Overview of project: Bishr Poultry & Food center is a food service establishment that specializes in the preparation and sale of chicken-based dishes. This shop offers a variety of chicken meals, such as fried chicken, grilled chicken, chicken sandwiches, wings, and chicken tenders. They may also serve side dishes like fries, coleslaw, biscuits, and beverages.

With Detroit's recent street renovations, we propose replacing the façade for our location to meet the recent city upgrades. An encroachment approval is essential for the awning that extends over the side walk as shown on the blue print. New design standards in the area create a modern flow that we are looking to achieve. We ask that you please allow us to move forward as proposed.
