Re: Basco – 220 Congress, Detroit, MI 48226 (SGN2024-00234)

All,

The 18' x 5'-6" internally illuminated double sided projecting/blade sign at Basco features the branding of three business within the building – Marko Law, Lewis & Munday, and Nuevo Sol. The basis of construction is an aluminum extrusion cabinet with acrylic tenant logos. The attachment to the building is a 6" x 6" aluminum tube support. The placement of the sign extends 5'-6" into the public right away for line of sight with an above ground height of 40' underneath. As the owner, the intention of the sign is to attract pedestrians and drive by traffic into the building as well as a public identifier of the businesses and building's location.

Sincerely,

Roger Basmajian
