

Status Report for 2018 petition #170

April 13, 2020

This petition is by Guy Pelino request to vacate/convert to easement the south part of Riopelle between Erskine and Eliot.

The location is Riopelle at Erskine (former Roma Café) and the Café has had the use of Riopelle for some time. This part of Riopelle is located on Map 39. Through previous Council actions Riopelle from the North line of the café property was converted to easement in 1965 and then opened as a street in 2006. Planning and Development Department wanted the street re-opened to make some city parcels more development ready. There are plans in the works by City Engineering to improve Riopelle with new pavement.

In conclusion the petition would create a dead end and is not in accordance with future paving plans for Riopelle, and should be denied.
