Mr. Jered Dean
City of Detroit - DPW

Project:

2529 Orleans
Detroit, MI.

BLD20201-05530

Mr. Dean,

Please accept this petition to establish an encroachment for the existing vaults extending from the basement of the building, that we are rehabilitating, into the ROW along Orleans, beneath the sidewalk. This vault is 12 feet x 7 feet and is not is current (or future) use; however, it is a feature from the original construction of the building in the late 1800's. This petition is being submitted at the request of DPW for the correction/update of the record for the area.

Thank you for your attention in this matter.

Best Regards,

Brian R Ellison
