## LETTER OF INTENT

To whom it may concern (Permitting)

**Re: Extenet request for approval of a ROW Encroachment permit to place an electrical power supply cabinet in the public right-of-way of Beaubien Street between Clinton Street and MaComb Street.**

Dear Sir/Madam:

Extenet has entered into various License Agreements with the City permitting the placement of Small Cell equipment in the public right-of-way. Our Small Cell Telecommunications network in Detroit serves our carrier customers, such as Verizon and T-Mobile, and the cabinet is necessary to supply power to serve our network.

We were previously granted approval from the City to place four (4) similar electrical power supply cabinets in various locations in City right-of-way in 2020.

We respectfully request that the City Council and City Engineering Department approve our request. We will submit construction plans to support the request and will be glad to answer any questions that may arise.

Your cooperation in this matter is greatly appreciated.

Sincerely,

A handwritten signature in blue ink that reads "Eric Lovvorn". The signature is fluid and cursive, with a long horizontal flourish extending to the right.
