

Status Report for 2019 petition #774

April 8, 2020

This petition is through Delray Mechanical for a development project north of Jefferson between Post and Harrington. The alleys in that block have been vacated as part of the Gordie Howe International Bridge(GHIB) project and a certified copy of the resolution as passed by City Council on July 25, 2017 for the GHIB is in the x774 file. The petition also seeks some DWSD approvals for the development.

In conclusion the petition is unnecessary for DPW-City Engineering since the alley vacation has occurred.
