**Department of Public Works City Engineering Division**

September 27, 2019

Honorable City Council:

Re: Petition No. 454 — Detroit Department of Public Works City Engineering Division, request to vacate Brooklyn Avenue 50 feet wide, from north line Temple Avenue, 50 feet wide, to the south of Elm Street, 50 feet wide, with reservations of easements in parts of vacated area.

The petition was referred to the City Engineering Division — DPW for investi-

gation (utility review) and report. This is our report.

The request is being made so that Detroit Entertainment, L.L.C. d/b/a MotorCity Casino Hotel can construct an expansion to existing parking structure on the west side of Brooklyn Street between Elm Street, 50 feet wide, and Temple Street, 50 feet wide.

The request was approved by the Solid Waste Division — DPW, and Traffic Engineering Division — DPW, and City Engineering — DPW.

Detroit Water and Sewerage Department (DWSD) has no objection to the reservation of easement and outright vacation. The specific DWSD provisions for easements and vacations are included in the resolution.

DTE Energy reports having services in the area. Provisions to maintain access to DTE facilities in the easement area; and to pay for the removal work for the vacation is a part of the resolution.

Detroit Fire Department (DFD) reports involvement but no objection provided Detroit Entertainment, L.L.C. d/b/a MotorCity Casino Hotel maintains emergency vehicle access to all existing building structures and hydrants.

All other involved City Departments, and privately owned utility companies have reported no objections to the outright vacation of the public right-of-way, and the reservation of part of the public right-of-way for a private easement for public utilities. Provisions protecting utility installations are part of the attached resolution.

I am recommending adoption of the attached resolution.

Respectfully submitted,  
RICHARD DOHERTY, P.E.

City Engineer

City Engineering Division — DPW
