To whom this may concern,

DTE's PMO team is doing a project at Warren Service Center (6200 W. Warren Detroit MI). The city thinks there is still a public street running through the site (Milford St). We believe this was vacated many years ago. We searched our records and there is no reference of this road in the deed or any of the documents. Most of these documents are from the 1950s (DTE purchased the site from Ford in 1956). We were advised that a vacation with an easement is the best route for this scenario. It is our hope that you view our request favorably. If you have any questions or concerns, please feel free to contact me.

Kind regards,

William J Wade
