RE: PETITION TO OUTRIGHT VACATE 20 FEET of THE COMMERCIAL ALLEY WEST OF CENTRAL ROAD
 NORTH OFF LAFAYETTE BETWEEN LAFAYETTE AND NEW YORK CENTRAL RAILROAD.

Honorable Council:

As the Owner of the Springwells Plaza LLC I approach your Honorable Body to facilitate a moderate new development via the outright vacating of commercial alley that sit to the East of Lots 197 through 209 of Moses W. Field's SUB. All of these parcels owned by Springwells Plaza LLC. This vacancy would allow me to redevelop the vacant property.

There is no doubt that all members of the Honorable Council agree to have new developments in the City of Detroit small or large. I will be grateful of your approval to move with the project.

After review by your Honorable Body, kindly refer this petition to the City Engineer's Survey Bureau, for their subsequent direction to other affected City departments, plus the private utility and communication companies.

Sincerely,
 Carl Dallo

Honorable City Council:

Re: Petition No. 2353 — Springwells Plaza, LLC request to vacate Glinnan Street between W. Lafayette and New York Central Railroad, Petition No. 2353 of "Springwells Plaza, LLC", whose address is 21711 West Ten Mile Road, Suite 237, Southfield Michigan 48075, request to outright vacate Glinnan Street, 30 feet wide, between West Lafayette Avenue, 50 feet wide and the New York Railroad Right-of-way for the proposed shopping center.

The request was approved by the Planning and Development Department, the Solid Waste Division — DPW, and the Traffic Engineering Division — DPW. The petition was referred to the City Engineering Division — DPW for investigation (utility clearance) and report. This is our report.

The Detroit Water and Sewerage Department (DWSD) reports there is an existing water main located on Glinnan Street that has to remain in service for a hydrant. However, DWSD has no objections to the requested vacation provided that either an easement for the full width of Glinnan Street is reserved for DWSD facilities or the petitioner agrees to relocate the water main at no cost to DWSD.

DTE Energy Gas reports involvement, but no objection to the property change provided an easement of the public right-of-way is reserved. If the property owner and/or the petitioner must relocate DTE's gas facilities a cost of abandoning existing gas mains will be at the property owner, the petitioner, and/or the project expense.

All other city departments and privately owned utility companies have reported no objection to the changes of the public right-of-way. Provisions protecting utility installations are part of the resolution (if necessary).

I am recommending adoption of the attached resolution.

Respectfully submitted,

JESSY JACOB

Interim City Engineer

City Engineering Division — DPW
