RE: Right of Way Management

Our community owns the land off Fernwood. In the attachment, you can see that our land has an alley running through it and that we also have electricity pipes crossing it. Since this is through our property, we are not able to seek the signatures of our neighbors.

We approve DTE's right to enter our property whenever necessary to access the power lines.

Our UCOM Org President and Secretary have signed the form.

Thanks,

Sarah Kironde Walugembe
UCOM President
