**P.L.D. OVERHEAD LIGHTS
ON EDISON WOOD POLES
LIGHTS FED BY EDISON**

A diagram showing a horizontal line representing a street with five poles. The poles are represented by circles. From the second pole from the left, a red line extends upwards and to the right to a central point. From this central point, four red lines radiate downwards to the second, third, fourth, and fifth poles. The second, third, and fourth poles have a smaller circle inside them, indicating they are fed by Edison. The fifth pole has a smaller circle inside it, indicating it is a P.L.D. overhead light.
