City Engineering Division

Subject: Encroachment Request
Anthony Wayne Drive Student Apartments
4839 Third Street (Anthony Wayne Drive)
DPW Plan Review: PR2020-624

Dear Mr Dean:

Wayne State University is seeking to obtain an encroachment for the installation of 313 feet of 8" drainage pipe and three (3) catch basins within the public right of way. The storm sewer will range in depth from 18" to 36" and is proposed to help alleviate saturated lawn areas within the right of way. The sewer construction will be overseen by the Gilbane Construction Company which was the General Contractor for the Anthony Wayne Apartments project started in 2017. The project is being constructed to benefit Wayne State University (please see contact information below).

Contact: Ms. Frances Ahern
Senior Director - Design and Construction
Wayne State University - Facilities Planning & Management
5454 Cass Ave
Detroit, Michigan 48202

The project was submitted for permits in the fall of 2020, however, the plan review was suspended due to the requirement for a maintenance agreement and encroachment. This information is being submitted to support that request. If you have additional questions, please feel free to contact me at 313-481-1252.

Sincerely,
OHM Advisors
