1 IRRIGATION PLAN

Scale: 1"=20'-0"

The main plan shows a large building footprint with a parking lot to its left and a street to its right. The building footprint is outlined with a thick black line. The parking lot is filled with a light gray pattern. The street is labeled '12" x 14" COMBINED SEWER' and '3" x 4" 12 RING BRICK COMBINED SEWER'. The plan includes numerous irrigation symbols: circles with a cross for tree watering drip rings, and rectangles with a cross for quick couplers. A dashed line indicates the limit of work. A note at the bottom right says 'CONNECT TO WATER ROOM, SEE MEP FOR BACKFLOW PREVENTER'. The plan also shows existing buildings, planting areas, and various utility lines like '4" x 6" C COMM', '4" x 6" C COMM', and '4" x 6" C COMM'. The plan is oriented with North at the top.
