Honorable City Council:

Re: Petition No. 981 Giffels Webster request to vacate the surface portions of the public alley right-of-way within the blocks bounded by Grand River Avenue, W. Adams Avenue, Clifford St. and W. Columbia Street.

Petition No. 981 — Giffels Webster on behalf of Olympia Development of Michigan LLC request to vacate and convert to subsurface easement the east-west public alley, 20 feet wide, in the block of Elizabeth Street, 60 feet wide, Columbia Street, 60 feet wide, Cass Avenue, 71 feet wide and Clifford Street, 60 feet wide, also the east-west and north-south public alley, 20 feet wide in the block of Adams Street, 60 feet wide, Elizabeth Street, Grand River Avenue, 100 feet wide and Cass Avenue.

This request is being made to consolidate the land parcels and develop them for surface parking.

The petition was referred to the City Engineering Division — DPW for investigation (utility review) and report. This is our report.

The request was approved by the Solid Waste Division — DPW, and Traffic Engineering Division — DPW and the Public Lighting Authority (PLA) report no involvement. Detroit Water and Sewerage Department (DWSD) has no objection to the conversion to easement. The specific DWSD provisions for easements are included in the resolution. Public Lighting Department (PLD) reports involvement but no objection and a provision for the return of PLD's luminaires and bracket arms is a part of the attached resolution.

DTE Energy-Electric (DTE) reports involvement with an estimated cost of \$33,964.23 for removal and relocation of their above ground facilities. A provision for the removal of the DTE facilities at cost to be borne by the petitioner is a part of the resolution.

All other involved City Departments, and privately owned utility companies have reported no objections to the conversion of the public right-of-way into a private subsurface easement for public utilities. Provisions protecting utility installations are part of the attached resolution.

I am recommending adoption of the attached resolution.

Respectfully submitted,

RICHARD DOHERTY, P.E.

City Engineer
