Honorable City Council:

RE: Petition No. 1172 – Giffels Webster request an encroachment into Woodward Avenue at 620 and 630 Woodward, between East Congress St. and Cadillac Square, with the installation of canopies and café seating.

Petition No. 1172 – Giffels Webster on behalf of Bedrock Real Estate Services request to install and maintain an encroachments with a canopies and café seating on the east side of Woodward Avenue, 120 feet wide, between Congress Street, 60 feet wide and Cadillac Square, 200 feet wide.

The petition was referred to the City Engineering Division – DPW for investigation and report. This is our report.

The request is being made to redevelop an existing building into a mixed use building, to promote street-level activity, and to provide for a possible future outdoor café at 620-630 Woodward Avenue.

Traffic Engineering Division – DPW (TED), reports being involved and approves provided certain conditions are met. The TED conditions have been made a part of the attached resolution. Planning and Development Department reports involvement as the building at 620-630 Woodward Avenue is in a Historic District, therefore the project will need Historic District Approval prior to construction.

Detroit Water and Sewerage Department (DWSD) and Great Lakes Water Authority (GLWA) report being involved, but have no objection provided the DWSD and GLWA encroachment provisions are followed. The DWSD and GLWA provisions have been made a part of the resolution.

All other involved City Departments, including the Public Lighting Department and Public Lighting Authority; also privately owned utility companies have reported no objections to the encroachment. Provisions protecting utility installations are part of the attached resolution.

I am recommending adoption of the attached resolution.

Respectfully submitted,

Richard Doherty, P.E., City Engineer
City Engineering Division – DPW
