Honorable City Council:

Re: Petition No. 260 — Marine Pollution Control, request for renewal of temporary closure of part of Pulaski Avenue between the South line of West Jefferson Avenue and the Rouge River.

Petition No. 260 — Marine Pollution Control, original request for renewal of a temporary closure; and subsequently revised to be a request to vacate and convert to easement Pulaski Avenue, 50 feet wide from West Jefferson to the Rouge River.

This request is being made because Pulaski Avenue has been temporarily closed since 1975. The street has not been used as a public right-of-way for so long it is in the best interest of the City and the property owners to make the closure permanent.

The request was approved by the Solid Waste Division — DPW, and the Traffic Engineering Division — DPW. The petition was referred to the City Engineering Division — DPW for investigation (utility review) and report. This is our report.

All involved City Departments, including the Public Lighting Department, and privately owned utility companies have reported no objections to the conversion of the public right-of-way into a private easement for public utilities. Provisions protecting utility installations are part of this resolution.

Detroit Water and Sewerage Department (DWSD) has no objection to the conversion to easement. The specific DWSD provisions for easements are included in the resolution.

I am recommending adoption of the attached resolution.

Respectfully submitted,
RICHARD DOHERTY, P.E.

City Engineer
