RE: Request to Petition City Council
Installation of Monitoring Wells at
980 East Warren Avenue
Detroit, Michigan

To whom it may concern:

Groundwater & Environmental Services, Inc. (GES), on behalf of Shell Oil Products (Shell), is requesting a petition number for the Right-of-Way (ROW) permit intended for Warren Avenue, Chrysler Expressway and Hancock Street, adjacent to the above referenced address. GES would like to install one (1) monitoring well in the southern ROW of Warren Avenue, two (2) monitoring wells in the eastern ROW of Chrysler Expressway, and two (2) monitoring wells in the northern ROW of Hancock Street, per the attached site plan. GES will not need to close any portion of the affected roadways in order to complete the proposed ROW work. Therefore, please find enclosed a Certificate of Insurance, meeting all city requirements, a site map with proposed monitoring well locations, and a monitoring well detail diagram. GES proposes to commence work effective July 1, 2007. This work is being performed as part of an on-going environmental investigation, therefore the monitoring wells will need to remain in place for approximately 5 - 10 years. Upon completion of the monitoring wells, groundwater samples will be collected for analysis on a biannual basis. All monitoring wells will be properly abandoned when they are no longer required.

Should you require any additional information, please contact Jeff Berntsen, Project Manager, at (810) 227-0002, ext. 120.

Sincerely,

Anne Herrera
Environmental Scientist

AUTHORIZED REPRESENTATIVE

September 16, 2008

Honorable City Council:

RE: Petition No. 1669 – Groundwater & Environmental Services (GES)/Shell Oil request for the installation of five (5) monitoring wells at 980 Woodward Avenue at Warren Avenue, Chrysler Expressway, and Hancock Street.

Petition No. 1669 of "Groundwater & Environmental Services (GES)/Shell Oil" whose address is 10381 Citation Drive, Suite 500, Brighton, Michigan 48116 request permission to install and maintain five (5) monitoring wells within East Warren Avenue, 140 feet wide, Hancock Avenue, 60 feet wide, vacated and converted into an easement, and the Walter P. Chrysler Service Drive all in the block bounded by East Warren Avenue, 140 feet wide, Hancock Avenue, 60 feet wide, Walter P. Chrysler Service Drive, and Russell Avenue, 50 feet wide. The purpose of the bored wells is to monitor the existence or extent of soil contamination from leaking underground fuel storage tanks (a/k/a "L.U.S.T.").

The encroachment petition was referred to the City Engineering Division – DPW for investigation and report. This is our report:

The Department of Environmental Affairs (DEA) is responsible for developing and implementing a coordinated and comprehensive environmental policy for the City of Detroit, including soil remediation from leaking underground fuel storage tanks. To ensure public safety DEA will review the petitioner's environmental activities prior to the issuance of city permits. A Right-of-Entry is required by DEA prior to contractor field activity.

Soil borings and monitoring well installations are equivalent to an "open cut" in a public street or alley. Necessary permits have to be obtained for any street or alley opening, backfill, surface restoration, barricade, or occupancy of city rights-of-way to install monitoring wells. The City Engineering Division - DPW will require the permit applicant to secure approval of project plans from the Department of Environmental Affairs.

It is the responsibility of "Groundwater and Environmental Services Inc. (GES)/Shell Oil" to give reasonable and proper notice to any abutting property owner(s) before commencing any open cut or boring operations within public rights-of-way.

The enforcement of fire safety regulations and building codes is the responsibility of the Fire Marshal and Buildings and Safety Engineering Department. Generally, the Fire Marshal and Buildings and Safety Engineering Department report no objections to the placement and maintenance of permanent L.U.S.T. monitoring well encroachments within public rights-of-way.

DTE Energy – Gas Division (DTE) reports involvement, but no objections provided that the proposed encroachments must be at least a minimum of 3 feet away from our existing gas facilities, also must be free from any obstruction(s) for DTE's equipment to do any repairs and/or relocation of DTE's existing gas facilities in the near future.

The Water and Sewerage Department (DWSD) reports involvement, but no objections provided the proposed encroachments for monitoring well installation provide a minimum clearance. The petitioner must follow DWSD provisions.

All other involved City departments and privately owned utility companies request the petitioner(s) make use of "Miss Dig" facilities before any soil borings or permanent monitoring wells are installed in public (street or alley) rights-of-way.

Finally, the City Engineering Division - DPW requires " Groundwater and Environmental Services Inc. (GES)/Shell Oil " to submit certified "as built" drawings, a map and survey, showing the exact location of the petitioner's completed permanent L.U.S.T. monitoring well installations within public rights-of-way.

In accord with Detroit Code (Sec. 50-1-9), there is an appropriate resolution, granting the encroachment petition, attached for consideration by your Honorable Body.

Respectfully submitted,

Jessy Jacob, City Engineer
City Engineering Division - DPW

NRP:

Cc: Alfred Jordan, Director – DPW
Mayor's Office - City Council Liaison

BY COUNCIL MEMBER _____

Whereas, The Department of Environmental Affairs (DEA) is responsible for developing and implementing a coordinated and comprehensive environmental policy for the City of Detroit, including soil remediation from leaking underground fuel storage tanks. To ensure public safety DEA will review the petitioner's environmental activities prior to the issuance of city permits; also

Whereas, The State of Michigan requires that all underground storage tanks be registered and inspected for leaks. Also, the "State" has mandated the replacement of leaking tanks including removal (and proper disposal) of contaminated soil; also

Whereas, Any L.U.S.T. can contaminate soil and diminish the value of surrounding properties, including public rights-of-way. The taxpayers of Detroit invested substantial capital in the acquisition, site preparation, insurance, and maintenance of public rights-of-way. Finally, it is in the interests of public health, safety, and welfare to detect the presence of hazardous materials and/or soil contamination from L.U.S.T.(s); therefore be it

RESOLVED, The City Engineering Division - DPW is hereby authorized and directed to issue permits to " Groundwater and Environmental Services Inc. (GES)/Shell Oil " at the site of 980 East Warren Avenue, Detroit, Michigan to install and maintain five (5) monitoring wells encroaching within public rights-of-way for the purpose of detecting the presence of hazardous materials and/or soil contamination from any leaking underground storage tank (L.U.S.T.); said public right-of-way being nearby or adjoining property described as follows:

Land in the City of Detroit, Wayne County, Michigan being adjacent to and adjoining Lots 13 through 15, both inclusive, all in the "McAllister and Sharpe's Subdivision" of the north 182.45 feet of the South 262.03 feet and the North 118.38 feet of the South 440.42 feet of the Out Lot No. 190 Rivard Farm Detroit, Wayne County, Michigan as recorded in Liber 10 Page 54, Plats, Wayne County Records;

Land in the City of Detroit, Wayne County, Michigan being adjacent to and adjoining Lot 55 of T.W. Palmer's Subdivision of Outlots 6 and 7 and the South 292.85 feet of Outlots of the Subdivision of the rear part of the Louis Moran Farm City of Detroit, Wayne County, Michigan – T1 and 2S,R12E. as recorded in Liber 9, Page 90, Plats, Wayne County Records;

Land in the City of Detroit, Wayne County, Michigan being adjacent to and adjoining Out Lot 189 in the "Plat of that Part of Claim No. 181 North of Jefferson Avenue for the Heirs of Antoine Rivard as subdivided into Lots April 19, 1841 as recorded in Liber 12, Page 348-51, City Records, Wayne County Records;

2 – Monitoring wells in Hancock Avenue, 60 feet wide, vacated and converted into an easement between Russell Avenue and Chrysler Freeway Service Drive.

2 – Monitoring wells in the East side of Chrysler Freeway Service Drive, between East Warren and Forest.

1 – Monitoring well in the South side of East Warren Avenue, 140 feet wide, between Russell Avenue and Chrysler Freeway Service Drive.

PROVIDED, That nothing in this resolution shall be construed as giving any authority, permission or grant to the permittee for any part of the encroaching L.U.S.T. monitoring wells to be placed upon the surface or underground rights of privately owned property. Enforcement of violations of fire safety regulations and building codes is the responsibility of the Fire Marshal and the Buildings and Safety Engineering Department. The petitioner shall apply to the Buildings and Safety Engineering Department for approval and permits to place any monitoring wells on privately owned property (if necessary); and further

PROVIDED, It is the intention of this resolution to authorize the City Engineering Division - DPW (prior to the issuance of "encroachment" permits) to require the permit applicant to perform any reasonable task to protect public property interests including, but not limited to, the submission of engineering plans (containing construction details and distances from property lines) of the proposed encroaching L.U.S.T. monitoring wells. The City Engineering Division - DPW shall require the permit applicant to secure approval(s) of said plans from the Department of Environmental Affairs. Also, the City Engineering Division - DPW may require the permit applicant to secure approval(s) of said plans from Wayne County, the State of Michigan, other city departments (including commissions, authorities, corporations, councils, boards, contractors, and agencies whenever applicable) and/or utility companies; whether Wayne County, the State of Michigan, other city departments and/or utility companies are specifically enumerated in this resolution or not; and further

PROVIDED, Said L.U.S.T. monitoring well encroachments shall be maintained under the rules and regulations of the City Engineering Division - DPW, the department of Buildings and Safety Engineering, and the Fire Marshal in accord with Detroit Code Section 50-1-9 and 10; and further

PROVIDED, Whenever it becomes necessary to open-cut, drill, bore, jack, occupy or barricade public rights-of-way for additional test holes or maintenance of the monitoring well installation(s), such work shall be according to detailed permit application drawings (to be submitted by the petitioner or their assigns, subject to city department review and stamp approvals) prior to any public right-of-way construction (including, if necessary, adjustments or removals); and further

PROVIDED, It is the responsibility of "Groundwater and Environmental Services Inc. (GES)/Shell Oil" to give reasonable and proper notice to any abutting property owner before commencing any (permitted) open cut or boring operations within public rights-of-way; and further

PROVIDED, Said encroaching L.U.S.T. monitoring well installations shall be according to the specifications of the Public Lighting Department (PLD). Monitoring wells drilling equipment shall use "care and caution" to clear PLD overhead power lines; PLD requires the installer to maintain a minimum ten feet horizontal clearance at all times. The proposed permanent monitoring wells are not allowed to be built over PLD facilities (maintain a minimum of 3.00 feet horizontal clearance from any underground PLD facilities and/or manholes). The fixed encroachments shall not hinder movement of PLD maintenance equipment; and further

PROVIDED, Said encroaching L.U.S.T. monitoring well installations shall be according to the specifications of the Water and Sewerage Department (DWSD). DWSD requires free and easy access to water main and/or sewer facilities at all times to permit proper operation, maintenance, alteration or repair of DWSD sewers, drains, water mains, fire hydrants, catch basins, sewer and water manholes (and any other DWSD facilities). The proposed permanent monitoring wells are not allowed to be built over DWSD facilities or hinder movement of DWSD maintenance equipment; and further

PROVIDED, All costs for the construction, maintenance, permits and use of the encroaching L.U.S.T. monitoring wells shall be borne by the petitioner. Should damages to utilities occur the petitioner shall be liable for all incidental repair costs and waives all claims for damages to the encroaching installations; and further

PROVIDED, If it becomes necessary to repair or replace the utilities located or to be located in the public rights-of-way, by the acceptance of this permission, the petitioner(s) for themselves, their heirs or assigns, waive claims for any damages to the encroaching installations and agree to pay the costs incurred in the removal, if the removal becomes necessary, and to restore the property affected to a condition satisfactory to the City Engineering Division - DPW at the petitioner's expense; and further

PROVIDED, That the encroaching L.U.S.T. monitoring wells shall be installed and maintained with a secure frame and cover, so as to fit flush within the public sidewalk, berm, or pavement grade. All public rights-of-way shall be maintained safe and convenient for public travel. The petitioner shall be liable for all claims, demands, costs, damages, expenses, and causes of action of every kind and character arising in favor of any person, or other legal entity on account of personal injuries or death or damage to property caused by or claimed or alleged to have arisen out of failure to properly install and maintain any encroaching L.U.S.T. monitoring well. The installation and maintenance of said encroachments shall comply with the rules and regulations of the City Engineering Division - DPW and Traffic Engineering Division - DPW; and further

PROVIDED, The petitioner shall file with the Finance Department and/or City Engineering an indemnity agreement approved by the Law Department, saving and protecting the City of Detroit from any and all claims that may arise there from. Also, the petitioner shall be required by the Law Department in conjunction with the Finance Department - Risk Management Division to present proof of financial capability (bonds or insurance) to pay any claims, damages or expenses that may arise as a result of L.U.S.T. monitoring well(s) placement, installation or maintenance in public rights-of-way; and further

PROVIDED, That said permittee shall be subject to any tax under the provisions of the General Property Tax Act which may be levied against it pursuant to law; and further

PROVIDED, That no rights in the public streets, alleys or other public places shall be considered waived by this permission which is granted expressly on the condition that said encroachments shall be removed at the expense of the permittee at any time when so directed by the City Council, and the public property affected shall be restored to a condition satisfactory to the City Engineering Division - DPW at the permittee's sole cost and expense; and further

PROVIDED, That said permits issued by the City Engineering Division - DPW and/or the Buildings and Safety Engineering Department are granted with the distinct understanding that in the event the City Charter, or Detroit Code(s), or ordinance(s), or resolution(s), or City policies (governing the placement of encroachments in public rights-of-way) are amended to provide for the levying thereafter, of a fee, charge or rental, to be hereafter determined upon, for the occupancy of public streets, alleys or other public places, that the permittee will pay said fee, charge or rental provided for in said Charter, or code(s), or ordinance(s), or resolution(s), or policies; also said permittee does hereby bind itself thereunto, and to accept said permits on the conditions hereby imposed, and in the event said permittee shall contest the validity of said Charter, or code(s), or ordinance(s), or resolution(s), or policies of said fee, charge or rental, or upon refusal to pay same, issued permits shall immediately become void; and further

PROVIDED, That the grade shall be maintained in original condition after installation of the wells with flush covers for the holes; and further

PROVIDED, This resolution is revocable at the will, whim or caprice of the City Council, and permittee hereby waives any right to claim damages or compensation for removal of encroachment(s), and further, that the permittee acquires no implied or other privileges hereunder not expressly stated herein; and further

PROVIDED, That the petitioner shall apply to and become a participating member of "Miss Dig" to comply with Michigan Public Act 53 of 1974, "Protection of Underground Facilities (460.701 - 460.718)"; and further

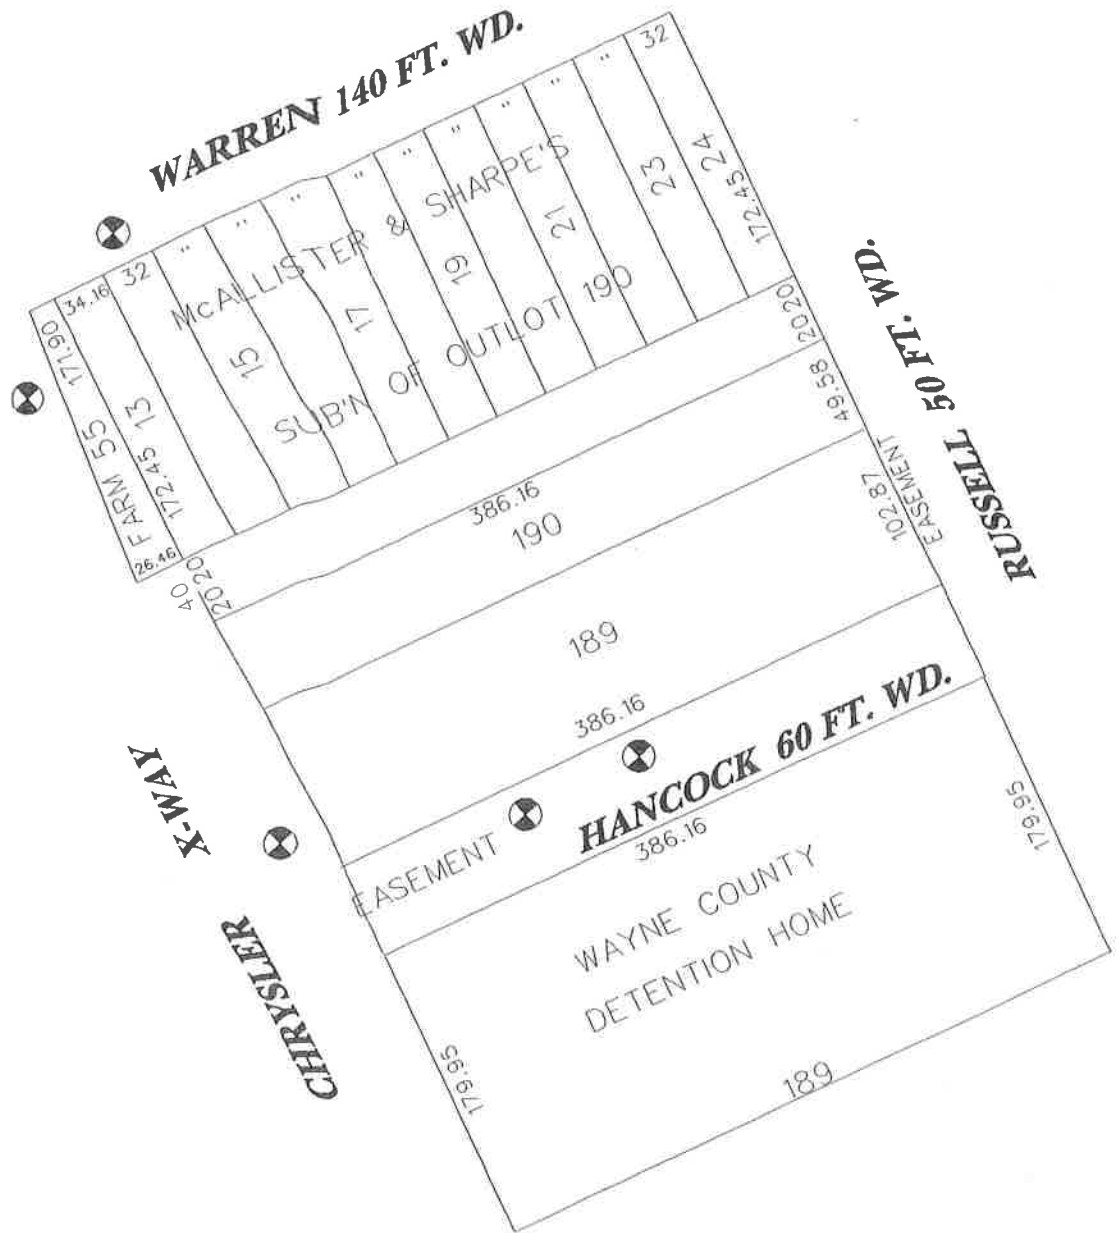

PROVIDED, The filing of the indemnity agreement and the securing of the necessary permit(s) referred to herein shall be construed as acceptance of this resolution by the permittee; and further

PROVIDED, That the encroachment permit shall not be assigned or transferred without the written approval of the City Council; and further

PROVIDED, That the City Clerk shall within 30 days record a certified copy of this resolution with the Wayne County Register of Deeds; and be it further

RESOLVED, The petitioner, " Groundwater and Environmental Services Inc. (GES)/Shell Oil", shall submit "as built" drawing(s) sealed by a professional engineer or surveyor registered in the State of Michigan to the City Engineering Division - DPW within 30 days after obtaining the necessary "encroachment" permit to install five (5) proposed monitoring wells. Said "as built" drawing(s) shall furnish a complete means of identifying and ascertaining the precise position of every part of the "encroachment(s)" with courses, distances, and depth throughout (containing City of Detroit datum), so that it may be determined with certainty where any portion of the "encroachment(s)" has been built. Copies of the certified "as built" map(s) and survey(s) shall be an "appendix" to this City Council resolution. Said "appendix" shall be recorded by the City Engineering Division - DPW in the Wayne County Register of Deeds.
