August 25, 2022

City of Detroit

To Whom It May Concern:

The tenants of 508 Monroe St. (Five Guys) would like to change out the face in their existing projecting sign to represent their updated company image. The only change in the sign will be the colors. There is no change in text or size of sign.

It has come to their attention that an encroachment permit was never applied for when the sign was initially installed, and they are looking to remedy that at this time.

Please feel free to contact me with any questions or concerns.

Respectfully,

Mary Costakes
