Good morning Victor:

Per our conversation back on 2/1/19, I told you that we need the consent letters from **ALL** of the abutting property owners to support the change before we can finish this process. If you haven't heard from them already, then you're best course of action is to send out a certified letter to them ASAP. When you send out your letters, make sure you request "signature on delivery".

Once you receive the certified letter signatures (please see attachment for example on what they should look like), make a copy of your signed return envelopes and/or green slips, scan and email the receipts to me ASAP.

Because it normally takes between four to six months for the Petition process to be completed, its has been over two and a half years since the process has been revised.

Please call me in order to discuss the matter further.

Good afternoon:

Per the conversation that you had with Mr. Keith McCrary this afternoon, attached are two drawings showing the "Revised" locations of the alley closure for Mrs. Lopez to choose from. Choose revision 1 or revision 2. Once selected, please e-mail back your preference so our office can proceed. We will need support letters from the property owners that are abutting the alley that would be impacted. Enclosed is the contact information of the parcels property owners that are in question (Property Owners highlighted in green, Government in yellow). The item in blue is the one who you have a signature already. If you have any further questions, please let me know.
