This is in response to your email dated June 14, 2016 and received by our office on the same.

A review of the above petition with our department records indicates that GLWA has the following:

- ✓ **24-inch water main within Woodward Avenue**

A condition of granting permission to encroach into GLWA's 24-inch water main easement, GLWA will still have the right to fix or replace our 24-inch water main within the easement. The property owner will be responsible for replacement of property within the easement.

For locations regarding water and sewer facilities owned and operated by communities other than Great Lakes Water Authority (GLWA), **contact the local community/authority or private concern involved for updated information:**
