Keith,

As we just discussed, Robert and I have reviewed the information on the attachments and find no problem with the request.

I believe that the Service Drives have been turned back to the City and MDOT has no issue with a technical, 3' sub surface encroachment (under the sidewalk) in the areas shown, provided that the sidewalk is replaced.

Please let me know if there is any additional information that I may provide.

Thank you, Tom Jay

Hello,

I have a petition (x548) that we are processing. The service drive has an encroachment. See attachments.

Does the State need to be contacted regarding the encroachment into their ROW ? If so do you know who I should contact ?
