RE: HF Parking Deck – Site Plan Review  
Letter of Intent for encroachment.

Henry Ford Health System has a surface parking lot at the corner of Pallister and the John C. Lodge service drive. This lot will be replaced with a 7-story parking deck and a small surface lot for Shuttle buses.

Application to vacate the alley shown in gray on the exhibit has been previously submitted.

The request is for an encroachment of the combined sanitary/storm water easement (shown in orange on the exhibit). The easement will be crossed to connect Parking Garage storm water drainage to the storm water detention system located under the surface lot.

Sincerely,

Russell W. Hinkle, AIA  
Senior Associate
