Bloomfield, CO 80021

**RE: 1545 Clay St., Detroit, Michigan**

To Whom It May Concern:

Euclid Manufacturing is proposing to expand its advanced manufacturing operation in the City of Detroit. The facility is located at 1500 E. Euclid in Detroit. We have purchased the building at 1600 E. Euclid and would like to create an easement, closing part of Hartwick Street to facilitate safe employee transportation between the two buildings. I've enclosed a map for your convenience.

As a neighbor to Euclid Manufacturing, **would you please provide a letter of support for this development?** Both the City of Detroit and Wayne County are supporting this project as this expansion would add 75 new advanced manufacturing jobs in the City of Detroit. Currently, Euclid Manufacturing employs 175 Associates.

Letters of Support should be **ADDRESSED** to:

Scott Jones, President  
Euclid Manufacturing  
1500 E. Euclid St.  
Detroit, MI 48211

Letters of Support should be **MAILED** (or emailed) to:

Dawn Dayton  
Euclid Manufacturing  
17757 Woodland Drive  
New Boston, MI 48164  
[ddayton@lw-grp.com](mailto:ddayton@lw-grp.com)

If you have questions or would like to discuss this request further, please contact me at (734) 397-6300 ext. 10274. We appreciate your consideration of our request.

Best regards,

Dawn M. Dayton  
Director, Community Relations

September 9, 2016

Mr. Keith McCrary  
Supervisor of Maps & Records  
City of Detroit  
Department of Public Works  
**Sent Via Email**  
[mccraryk@detroitmi.gov](mailto:mccraryk@detroitmi.gov)

Dear Mr. McCrary:

Thank you for your time this morning to review and correct Petition #887 – Euclid Manufacturing’s request to limit access to portions of Hartwick Drive. As you know, the current petition is not accurate as it outlines the closure of all of Hartwick Drive.

As we discussed this morning and is reflected in the plans we provided, it is Euclid Manufacturing’s proposal to gate Euclid Avenue (from Riopelle toward the Railroad) and Hartwick Drive at the end of our buildings (1500 E. Euclid and 7991 Hartwick Dr.). We propose to have guard shacks at each lift gate. The gates would be open Monday – Friday 6 a.m. – 6 p.m. and staffed from 6 p.m. – 6 a.m. and weekends – providing for neighbor traffic and emergencies.

Additionally, we met with Wolverine Mailing and Mr. Bob Heidi this morning regarding their concerns with the plan. It is my understanding and we have been told both neighbors will support the project as described here.

Thank you for your continued assistance and as always, please don’t hesitate to contact me with questions, concerns and solutions. My cell phone number is (734) 751-2046.

Best regards,

Dawn M. Dayton  
Director, Community Relations

Forward it to council as a conversion to easement and copy the abutting property owners to our report. Advise council of the lack of response.

Rich

>>> Keith McCrary 8/10/2016 3:43 PM >>>

Richard,

The petitioners original request was to convert to easement. Petitioner contacted all abutting property owners by way of certified mail. She can not get a response from all the abutting owners. May we process this as a Temporary Closure. She has serious safety issues with drag racers. She is willing to give out gate passes to all the abutting property owners if they ever contact her.

Hello Ms. Dayton,

As I mentioned during our phone conversation this afternoon, we would require you to provide a minimum 40 ft x 20 ft piece of land south of the proposed gate on Hartwick to serve as a turn around for any vehicles that enter the open portion of Hartwick (so as to not cause a dead-end situation).

Let me know if you have questions.

Thanks

Good morning Meena,

I went down to Hartwick Street today and found that from "property" to "property" is 50 feet. We will clean and concrete the area to accommodate a turn-around south of the proposed gate on Hartwick St. Additionally, a parking lot for Euclid Manufacturing staff and visitors will also be located south of the proposed lift gate on Hartwick St. I have attached a drawing with indications of both turn around aspects for your convenience.

Please let me know if there anything additional we can do/provide in effort to expedite this project.

Thank you for your assistance!

Ms. Dayton,

As discussed during our phone call this morning, we will need a 40ft x20ft piece of land south of the proposed gate on Hartwick **dedicated to City** to serve as a turn around for any vehicles that enter the open portion of Hartwick (so as to not cause a dead-end situation). This piece should not overlap on the Hartwick ROW but should be in addition to the ROW. As you mentioned, there is scope to use a portion of the Euclid Manufacturing parking lot for this purpose.

The petition paperwork needs to be modified to show the dedication.

Please acknowledge that you agree to this and Mr. McCrary from Survey Bureau can start the process of revising the drawings/ paperwork for the petition. Please note that permission of abutting property owners will still be necessary to seek.

**Subject:** hold on petition x887

Mr. Bivings,

Per our conversation today. Please hold petition x887 until further notice. The petition as written does not satisfy the abutting property owners or the petitioner. The Petitioner and neighbors will resolve this at a later date and then DPW CED/Survey Bureau must get approval from Traffic Engineering.

Thank You

Keith McCrary

Ms. Dayton,

As discussed during our phone call this morning, we will need a 40ft x20ft piece of land south of the proposed gate on Hartwick **dedicated to City** to serve as a turn around for any vehicles that enter the open portion of Hartwick (so as to not cause a dead-end situation). This piece should not overlap on the Hartwick ROW but should be in addition to the ROW. As you mentioned, there is scope to use a portion of the Euclid Manufacturing parking lot for this purpose.

The petition paperwork needs to be modified to show the dedication.

Please acknowledge that you agree to this and Mr. McCrary from Survey Bureau can start the process of revising the drawings/ paperwork for the petition. Please note that permission of abutting property owners will still be necessary to seek.

Good morning Meena,

I went down to Hartwick Street today and found that from "property" to "property" is 50 feet. We will clean and concrete the area to accommodate a turn-around south of the proposed gate on Hartwick St. Additionally, a parking lot for Euclid Manufacturing staff and visitors will also be located south of the proposed lift gate on Hartwick St. I have attached a drawing with indications of both turn around aspects for your convenience.

Please let me know if there anything additional we can do/provide in effort to expedite this project.

Thank you for your assistance!

Good morning Mr. McCrary,

In effort to keep this project moving, please let me know what we need to do to fix/remedy/progress on securing limited access on Hartwick Drive.

As we discussed, it is Euclid Manufacturing's proposal to gate Euclid Avenue (from Riopelle toward the Railroad) and Hartwick Drive at the end of our buildings (1500 E. Euclid and 7991 Hartwick Dr.). We propose to have guard shacks at each lift gate. The gates would be open Monday – Friday 6 a.m. – 6 p.m. and staffed from 6 p.m. – 6 a.m. and weekends – providing for neighbor traffic and emergencies.

Additionally, we met with Wolverine Mailing and Mr. Bob Heidi Friday morning regarding their concerns with the plan. It is my understanding and we have been told both neighbors will support the project as described here.

Thank you for your continued assistance and as always, please don't hesitate to contact me with questions, concerns and solutions. My cell phone number is [\(734\) 751-2046](tel:7347512046).

Best regards,

Good Morning Dawn,  
From my end, I will be waiting for the revised paperwork from Survey Bureau incorporating the revisions we discussed. Once I receive the revised petition, I will respond to it.

Keith,  
Do you need anything from Dawn to go ahead with the revision?

Meena
