Detroit, Michigan, 48226

Re: Detroit/Wayne County Port Authority – Public Dock and Terminal Project  
Atwater, at Bates

Dear Council Members:

It is requested, on behalf of the Detroit/Wayne County Port Authority, that the City allow the construction of an 8" water main from an existing water main on Bates Street, extending to Atwater Street, providing water service and fire protection to the new Public Dock and Terminal Facility.

This is necessary because a public water main is not currently available adjacent to the site. The water main design has been planned in cooperation with the Detroit Water and Sewerage Department and their staff has reviewed and approved the construction plans.

Thank-you for your consideration in this matter.

Respectfully Submitted;

Brian P. Geer, P.E.  
Senior Vice President

Cc: John Kerr, DWCPA  
Geoffrey Harrison, SDG Design  
Gang Song, DWSD
