---

Jim,

We do want to vacate these additional areas. We are looking for a total vacation of these streets and alleys.

Let me know if you need anything else from me!

Anna

**Subject:** Petition 931

Hello Ms Fishman,

Our office has all the needed responses and I am in the process of drafting a resolution to vacate the streets and alleys in the area of your request. While working on the resolution I have discovered two additional alleys that probably would best be vacated for both the Salt Company and the City of Detroit. One short north-south alley north of Bayside and west of Sanders. The second alley is the "back" alley running from Dunkirk to the alley first north of Dumfries along the old Railroad Right-of-way which I think was part of your original request, but doesn't show clearly on some of our maps. I have attached a couple of sketches of the alleys and the resolution that created the first alley.

Please confirm that your intentions are to vacate these two alleys along with the other streets and alleys in the petition 931 project area. In the resolution we will use our standard language to cover the needs of any utilities/City services that may be involved in these alleys. We also will amend our sketch to reflect the changes.

Feel free to call us if you have any questions or concerns.

Jim Knoll
