Walter:

Relative to petition 1622 for the West Village Green Alley to be converted to an easement we would like to cancel the petition. Our original and current intent is to maintain a public alley open to the public after construction.

In order to allow for the alley to be converted to a Green Alley, the storm water detention is planned to be detained within the alley ROW. This can be accomplished by issuing an encroachment permit or a utility easement to the permit holder.

Thank you,
