

Status Report for 2019 petition #862

April 8, 2020

This petition is through Dickinson Wright for vacation of a dead end alley near the northeast corner of Jefferson and Fischer. The petition has circulated and has all responses in. There are several issues that will need to be addressed prior to resolving x862.

Outstanding issues are: DTE objection with no reason stated. There are costs associated with Comcast and ATT. DWSD has costs and conditions.

In conclusion the petition is for an outright vacation, and more work will need to be done with the petitioner to resolve the DTE objection and arrange for the cost of utility relocations.
