Crosspollinationcorridor.org

To: The city of Detroit Right of Way management

The Cross Pollination Corridor Project is a non-profit, which has been serving the Brightmoor community since 2016. The Cross Pollination Corridor Project cleared the blight on Chatham st. Removed burnt out houses and purchased all of the lots on this street. We offer multiple events throughout the year. Including weekly family movie night. We are asking BSEED to reconfirm our conditional land use. They are requested that we provide parking other than the parking on the Chalfonte, which is the side street. Since, Cross Pollination Corridor owns all of the property on this block of Chatham, we are asking that the street is vacated for Cross Pollination Corridor parking intentions. The intentions can be viewed on the submitted site plan.

Sincerely,  
Roselyn Flint  
Executive Director
