Re: Tonico (SGN2022-00283)

All,

The 30" x 21" Tonico sign is an externally illuminated double sided blade sign with push through copy. It is for advertisement of the company. The placement of the sign extends roughly 31 ½" into the public right of way for line of sight with an above ground height of 136" underneath. It is secured to the wall by 3/8" thru steel bolts. As the owner, the intention of the sign is to attract pedestrians and drive by traffic into the store as well as a public identifier of the company's location.

Sincerely,

George N'Namdi
