To whom it may concern,

I have submitted a petition to the county in a request to close the alleyway. You are receiving this letter because the alleyway is adjacent to your property. I have initiated the petition due to the unsafe condition of the alleyway. The alleyway no longer serves its intended purpose of trash collection and the street lights within the alleyway is no longer being serviced by the county. Therefore the alleyway has become an ideal area for illegal dumping and criminal activities. The alleyway has become dark and filled with overgrown trees, and litter. Criminals often used the alleyway to elude the police and commit acts of crime. With the closure of the alleyway, the residents whose property is adjacent to the alleyway may extend their property line equally if they so desire.

You may voice your concerns about the petition to close the alleyway by checking one of the boxes below along with a signature and forward this letter in the returned addressed envelope.

I agree with the closure.

I do not agree with the closure because
