

Mobile Forensics Grant to purchase a Secure View Next-Generation Mobile Forensics Unit valued at \$12,390.00. That Grantor will pay 60% (\$7,391.00). DPD will be required to match an additional 40% (\$4,999.00). The combined funding brings the total grant budget to \$12,390.00, including the 40% match.

The purpose of this software equipment is to allow law enforcement agencies the ability to capture and analyze information such as deleted data, text, calls and App information from social networking sites. The goal is to help build better cases and increase conviction rates.

The DPD Homicide Unit currently uses the Secure View, Mobile Edit, Oxygen forensic software that extracts data from approximately 100 phones per month. Being able to apply for a second Mobile Forensics Unit will allow our Department to keep up with the increased amount of cases that involve cell phone data and to capture more 'deleted and live data' that previously may have gone undetected from the most popular phone applications. It is recommended that the Detroit Police Department accept the grant award to purchase the Secure View Mobile Forensics Unit. The appropriation number for this grant is 14013.

Participation requires the approval of your Honorable Body, via adoption of the attached resolution.

Honorable City Council:

Re: Petition No. 134 — The Peoples Community Apostolic Church, request to close alley with easement for property located at 7575 Puritan, Detroit, MI 48238.

Petition No. 134 of The Peoples Community Apostolic Church, request for the conversion of the west part of the east-west alley, 16 feet wide, in the block bounded by Pilgrim Avenue, 50 feet wide, Puritan Avenue 66 feet wide, Tuller Avenue, 50 feet wide and San Juan Avenue, 50 feet wide into a private easement for utilities.

The request was approved by the Solid Waste Division — DPW, and Traffic Engineering Division — DPW. The petition was referred to the City Engineering Division — DPW for investigation (utility review) and report. This is our report.

All City departments and privately owned utility companies have reported no objections to the conversion of the public rights-of-way into a private easement for public utilities. Provisions protecting utility installations are part of the attached resolution.

Detroit Water and Sewerage Department (DWSD) have no objection to the conversion to easement. The specific DWSD provisions for easements are included in the resolution.

Public Lighting Department (PLD) reports no objection to the conversion to easement.

I am recommending adoption of the attached resolution.

Respectfully submitted,
RICHARD DOHERTY, P.E.
