Mr. Walter,

I am very sorry I did not get back with you. I have been waiting for Mr. Carl's response who still have not responded to me, at this time I would say go ahead and close the case. When we are ready to seriously move forward I will be reaching out to you myself. I appreciate all the time you have spent on this and thank you for all your follow ups.

Warm Regards,

David Dallo

**Subject:** Petition #494 - Petition Status

Good afternoon Mr. Dallo:

Detroit Planning and Development Department and DTE Energy has responded to your Petition request with a "Involved OBJECTION" and Comcast has responded with involved with/cost (please see attachments). You can contact the utility for more information. Can you provide me a copy of the letter that you provided to the Utility companies agreeing to their cost of removing their equipment?

I'm also checking up with you in order to see what is the status of your Petition, so we need the consent letters from **ALL** of the abutting property owners to support the change before we can finish this process. If you haven't heard from them already, then you're best course of action is to send out another certified letter to them ASAP. When you send out your letters, make sure you request "signature on delivery".

Once you receive the certified letter signatures (please see attachment for example on what they should look like), make a copy of your signed return envelopes and/or green slips, scan and email the receipts to me ASAP. Once I receive them, that I can move your Petition to the next step (please see attachments).

Remember that this phase in the Petition process are not complete until the issues with the Utility companies and consent letters is resolved.

Sincerely
