Subject: RE: Parjana Technology Requests

I have advised the Permits Office to not issue a ROW Permit until BSE & ED approves the use for buildkngs.

We would also need an encroachment petition approved by city council and a maintenance agreement with indemnification before they could install in our ROW.

Michael,

As we spoke today, here is the email Mr. Rick Stratton of Detroit People Mover sent regarding his concerns of using the Parjana technology. I have followed the experimental usage in fields at City Airport and at Belle Isle, I am not aware of installations and outcomes for uses on infrastructures. I am told by the Parjana representative, Mr. Joe Kramer, that the installations number over 200 and that "DWSD is the only City Department that is not on board" with its usage on the David Whitney Building and on the Shelby tunnel. Documented information should be

available demonstrating uses on buildings and the affects of diverted water on utility piping before DWSD concurs with its usage. The attached document for the Shelby tunnel was submitted directly to DWSD for review and approval which seems should have been submitted as a petition as it was for David Whitney Building (not yet approved).

Best Regards,

Debra Singleton

Debra,

I appears you are not the only one with concerns about petition 153. Today I spoke with Rick Stratton from the people mover and, he wanted to know about our understanding and decision about the Parjana Technology process. I am forwarding the emails information.

Gilbert:

Thanks for speaking with me today. I just wanted to reiterate my concern regarding the Parjana Energy-Passive Groundwater Recharge Product (EGRP) technology and its potential im station support columns along Park Ave between Woodward Ave and Washington Blvd. We would like to know that this technology will not cause column sinkage and/or shift due to approved by your department and is still under review. In addition, it was mentioned, if DPM column piles extend down to the bedrock, the DPM columns should not have a problem. information. If you would, please keep DPM abreast of Petition x153's development. If approval is granted, please copy DPM on the appropriate approval documents.

Also, is it possible to add The Detroit People Mover to your distribution list?

Best Regards,

Rick Stratton - Engineering

Subject: David Whitney Building Project - Request for Results

Hello Everyone,

For those who joined us at the David Whitney Building in Downtown Detroit on the 25th of July, we appreciate your attendance. We hope that you learned a few things :

The Roxbury Group, who owns the building, needs to move forward with this project. We are looking to drill 3-4 inch holes, up to 40 feet deep around the foundation to around the perimeter between the building and the street. We need to know where your utilities are located so we can finalize our drawings. Attached is the correspondin

The Miss Dig ticket number is A42170970. If you have any questions, please contact me at [734-223-9539](tel:734-223-9539).

Sincerely,

Dan Phillips
