" within the boundaries of the City of Detroit; and

Whereas, The Planning & Development Department of the City of Detroit has requested establishment of the "Lower Far East Side" NEZ whose boundaries are very irregular but which may generally be described as E. Canfield on the North, E. Jefferson on the South, Newport on the East, and Dickerson on the West, the boundaries of the proposed NEZ being more particularly described in Exhibit A attached hereto and the proposed NEZ being shown on the attached map as areas A, B, C, D, and F; and

Whereas, The Act requires that, prior to establishing an NEZ, the City Council shall provide an opportunity for a Public Hearing on such establishment, at which Public Hearing representatives of any taxing authority levying *ad valorem* taxes within the City, or any other resident or taxpayer of the City of Detroit may appear and be heard on the matter;

Now Therefore Be It

Resolved, That on the **16th day of May 2003, at 10:30 a.m.** in the City Council Committee Room, 13th floor, Coleman A. Young Municipal Center, a Public Hearing be held on the above described application for establishment of an NEZ within the boundaries as generally described above and more fully described in the map attached hereto as Areas, A, B, C, D, and F, and in Exhibit A (the legal description) attached hereto; And Be It Finally

Resolved, That the City Clerk shall give notice of the Public Hearing to the general public and shall give written notice of the Public Hearing by certified mail to all the taxing authorities levying an *ad valorem* tax within the City of Detroit, such notices to be provided no earlier than **April 2, 2003.**

Honorable City Council:

Re: A resolution to amend the Detroit Master Plan of Policies in the area generally bounded by Gratiot Avenue, Russell Street, and Antietam Street to promote new residential, commercial, and institutional uses (Revised Master Plan Change #39).

Attached for your consideration and action is a proposed Amendment to the Detroit Master Plan of Policies for the area generally bounded by Gratiot Avenue on the north, Antietam Street on the west and south, and Russell and Orleans Streets on the east. Adoption by your Honorable Body of this resolution would accommodate changes in the Master Plan of Policies that would allow the renovation of functionally obsolete buildings in order to take advantage of new residential, commercial, and institutional opportunities. The proposed Amendment is being requested by the Planning & Development Department (P&DD) in response to a petition by a private party for the establishment of an Obsolete Property Rehabilitation District at the former Leland School building at 1395 Antietam.

The subject area to be changed, which covers approximately 13 acres, is shown on the Master Plan of Policies Maps 303-9B and 303-10B, Middle East Central Subsector and Lower East Central Subsector, East Central Sector "recommended Future Land Use Map". It is recommended that the proposed future land use in the Master Plan of Policies be changed from "LT IND", Light Industrial to "SRC/LT IND", Special Residential-

Commercial/Light Industrial for the portion of the subject area bounded by Gratiot, Russell, and Antietam. In addition, it is recommended that the western boundary of the "SRC" designated frontage along Gratiot be extended from Orleans to Russell and into an area that is currently designated as "INST", Institutional/Civic/Public Use. Also proposed to be changed is the attached East Central Sector "Generalized Rezoning Concept" map. On this map, the portion of the subject area bounded by Gratiot, Russell, and Antietam is recommended to be changed from an M3 (General Industrial District) zoning classification to an SD1/M1 (Special Development, residential with limited commercial/Limited Industrial District) zoning classification.

The Planning & Development Department is requesting that the proposed Master Plan Amendment be adopted to take advantage of new opportunities for residential/commercial mixed-use and institutional development in a near downtown neighborhood that is ripe for redevelopment. There are a number of functionally obsolete buildings that can either be converted into residential lofts, such as the former Leland School, or renovated for institutional or commercial uses. The other functionally obsolete buildings that also have potential for renovation and/or conversion are located primarily along Gratiot. Most of these buildings formerly held commercial enterprises on the first floor, and are suitable for loft development in the upper floors. The Gratiot buildings offer significant opportunities, as they are along a major radial thoroughfare near downtown and are just south of Eastern Market, an area where loft conversion is well underway.

In regards to the Melody Farms Ice Cream plant, it has expanded over the years and may well remain for the foreseeable future. Nevertheless, the plant is located in an isolated area not conducive to intensive industrial uses. Proper buffering should be employed to protect the non-industrial uses surrounding the plant. The proposed Amendment would accommodate the existing ice cream plant should it remain in its current location, and would also encourage new mixed-use opportunities envisioned for the future.

In summary, the Planning & Development Department believes that the proposed Amendment to the Master Plan of Policies would allow the City to take advantage of new residential, commercial, and institutional opportunities along a major radial thoroughfare by facilitating the renovation and/or conversion of functionally obsolete buildings. Therefore, it is our recommendation that the proposed future land use for the subject area be changed to "SRC/LT IND", Special Residential-Commercial/Light Industrial in

the area bounded by Gratiot, Russell, and Antietam, and to "SRC", Special Residential-Commercial along the Gratiot frontage east of Russell.

**RESOLUTION IN OPPOSITION
TO MICHIGAN HOUSE AND SENATE
LEGISLATION TO
UNCONSTITUTIONALLY DEPRIVE
DETROIT CITIZENS OF OWNERSHIP
OF THE DETROIT WATER AND
SEWERAGE DEPARTMENT**

WHEREAS, The Detroit Water and Sewerage System has continually been managed by the Board of Water Commissioners since they were constituted in 1853; and

WHEREAS, Dating back to the late 19th century, the citizens of the City of Detroit have paid to create a water and sewerage system; and

WHEREAS, At the beginning of the 20th Century, surrounding suburban communities elected to purchase water and sewerage services from Detroit instead of constructing and operating their own independent systems at financially unfeasible costs; and

WHEREAS, Many Detroit Water and Sewerage Department facilities that service suburban customers today were built and paid for solely by the residents of Detroit even before suburban customers received any services from those facilities; and

WHEREAS, The 1918, 1974 and 1997 Charters of the City of Detroit provide that the control, sale, transfer or disposal of the Detroit Water and Sewerage Department (DWSD) assets is clearly a matter for the voters of Detroit to decide; and

WHEREAS, Local control and Home Rule principles are codified in the State Constitution and the Home Rule Cities Act of 1909, granting the citizens in municipalities, townships and villages the power and authority to determine the form and manner in which local government is to operate and utilize locally owned assets; and for the City of Detroit, a Home Rule City, the Detroit Water and Sewerage Department is its greatest asset; and

WHEREAS, The City of Detroit is the legal owner of the property of the Detroit Water and Sewerage Department; and

WHEREAS, The Detroit City Charters of 1918, 1974 and 1997 establish the Water and Sewerage Department and provide for the administration of that Department by a seven member Board of Water Commissioners and provides for the manner in which Board membership is to be determined; and

WHEREAS, Detroit is unaware of claims by suburban customers of DTE, Comcast Cable, SBC, or any other utility that they should be entitled to an ownership and management stake in the utility solely by virtue of their status as customers; and

WHEREAS, The Detroit City Council is unanimous in its view that any House or Senate Bill or approved legislation that purports to alter the management, ownership or operations of the Detroit Water and Sewerage Department is a proposal for, or upon adoption of such legislation, constitutes a taking of City property for which full and fair compensation must be paid. NOW, THEREFORE, BE IT

RESOLVED, That the Detroit City Council unanimously opposes the action taken March 18, 2003 to approve legislation (Senate enrolled bill SB0195 and HB420/House Substitute 2) to create a regional commission for the sole purpose to wrest control and operations of the Detroit Water and Sewerage Department from the City of Detroit and the citizens of Detroit, the rightful owners; and that such action constitutes a taking of the City's multi-billion dollar assets without full and fair compensation, in violation of the Michigan Constitution; and BE IT ALSO

RESOLVED, That the Detroit City Council urges the Honorable Jennifer Granholm to veto this legislation; AND BE IT FINALLY

RESOLVED, That a copy of this resolution be sent to Governor Jennifer Granholm, the leadership of the Republicans and the Democrats in the State House and the State Senate, the Detroit Delegations in the State House and State Senate, Marge Malarney, Mayor Kwame M. March 13, 2003

Honorable City Council:

Re: Address: 8083 Homer, Name: Marisela Garcia, Date ordered removed: November 7, 2001 (J.C.C. p. 3404)

In response to the request for a deferral of the demolition order on the property noted above, we submit the following information:

A special inspection on March 4, 2003 revealed the building is secured and appears to be sound and repairable.

The owner is exempt from the current taxes due.

The proposed use of the property is owner occupancy.

Therefore, it is recommended that the demolition order be deferred for a period of three months subject to the following conditions:

1. The building shall be maintained securely barricaded until rehabilitation is complete. All relevant permits for rehabilitation work shall be obtained. Rehabilitation is to be complete within six months, at which time the owner will obtain one of the following from this department:

- Certificate of Acceptance related to building permits
- Certificate of Approval as a result of a Housing Inspection
- Certificate of Inspection, required for all residential rental properties.

2. The owner shall not occupy or allow occupancy of the structure without a certificate (as outlined in #1 above).

3. The yards shall be maintained clear of weeds, junk and debris at all times.

4. In accordance with Ordinance 290-H, as amended, this building may be deemed dangerous if: it remains unoccupied continuously for more than six months; it is not maintained according to the official Building and Property Maintenance Codes of the City and it is not listed for sale, lease or rent, regardless of the timeliness of tax payments and regardless of whether building is secure.

At the end of the deferral period, the owner must contact this department to arrange an inspection to evidence that conditions of the deferral have been met or that substantial progress toward rehabilitation has been made. If the building becomes open to trespass or if conditions of the deferral are not complied with, we will proceed with demolition, without further hearings. We recommend that utility disconnect actions cease to allow the progress of the rehabilitation.

Re: Address: 8894 Asbury Park. Name: John Koenrmen for Washington Mutual Bank. Date ordered removed: October 23, 2002 (J.C.C. p. 3272).

In response to the request for a deferral of the demolition order on the property noted above, we submit the following information:

A special inspection on February 28, 2003 revealed the building is secured and appears to be sound and repairable.

The owner has paid the current taxes due as of February 25, 2003.

The proposed use of the property is owner occupancy.

Therefore, it is recommended that the demolition order be deferred for a period of three (3) months subject to the following conditions:

1. The building shall be maintained securely barricaded until rehabilitation is complete. All relevant permits for rehabilitation work shall be obtained. Rehabilitation is to be complete within six (6) months, at which time the owner will obtain one of the following from this department:

- Certificate of Acceptance related to building permits
- Certificate of Approval as a result of a Housing Inspection
- Certificate of Inspection, required for all residential rental properties.

2. The owner shall not occupy or allow occupancy of the structure without a certificate (as outlined in #1 above).

3. The yards shall be maintained clear of weeds, junk and debris at all times.

4. In accordance with Ordinance 290-H, as amended, this building may be deemed dangerous if: it remains unoccupied continuously for more than six months; it is not maintained according to the official Building and Property Maintenance Codes of the City; and it is not listed for sale, lease or rent, regardless of the timeliness of tax payments and regardless of whether building is secure.

At the end of the deferral period, the owner must contact this department to arrange an inspection to evidence that conditions of the deferral have been met or that substantial progress toward rehabilitation has been made. If the building becomes open to trespass or if conditions of the deferral are not complied with, we will proceed with demolition without further hearings. We recommend that utility disconnect actions cease to allow the progress of the rehabilitation.

March 21, 2003

Honorable City Council:

Re: Federal Reserve Bank of Chicago —
Building Project: Waterline Reloca-
tion Project Plan.

The City of Detroit (the "City") and the Federal Reserve Bank of Chicago (the "Bank") entered into an Agreement (the "City/Bank Agreement") in which the Bank has acquired property from the City for the purpose of developing and constructing a new Bank facility (the "Building Project") that will serve as a local center for the distribution of cash and processing of checks. The Building Project requires the relocation of a 48-inch waterline, which is property of the Detroit Water & Sewerage Department (DWSD) currently located in a vacated easement.

To expedite the Bank project, the City and Bank have requested that, through a Funding Agreement with the Bank, the Detroit Economic Growth Corporation (the "DEGC") will undertake and complete the relocation of the water line. A provision of the Funding Agreement allows the DEGC to assign the Funding Agreement and all the DEGC's interests and duties under the Funding Agreement to the Economic Development Corporation of the City of Detroit (the "EDC").

On December 11, 2002, pursuant to Act 338, Public Acts of Michigan, 1974 as amended ("Act 338"), the Board of Directors of the EDC adopted Resolution EDC 02-11-50-01 (attached here as Exhibit A) requesting the City Council to designate the Project District Area and Project Area for the Building Project. Moreover, pursuant to Section 4(2) and 4(3) of Act 338, the EDC has requested the Mayor to appoint two additional Directors to the EDC Board who shall serve for the duration of the Building Project and who will be representative of the neighborhood residents and/or business interests likely to be affected by the Building Project. Subsequently, on February 26, 2003, your Honorable Body adopted a resolution establishing the Project District Area and the Project Area, and confirmed the Mayor's appointment of two additional directors to the EDC Board.

Pursuant to Act 338, the EDC has prepared a Project Plan which sets forth the requisite information including but not limited to the location of the proposed Project, the description of the existing and proposed site improvements, the estimated time of completion and the proposed method of financing. The Project Plan was

approved by the EDC Board of Directors on March 19, 2003. A copy of the Plan and the EDC resolution approving the Plan are submitted to your Honorable Body (Exhibit A) for review and consideration and respectfully requests the following subsequent actions:

March 10, 2003

Honorable City Council:

Re: Establishment of the Leland Lofts Neighborhood Enterprise Zone.

Attached for your consideration please find a resolution and legal description which will establish the Leland Lofts Neighborhood Enterprise Zone (NEZ) in accordance with Public Act 147 of 1992. Such establishment has been requested by Cass Avenue Development.

Your Honorable Body conducted a public hearing on this matter on January 31st at which you were notified that establishment of the NEZ would require an amendment to the Master Plan due to the fact that parts of the proposed NEZ were designated in the Master Plan as industrial.

It is our understanding that City Planning Commission has conducted a public hearing on the amendment of the Master Plan and is in the process of furnishing you with a report recommending that you approve the amendment.

A resolution formally amending the Master Plan is being provided to you by this Department's Planning Division. Because the attached resolution contains certification that the establishment of the NEZ conforms to the Master Plan, please approve the resolution concurrent with, or subsequent to, your approval of the Master Plan amendment.

Respectfully submitted,

HENRY B. HAGOOD

Director of Development Activities

By Council Member Collins:

Whereas, Michigan Public Act 147 of 1992, the Neighborhood Enterprise Zone Act ("the Act"), provides for the establishment of Neighborhood Enterprise Zones (NEZs), the exemption from ad valorem taxes, and the imposition of a specific

property tax in lieu of ad valorem real property taxes within NEZs; and

Whereas, The City of Detroit meets all the distress criteria set forth within the Act; and

Whereas, The Detroit City Council finds that designation of certain areas as NEZs is consistent with the adopted Master Plan, as amended, and will further the economic and physical development goals and objectives of the City by encouraging new housing starts and housing rehabilitation, thereby aiding in the preservation of existing neighborhoods and preventing further decay in others; and

Whereas, The Detroit City Council has found the proposed Leland Lofts NEZ to be consistent with the Detroit Master Plan of Policies and the neighborhood preservation and development goals of the City; and

Whereas, The Detroit City Council has adopted a statement of goals, objectives and policies relative to the maintenance, preservation, improvement, and development of housing for all persons regardless of income level living within proposed NEZs; and

Whereas, The Detroit City Council has enacted a housing inspection ordinance requiring that before the sale of a unit in a new or rehabilitated facility for which an NEZ Certificate is in effect, an inspection is to be made of the unit to determine compliance with Chapter 26 of the Code of the City of Detroit; and

Whereas, The Act requires that the designation of NEZs must be approved by a resolution adopted by the local governmental unit subsequent to a public hearing at which any taxpayer or resident, or representative of any taxing authority levying a property tax in the City of Detroit, was given the opportunity to address the requested establishment of an NEZ; and

Whereas, A public hearing was conducted before the Detroit City Council on January 31, 2003, with notice of the public hearing having been given on to the general public and by certified mail to every taxing authority levying a property tax with the City of Detroit; and

Whereas, No Impediments to the establishment of the Leland Lofts NEZ are known;

Now Therefore Be It

Resolved, That the land area particular-ly described in the legal description

attached hereto, is hereby approved as the Leland Lofts NEZ pursuant to Public Act 147 of 1992, the Neighborhood Enterprise Zone Act.

Law Department

March 14, 2003

Honorable City Council:

Re: Franchise Agreement Amendment and Ordinance Amendment Extending the Expiration Date of the Comcast Cable Franchise to June 30, 2003.

Despite the best efforts of the City's and Comcast Cablevision of Detroit's ("Comcast") representatives, the negotiations for the renewal of the cable franchise have not been concluded. Although the negotiations should be completed shortly, the current expiration date, March 30, 2003, does not allow sufficient time for review and approval of the draft document by either the Detroit Cable Communications Commission ("Commission") or your Honorable Body.

For that reason, on March 11, 2003, the Commission adopted a resolution urging favorable action by your Honorable Body on an amendment to the Franchise Agreement and to Section 9.5-3-5 of the 1984 Detroit City Code, extending the term of the cable franchise to June 30, 2003.

Attached for your consideration and approval is 1) an executed copy of an amendment to the Franchise Agreement, extending its expiration date to June 30, 2003; 2) a Resolution approving that amendment; and 3) an amendment to Section 9.5-3-5 of the 1984 Detroit City Code.

As you are aware, these amendments require final action by your Honorable Body, with waiver of reconsideration, before March 30, 2003. We respectfully request that the ordinance be introduced and set for public hearing at your next Formal Session, and that the Franchise Agreement Amendment be approved at the same session as the ordinance amendment.

We are available to answer any questions that you may have concerning this proposed ordinance. Thank you for your attention to this matter.

Respectfully submitted,
BRENDA E. BRACEFUL
Deputy Corporation Counsel

By Council Member Everett:

Whereas, The City of Detroit and its Cable Communications Commission (the "Commission") through their representatives have almost completed successful negotiation of a renewal franchise agreement with Comcast Cablevision of Detroit, Inc. ("Comcast"); and

Whereas, Comcast's franchise grant from the City expires on March 30, 2003 at 11:59 p.m.; and

Whereas, The City's representatives and Comcast have used their best efforts to complete the proposed franchise renewal negotiation so as to allow adequate time for review of the document by the Cable Commission, the Mayor, City Council, City Council's Research and Analysis Division and their staff prior to the March, 2003, expiration time; and

Whereas, despite such best efforts, the negotiations have not yet been completed; and

Whereas, It is in the best interests of the City to provide sufficient time for completion of the negotiation as well as review of the proposed franchise renewal by the Cable Commission, the Mayor, City Council, City Council's Research and Analysis Division and their staff; and

Whereas, In order to provide adequate opportunity for completion and appropriate review, a brief extension of the existing cable franchise is necessary pursuant to the attached Agreement with Comcast so that the franchise grant shall expire on June 30, 2003; and

Whereas, At its March 11, 2003 meeting, the Commission approved a recommendation to the City Council for an extension of the franchise agreement to June 30, 2003; and

Whereas, Section 9.5-3-5 of the Detroit City Code is being amended to extend the term of the non-exclusive cable television franchise granted to Comcast Cablevision of Detroit, Inc. to June 30, 2003; and

Whereas, The Detroit City Council approval of the attached Agreement extending the term of the non-exclusive cable franchise granted to Comcast Cablevision of Detroit, Inc., is subject to approval of the ordinance amendment; and

Whereas, The Detroit City Council finds that the extension agreement is in the best interest of the City of Detroit;

Now, Therefore, Be It Resolved, That the Detroit City Council approves the attached Agreement extending the term of the non-exclusive cable television franchise grant to Comcast Cablevision of Detroit, Inc. to June 30, 2003, subject to approval of the ordinance amendment; and

Be It Finally Resolved, That this Resolution is approved with Waiver of Reconsideration.

COMCAST CABLE FRANCHISE EXTENSION AGREEMENT

1. The City of Detroit ("City") granted Barden Cablevision of Detroit, Inc., the predecessor of Comcast Cablevision of Detroit, Inc. ("Comcast") a non-exclusive cable television franchise pursuant to Section 9.5-3-1 *et seq.*, of the 1984 Detroit City Code, as amended, ("Franchise Ordinance") which franchise grant is due to expire on March 30, 2003 ("Franchise").

2. The City and Comcast agree to extend Comcast's existing Franchise so that it shall expire on June 30, 2003 at 11:59 p.m.

3. Comcast and the City agree that neither party shall be deemed to have waived any of its rights under Section 626 of the Federal Cable Act (47 U.S.C. 546) as a result of agreeing to extend the Franchise, and that this extension shall not be deemed to constitute an approval by the City of the renewal of the Franchise or approval of any proposal previously submitted by Comcast, if any.

4. This extension is intended to provide an adequate period of time for review of the proposed Franchise renewal document by the Detroit City Council and its agencies.

5. The execution, delivery and performance of this Agreement by Comcast and the City has been duly authorized by all necessary action, including, for the City, adoption of an amendment to 1984 Detroit City Code Section 9.5-3-5 extending the expiration date of the Franchise to June 30, 2003.

6. This Agreement shall be deemed effective as of March 30, 2003.

This Agreement has been signed by the duly authorized undersigned representatives of Comcast and the City, respectively, and constitutes the legal, valid, and binding obligation of Comcast, its successors and assigns, and the City, enforceable in accordance with its terms.

City Planning Commission

March 18, 2003

Honorable City Council:

Re: Request of the Plymouth Educational Center, Inc. to purchase City-owned urban renewal property in the Forest Park Rehabilitation Project Development Area and to receive PD (Planned Development District) site plan approval in order to develop landscaped/recreational space (RECOMMEND APPROVAL WITH CONDITIONS).

The Planning & Development Department (P&DD) has received a request from the Plymouth Educational Center to purchase urban renewal property referred to as Parcel #18 in the Forest Park Rehabilitation Project Development Area and develop a landscaped/recreational space to enhance the school's property.

BACKGROUND AND PROPOSAL

The subject parcel is located at the southeast corner of the intersection of Russell Street and Forest Avenue (please see Attachment A for a map of the site). The parcel, which is L-shaped, vacant, and contains about 1.5 acres, has been used as a makeshift parking lot for the adjacent juvenile court. The entire parcel is zoned PD and is, therefore, subject to site plan and proposal review by the City Council.

The Plymouth Educational Center, which is located just east of the subject parcel, is proposing to develop the property with two tennis courts along Russell Street, walking paths, and landscaped green space (the site plan is attached for reference). The school had considered including one or two basketball courts, but has since decided to eliminate this use. The site plan shows no fencing around the site, except for a ten-foot high chain link fence, which would surround the two tennis courts.

CITY PLANNING COMMISSION DISCUSSION RESULTS AND FOLLOW-UP

On August 1, 2002, the City Planning Commission (CPC) held a discussion on the land sale. The Commissioners and applicant discussed whether the site would be fenced and whether the recreational facilities would be available to the residents living in the area. Also, the shortage of parking spaces for the school, particularly when children are dropped off and picked up, was reviewed.

Regarding the fencing, the president of the school indicated that he would like the site open to the public, and, as a result, is not proposing a perimeter fence around

the site. Also, the president would like to keep the tennis courts unlocked, but is still undecided because of liability issues.

Regarding parking problems around the school, within the next year, the City will be redesigning the street pattern in the area, which includes placing a cul-de-sac at East Forest and Dequindre. As a result, the school was requesting permission from the City to install approximately sixty-five 90-degree parking spaces along East Forest Street. In October, 2002, CPC staff facilitated a meeting between the school and the Department of Public Works (DPW). The DPW strongly objected to the proposed 90-degree parking, because of liability concerns. It appears the school now hopes to have parallel to parking along East Forest and to reconfigure its internal parking lot and drop-off/pick-up area to add more parking spaces.

PLANNING ISSUES

Surround Land Use

Surrounding land uses include the soon to be developed Federal Reserve Bank to the north, the Plymouth Educational Center to the east, a Detroit Edison Building and small City playground to the south, and multiple-family housing to the west.

The Development Plan

The Land Use Development Plan for Forest Park designates the subject parcel to be developed with Open Space. The Development Plan defines Open Space as including passive walkways, passive recreation, and active recreation. It is the CPC's understanding that the proposed landscaped space with walking trails and tennis courts would be permitted under the Development Plan.

The Master Plan

The proposed site is located within the Middle East Central Subsector of the Detroit Master Plan of Policies. The existing land use map shows the subject site as "vacant". The recommended future

general land use map shows "medium density residential/light industrial" for the site. P&DD has determined that the proposed development conforms to the medium density residential designation of the Master Plan.

The Community Reinvestment Strategy (CRS)

The CRS report shows the subject land to be developed with "residential and commercial mixed use".

Community Input

On June 19, 2002, the Forest Park Citizens' District Council voted to support the proposed project, and on July 11, 2002 the Housing Commission voted in support.

RECOMMENDATION

The City Planning Commission recommends approval of the request to purchase City-owned urban renewal land referred to as Parcel 18 in the Forest Park Rehabilitation Project Development Area and recommends approval of the site plan for the proposed development as submitted by the applicant and described in this report with the following conditions:

1. That the Exhibit B of the Development Agreement and land sale resolution require that a separate landscaping plan, indicating caliper, species, location of landscaping materials, and location of berms be submitted and subject to review and approval by CPC staff; and
2. That the proposed basketball court shown on the most recent site plan be removed from the site plan and replaced with a landscaped area.

By Council Member Collins:

Whereas, Plymouth Educational Center, Inc. has submitted plans to develop a landscaped/recreational space with two tennis courts, walking paths, and extensive landscaping on property generally located at the southeast corner of the intersection of Russell Street and Forest Avenue and referred to as Parcel 18 in the Forest Park Rehabilitation Project Development Area; and

Whereas, The subject property is located within a PD (Planned Development District) zoning classification and, therefore, requires City Council approval of the site plan, including the design, appearance, and location of the proposed project in accordance with the provisions of Section 110.0000 of the Zoning Ordinance; and

Whereas, The City Planning Commission (CPC) has reviewed the site plan for the project, including the design and appearance as submitted by the petitioner and finds that they are in keeping with the spirit, intent, and purpose of the PD district;

Now, Therefore Be It Resolved, That the City Council hereby approves the site plan, including the design, appearance, and location of the proposed tennis courts and walking paths as described in the plans dated September 12, 2002 submitted by the Plymouth Educational Center's architect Madison Madison International subject to the following conditions:

1. That the Exhibit B of the Development Agreement and land sale resolution require that a separate landscaping plan, indicating caliper, species, location of

landscaping materials, and location of berms be submitted and subject to review and approval by CPC staff; and

2. That the proposed basketball court shown on the most recent site plan be removed from the site plan and replaced with a landscaped area.

Planning & Development Department

March 5, 2003

Honorable City Council:

Re: Hubbard-Richard Rehabilitation Project Development: Parcel B.

On August 3, 2001 (Legal News, August 13, 2001, Pg. 9) your Honorable Body authorized the sale of the above-captioned property to Westminster and Abbey Homes, LLC, a Michigan Limited Liability Company, for the amount of \$174,000. The developer proposes to build seventy-two (72) townhouses and six (6) single-family homes.

It has come to our attention that some of the public infrastructure costs associated with this project were not originally anticipated and will have an impact on the price of the homes. As a result of our findings, it has been determined that the sales price of the land must be adjusted in order for this project to go forward.

The Developer has since agreed to

replace obsolete combined sewer lines, rebuild Howard Street which runs through the center of the project and provide new curbs and sidewalks in the right-of-way around the perimeter of the development. The costs for these improvements alone are estimated in excess of \$400,000. Ultimately, these costs will be passed on to the homebuyer. In order to offset these costs, the Planning and Development Department has renegotiated the price. The disposal of this land by negotiation is an appropriate method for making the land available for redevelopment. Accordingly, the Planning and Development Department has adjusted the purchase price from \$174,000 to \$1.00.

We, therefore, request that your Honorable Body adopt the sale and authorize the Planning and Development Department Director of Development Activities to execute an agreement to purchase and develop Parcel B with Westminster and Abbey Homes, LLC, a Michigan Limited Liability Company, and that the sales price of \$174,000 be adjusted to \$1.00.

Respectfully submitted,
HENRY B. HAGOOD

Director of Development Activities
By Council Member Collins:

Resolved, That the Planning and Development Department Director of Development Activities be and is hereby authorized to execute an Agreement to Purchase and Develop Parcel B, located in the Hubbard-Richard Rehabilitation Project, more particularly described in the attached Exhibit A, with Westminster and Abbey Homes, LLC, a Michigan Limited Liability Company, and that the sales price of \$174,000 be adjusted to \$1.00, in accordance with the foregoing communication and the Development Plan for this Project.

**RESOLUTION IN OPPOSITION TO
PROPOSED TAX CUTS TOTALING
\$726 BILLION**

By COUNCIL PRESIDENT MAHAFFEY:

WHEREAS, President Bush has proposed a \$726 billion tax cut that benefits only the small percentage of Americans who receive substantial income from stock dividends. The other large piece of

the President's \$726 billion tax cut package, accelerating the 2001 tax rate cuts, would benefit the top one percent of tax filers, a group whose average income is about \$1 million. The rate cuts alone, without the dividend tax cut, would give millionaires a new tax break of more than \$63,000 next year, and

WHEREAS, If these tax cuts are enacted, it would result in hundreds of billions of dollars over the next decade being diverted from the Social Security Trust Fund, health care, education and homeland defense. The Congressional Budget Office states that an estimated budget shortfall of \$1.8 trillion could have been an \$891 billion surplus, but for the Bush tax and budget proposals, and

WHEREAS, The tax and budget plan approved by the House Budget Committee two weeks ago balances the tax cuts for millionaires on the backs of poor and middle income families, and the Senate plan is not much better. Under the House plan, \$1.4 trillion in tax cuts over the next decade would be funded by cuts in important programs like Medicare, Medicaid, Food Stamps, Veterans' programs and farm programs. BE IT THEREFORE

RESOLVED, That the Detroit City Council joins with hundreds of organizations across the country in urging our Senate and Congressional representatives to veto any tax cuts for the wealthy at this time of national crisis. When the costs of war in Iraq and its aftermath are not known, when cities and states across the country are dealing with record deficits, when programs to families and children are being cut because of our current deficits, it is morally indefensible to pursue tax cuts for the wealthy. BE IT FURTHER

RESOLVED, That the Detroit City Clerk forward copies of this resolution to the entire Detroit Congressional Delegation and to Senators Levin and Stabenow, and to President Bush, *immediately upon passage of this resolution.*

Yeas — Council Members Bates, K. Cockrel, Jr., Collins, Everett, McPhail, Tinsley-Talabi, and President Mahaffey — 7.

City Planning Commission

March 27, 2003

Honorable City Council:

Re: Request of the Planning and Development Department to rezone land generally bounded by the property lines of 3655 Alter and 3744 Ashland to the north, Alter to the east, Mack to the south, and Ashland to the west from R2 (Two-Family Residential District), B4 (General Business District), and P1 (Open Parking District) zoning classifications to a PD (Planned Development District) zoning classification (Recommend Approval).

NATURE OF REQUEST

The Planning and Development Department (P&DD) has submitted an application, on behalf of Land, Inc., to rezone property presently designated as R2 (Two-Family Residential District), B4 (General Business District), and P1 (Open Parking District) zoning classifications generally located in the area of 3655 and 3744 Ashland to the north, Alter to the east, Mack to the south, and Ashland to the west, to a PD (Planned Development District) zoning classification as described on the attached map.

The subject area is approximately 1.29 acres. The petitioner proposes to construct a motor vehicle filling station. The proposed filling station would include 10 fueling dispensers, a bakery and a convenience store in a single, one-story structure of approximately 5,184 square feet of gross floor area, and 37 parking spaces.

No additional automobile services (automobile washing, oil changes, etc.) will be offered on the site.

The site is comprised of 15 lots, of which 13 are vacant. The City and the applicant currently own a majority of the parcels included in the proposed development. Two residential structures and one adjoining lot are privately owned and will be acquired by Land Assembly for Neighborhood Development, Inc. (Land, Inc.). The proposed development represents the first phase of the Mack-Alter Development, a multi-phase development, encompassing much of the Mack-Alter area.

SURROUNDING ZONING AND LAND USES

To the north: R2 (Two-Family Residential District) — Single and two-family residential homes.

To the east: R2 (Two-Family Residential District) and B4 (General Business District) — Single and two-family residential homes, commercial structures, and vacant land.

To the south: B4 (General Business District) and P1 (Open Parking District) — Neighborhood commercial (Rent-A-Center and Family Dollar) and associated parking.

To the west: R2 (Two-Family Residential District) and B4 (General Business District) — Two-family residential homes and vacant commercial structures.

MASTER PLAN CONSISTENCY

The subject site is located in the Chandler Park Subsector of the East Sector of the Master Plan of Policies. The generalized existing land uses are RLM (Low-Medium Density Residential) and GC (General Commercial). The recommended future general land uses are RL (Low-Density Residential) and GC (General Commercial). A PD zoning district must conform to the underlying Master Plan land use designation, which in this case is partly residential. In a letter dated January 23, 2003, P&DD indicated that the proposed development does not conform to Master Plan. The Master Plan must be amended before the proposed development can proceed. P&DD has indicated that a resolution to amend the Master Plan will be submitted and will encompass the larger development area.

PUBLIC HEARING RESULTS

On January 16, 2003, a public hearing was held before the City Planning Commission on the above matter. Five members of the community provided verbal comments on the project. Three of the five community members expressed concerns relative to the proposed development. Such concerns included questions

about the proliferation of gas stations in the area, questions about the location of the proposed development, impacts on adjacent properties, and additional plans for the area. The other two members expressed support for the proposed development. One letter of support for the proposed development was also received.

There were also questions from Commissioners. One question dealt with the location of and proximity to other gas stations in the area. Other questions pertained to on-site measures to minimize speeding on and around the site and acquisition and relocation for the properties currently on the proposed development site. The developer and CPC staff addressed all questions raised by the Commissioners as well as those of the community members.

ANALYSIS

CPC staff worked with P&DD to ensure that the proposed site possessed "Locational Suitability" for a motor vehicle filling station consistent with Section 42.0631 of the Zoning Ordinance, and that the site development standards set forth in the Regulations for Motor Vehicle Filling Stations of the Zoning Ordinance (Sections 42.0651-42.0664) would be fulfilled with respect to the proposed development. The site plan recommended for approval with the rezoning by the City Planning Commission, was revised to address initial concerns with respect to buffering, signage, trash receptacles, landscaping, ingress and egress, and lighting.

Public, private and community planning efforts to revitalize the Mack-Alter commercial strip have been ongoing for several years. These efforts have culminated in the proposed development, which represents the first phase of a larger development concept planned for both the northwest and southwest corners of the Mack-Alter intersection.

While the rezoning does not presently conform to the Master Plan for the area, P&DD has communicated that preparation of an amendment to the Master Plan is currently underway and will be submitted within the next two weeks.

RECOMMENDATION

At its meeting of January 23, 2003, the City Planning Commission took action to recommend that the proposed rezoning to PD along with the revised plans for the proposed motor vehicle filling station be approved subject to:

1. adoption of the appropriate Master Plan amendment, and
2. final approval of site, landscaping, signage plans and elevations by City

Planning Commission (CPC) staff.
 The Law Department's approval to form of the amendatory ordinance to effectuate this recommendation was received on March 24, 2003. This ordinance is attached for your consideration. We request that the ordinance be introduced and the required public hearing be scheduled at your next formal session. The cus-

tomary discussion should take place prior to the public hearing.

Recreation Department

March 20, 2003

Honorable City Council:
Re: Submittal of Detroit Recreation Plan for your approval.
The Detroit Recreation Department is

submitting to your Honorable Body for its review the Five Year Detroit Recreation Plan. Your approval is necessary prior to our submitting the Plan to the Michigan Department of Natural Resources (MDNR). This plan is the foundation of the department's vision for recreation development and programming. It reflects the Department's plans for the next five fiscal years, and may be amended and modified as necessary, with the approval of the City Council.

As you may know, with an approved Recreation Plan, the City may apply for funding support under the MDNR Trust Fund, the Land Water Conservation Fund and other funding programs. These grant monies make it possible for the Recreation Department to develop and renovate recreation properties. In the past the Department has acquired such funding to construct Mr. Elliott Park and renovate Riverside Park and Manz Playfield. We are currently constructing the Farwell Center, thanks to such funding. We will be submitting a new proposal on April 1, 2003, to construct a comfort station and picnic shelter in Palmer Park and to renovate a comfort station on Belle Isle and construct a picnic shelter nearby. The Recreation Plan is key to our being able to secure support for such projects.

The Plan lays out in detail the Department's goals and objectives, our demographics, a description of the parks, buildings and programs under our jurisdiction, our strengths and weaknesses, historic resources, our needs, the services we provide and our Action Plan for the future. In short, the plan describes where we are now, and where we want to go from here.

Your review and approval of this document is respectfully requested, with a waiver of reconsideration.

Respectfully submitted,

In response to the request for a deferral of the demolition order on the property noted above, we submit the following information:

A special inspection on March 19, 2003 revealed the building is secured and appears to be sound and repairable.

The owner has paid the current taxes due as of March 18, 2003.

The proposed use of the property is rehabilitation and rental.

Therefore, it is recommended that the demolition order be deferred for a period of six (6) months subject to the following conditions:

1. The building shall be maintained securely barricaded until rehabilitation is complete. All relevant permits for rehabilitation work shall be obtained. Rehabilitation is to be complete within six (6) months, at which time the owner will obtain one of the following from this department:

- Certificate of Acceptance related to building permits
- Certificate of Approval as a result of a Housing Inspection
- Certificate of Inspection, required for all residential rental properties

2. The owner shall not occupy or allow occupancy of the structure without a certificate (as outlined in #1 above).

3. The yards shall be maintained clear of weeds, junk and debris at all times.

4. In accordance with Ordinance 290-H, as amended, this building may be deemed dangerous if: it remains unoccupied continuously for more than six months; it is not maintained according to the official Building and Property Maintenance Codes of the City; and it is not listed for sale, lease or rent, regardless of the timeliness of tax payments and regardless of whether building is secure.

At the end of the deferral period, the owner must contact this department to arrange an inspection to evidence that conditions of the deferral have been met or that substantial progress toward rehabilitation has been made. If the building becomes open to trespass or if conditions of the deferral are not complied with, we will proceed with demolition without further hearings. We recommend that utility disconnect actions cease to allow the progress of the rehabilitation.

**City of Detroit
Local Development Finance Authority**
March 28, 2003

Honorable City Council:

Re: Woodward Technology Corridor Smartzone: Amendment to LDFA District and LDFA Development Plan.

The City Council of the City of Detroit (the "City") has created the City of Detroit Local Development Finance Authority (the "LDFA"), a local development finance authority under the provisions of Act 281, Public Acts of Michigan, 1986, as amended ("Act 281").

Pursuant to Act 281 and with the approval of the Michigan Economic Development Corporation ("MEDC"), the City has established an LDFA District encompassing the Woodward Technology Corridor SmartZone, approved a Tax Increment Financing and Development Plan for Tech Park Area No. 1 within the Woodward Technology Corridor SmartZone, and created Tech Park Area No. 1 as a certified technology park in order to participate in a program designed to foster the development of high technology enterprises through the commercialization of research products being developed at Michigan institutions of higher education.

The MEDC and the LDFA have entered into an Economic Development CCF Grant Agreement (the "Grant Agreement") with the LDFA whereby the MEDC will grant \$2,000,000 to assist the LDFA with a portion of the costs of certain improvements related to the development of the Wayne State University Research and Technology Park business incubator within the LDFA's certified technology park.

The MEDC has proposed amendments (the "Amendment") to the Grant Agreement to provide additional grant funds of \$6,950,000.00 to the LDFA for certain new public facilities and projects to be created within new areas to be added to the LDFA's certified technology park, which include the Lower Woodward Initiative and the East Riverfront Tri Centennial Park. The Amendment was negotiated and executed on September 11, 2002.

In order for the LDFA to be able to draw the additional CCF Funds of \$6,950,000.00, the LDFA Board of Directors and the City Council must adopt resolutions amending the LDFA District ("Authority District") and the LDFA Amended and Restated Tax Increment Financing and Development Plan for Tech Park Area #1 and Certified Technology Park (the "Authority Restated Plan").

On March 27, 2003, the LDFA Board of Directors adopted Resolution Code LDFA 03-03-05-05 approving the Authority District and the Authority Restated Plan.

The LDFA is herewith submitting to your Honorable Body the proposed

amended boundaries of the Authority District (Exhibit A) and the Authority Restated Plan (Exhibit B) and respectfully requests the following actions from the City Council:
