Sorry Walter but we are still waiting on the DEGC who needs a consent form from Hiram Jackson in the Chronicle Building on Randolph. The project is still very much alive on our side. Thanks so much for keeping in place

Good morning Mr. Paul:

I left you a V.M. this morning. Back in August 28, 2018, you emailed me concerning the status of getting consent letters from the abutting property owners. You replied:

Thanks for keeping it alive, Walter! We will keep working on it.

Because it normally takes between four to six months for the Petition process to be completed, its has been over a year and a half since the process has started. Please provide the information so your Petition request would not be subject to closure.

Sincerely

Walter L. Williams

Good morning Mr. Paul:

Just to let you know that all of the fifteen Utilities company responses has come in. Twelve of them came in with no objection. However, DTE Energy and Detroit Police Department has commented involved "OBJECTION" and Detroit Water and Sewerage Department has commented involved "COST". If you have any further questions, please contact the Utilities for further information.

I am still waiting on the consent letters from the abutting property owners in order to

complete your Petition request.

Remember that this phase in the Petition process are not complete until the issue with the Utility companies and receiving the consent from the abutting property owners has been resolved.

Sincerely

Walter,

Do you have a contact direct contact for Petition#1438? I tried contacting Vincent Paul (313.887.8502) as listed on the petition, but the number came back invalid. The petition states that a portion of the alley as requesting to "outright vacate" and then another section of the alley was to "vacate to easement"? I am trying to verify if the customer is requesting to "convert to easement" rather than "vacate to easement"? Plus we have multiple underground circuits at 4.8kV, 13.2kV and 208V running through the area that they're requesting.

Any sort of customer contact you may have on file would be greatly appreciated.

Thanks,

Nou Lor
